

**LEE ROAD TO BE PAVED.**

S.H.V., C. The people living near Lee Rd. will be glad to hear that this road is to be paved. The road is now paved with macadam but this is now worn down considerably. It is full of holes and ruts. After a rain storm Lee Road is a sea of mud which makes it very soft for the traffic. This is a further step to the paving of the entire road, which extends from Euclid Ave. to Broadway, through East Cleveland, Warrensville, Randall and Bedford.

**THE SHAKER HEIGHTS COUNTRY CLUB.**

A short distance west of Center Road, on Buckeye Road, is the new Country Club. This club has a beautiful course of eighteen holes. It was built and laid out after the style of Donald Ross. The course is very large and the surrounding scenery is very beautiful. There are many fine boulevards winding through the woods which border the lower part of the course.

The building, itself, is very large and spacious, too. It contains a big dance hall with a fine, large fire-place. Around the hall and extending around to the back runs a wide porch. There are a great number of rooms up-stairs, to be used, for the greater part, as bed rooms.

There is to be a continuation of the present Shaker Boulevard car line and the new line will extend over to Buckeye Road, directly in front of the club house.

The basement of the building will be bill room. There, also, will be water rooms, showers and other conveniences.

You cannot hit a nail with a sponge, no matter how much you soak it.

**IT WAS INSURED.**

Dr. C. N. Wasser came near losing his automobile (?) the other day. The machine (?) was at the Owner's Garage on East 13th Street, Cleveland, when someone carelessly threw a match under the car (?), where there happened to be some gasoline. The gasoline started to burn, also the car (?). The men in the garage tried to extinguish the blaze with a chemical extinguisher, but could not. The fire department was then called and they succeeded in putting out the fire. The damage to the car (?) was slight and Dr. Wasser is again using it.

**THE WALL'S BABY.**

The baby boy who was born last week to Mr. and Mrs. Wall of Broxton Road is doing fine. We have not learned his name, if he has one already. He is their fourth child.

That you may know that he is in good health, just stop a moment, any day, on Lee Road opposite the Wall home and you can hear him give a good account of himself.

**HOUSE ON FIRE ON COVENTRY.**

One of the five new houses on Coventry Road, the one nearest Shaker Boulevard, and belonging to Mr. Kirkendale, caught on fire a few days ago. The watchman put it out before much damage was done. The fire was found to have started in a pile of shavings.

What is your son doing now?  
Wielding a paste brush and scissors.  
Paperhanger or editor?

## Frank Meyers Better.

Frank Meyers, "Fisherman", who has been ill with chicken pox for several weeks, is now much better and is again attending the Shaker Village School. He has not lost his ability to indulge in his various "monkey-shines".

## DOG KILLED.

Mr. Cashman's dog was not so good a dodger of automobiles as is the dog of Mr. Grasselli. The car was not a "Dodge" car and did not, therefore, have a warning sign "Dodge" printed on the front. The poor dog did not get sufficient warning for this reason and was run over.

Mr. Cashman has already replaced this dog by buying another, and has given this new dog the same name the first one had, "Cricket".

## BOY'S Y. M. C. A.

If you wish your boys to have a great time this winter, take out a membership in the East End Y. M. C. A. They can then swim, play games, go on hikes, read current magazines and do many other pleasant things there. Do not delay in this any longer. It will add to the health of your boy, too.

## CARS OFF TRACK.

Several times a week the Shaker Blvd. cars jump the rails. This occurrence no longer seems unusual, but it should

be. This means loss of time and money to the people of the village and we think a very little money spent by the railway company would eliminate the trouble. We should be entitled to good service now - the mere fact that we are soon to have a rapid transit and a better line than any other suburb of Cleveland should not prevent us from having good service now.

## MAKES WIRELESS.

Raymond Van Sweringen has made a wireless receiving station at his residence on Sedgewick Road. He has already received messages from the distant point of Washington, D. C.

## SHELTER HOUSE.

The shelter house built at the corner of Lee Road and Shaker Blvd., and the one near the School building are keeping many from getting cold feet these days. They are already showing signs of disfiguration and we hope that none of our readers will take it upon themselves to add to these ornamentations.

## BASKET BALL GAME.

The Shaker Heights School Basket Ball team played the Warrensville High School team, Thursday, January 28th. Of course, they lost to the high school but they put up a good game and they scored eight points while their larger opponents were scoring twenty-eight.

## C. A. GRASSELLI WINS PRIZE.

At a party given by John and Bob Clark of Drummond Road, Caesar Grasselli won a box of candy for pulling the best taffy. He should start in the candy business.

The wise parent or teacher never laughs at the boy who is trying to do anything practical, even if the thing is not practical at all.
