

Wake Up Saugatuck and Douglas

Do you know two of the main supporters of the Human Rights Initiative are the owners of The Gay Resort, Douglas Dunes and Bently's Antiques. Do you also know they are part of the making and in association with 3 explicit sex movies featuring our beach, the homes on the hill, downtown businesses, as well as City Hall? The message seems to be anything goes, this area is an open gay resort. The videos are titled Saugatuck Summers, Down in the Dunes, and The Men of Lake Michigan, and are available nationally in the porno section of video stores. Is this what we want our city to be? Be careful on passing a gay rights legislation that is hiding behind the title, Human Rights.
