

## Elkhart County Fair.

On the 24th & 25 inst., the Agricultural fair of Elkhart county is to be held at Goshen, it being the first one we suppose that a considerable amount of interest will be manifested and the farmers of that county will be on hands with their stock to compete for the several premiums offered. We would like to see some of our Kosciusko farmers there with some of their fine stock,—although not entitled to compete for premiums we have no doubt but our neighbors of Elkhart would be glad to see some, of the fine cattle and horses raised in Kosciusko on the ground—and perhaps the fair at Goshen might induce our farmers to wake up on the subject, and see what Kosciusko can do in the way of getting up a fair in our own county. From the present appearances we think that *our* farmers do not manifest sufficient interest on the subject.—*Kosciusko Republican.*
