Know the Fun of Working with a Fine LATHE

Know the Satisfaction of owning a DELTA

Check these outstanding quality features:

- heavily ribbed for strength and rigidity
- Timken tapered roller bearings carry the spindle
- double-row index mechanism built into headstock—invaluable for quick division of spindle or face-plate work
- No. 2 Morse Taper centers and other attachments for quick changes; heavy non-jamming thread on both ends of spindle permits use of either inboard or outboard face plates, and many other accessories
- 5/8" hole through headstock for repetitive work on rods and dowels
- graduated tail stock sleeve machined inside with a No. 2 Morse Taper and adjustable pointer for convenience in drilling work held in chuck
- handy lever locks tailstock to bed—ball lever at rear locks or unlocks tailstock sleeve in one easy movement
- set-over tailstock—easy to align—centers accurately
- slide rest and other attachments for light metal turning available at small cost
- 4 speeds—915, 1380, 2150, 3260 rpm

MAKE INTERESTING PROJECTS LIKE THESE:

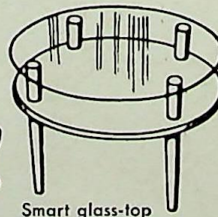

Graceful colonial table

Brilliant "zebra" bowl is simple

Turned wine set

Smart glass-top coffee table

Make tables, lamps and scores of attractive items—do fine professional-looking work with a Rockwell-built Delta 12" Lathe.

A fine lathe means you can do work better, faster and easier. Yet a high quality machine doesn't mean high price—not when it is a DELTA. Be sure to see this tool at your Delta Dealer's. Note its many quality features and its wonderful-value price.

10 *New DELTA Hard Cover Books* show you "How To Get The Most Out Of" your power tools. Each beautifully printed book is clearly written and illustrated, with many new projects and ideas.
