

# Here for You

You and your healthcare provider share a trusted and professional relationship to nurture your health. GRMC is proud of the exceptional training and skills of the medical professionals who serve area residents. As of August 2006, GRMC has 71 credentialed and affiliated healthcare professionals. Our active medical staff is the largest to date. Plus, we expanded our listing to include affiliated providers, those providing services in one of our facilities.

Credentialing, according to the Federation of State Medical Boards, is the process of collecting and evaluating a physician's or healthcare provider's credentials earned through education, training, and experience to determine the person's eligibility and privileges to treat patients in a hospital or healthcare facility.

GRMC operates a Community Resource Nurse Line for residents and physicians to access with questions or for information on finding a physician. To access please call the GRMC resource desk at 641-236-2922 or 800-292-4020.
