

THE HUT

110th INFANTRY, U. S. A.
CAMP HANDCOCK, GEORGIA

March 6, 1918.

Dear sister Nell: Will write you today
as we have 1/2 day off. We are both well but
Edd was unlucky and got in quarantine
again for measles,

We are taking up signaling
in the S. O. S. this week and we are
having it real easy,

It is better than a flutter
down here. The fruit trees are in
bloom and it reminds me of later
in the Spring. From what I hear
from the officers I don't believe we
will leave for quite a while yet
I guess on account of the

climate in France we will get
our complete training on this side,

We did not get back in time
to sign the payroll so we won't
get any pay until April 15.

I am just \$20.00 in the hole
after my furlough so if you can
see the others and send me that
much & can send the most of it
back when I get paid in April
for I will get two pays there,

& guess I will send you my watch
for what I borrowed before. It is a real
good one and would cost you about
that much if you had one.

We stopped in Washington D.C. and
had a grand time. If you ever have a chance
you should see the city. Hoping you
are all well & will close lovingly
P.S. If you can get them I would like for
you to get me two suits of B.V. D's size 40
and send to me.
