

Kellett School
2003-2004

It is with eager anticipation that I look forward to the publication of the yearbook

Within its pages are captured every aspect of our vibrant community. This year's splendid edition will be for us all, a lasting and very special record of yet another successful and eventful year for our thriving community.

Thank you to everyone, pupils, staff and parents for their contributions to this magnificent yearbook.

Front Row Joyce Yetman, Lucas Cox, Cindy Chan, Sue Harvey, Ann Mc Donald, Anne Paterson, Anne Davidson, Amanda Duffy

Reception, Class 1 | Miss S. Lewis

Kitty Roberts

Lydia Stonehill

Hannah Coombes

Back Row Ben Penton, Se Won Park, Edward Beccle, Frederick Ashe,
Edward Mayall, Rebecca Radford, Jack Freer

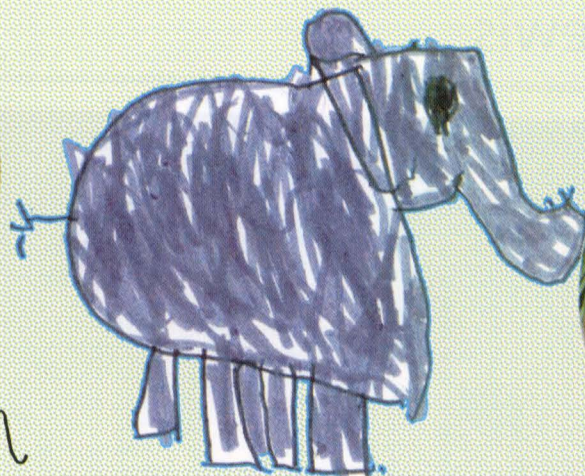

Middle Row Catherine Fisher, Gordon Mason, Connie Boeree, Oscar Middleton,
Harriet Adams, Sasha Faure, Robert Fraser, Eliza Kidd

Front Row Mrs Karin Chandler, Finn Loiterton, Dylan Reilly, Sophie Krantz,
Ewan Evans, Avery Bullwinkel, Finlay McLennan, Elijah Jordan,
Miss Sarah Lewis

Dylan Reilly

My favourite wild animal is an elephant. I like them because they can pick up anything with their trunks. Their trunks are very strong.

Connie Boeree

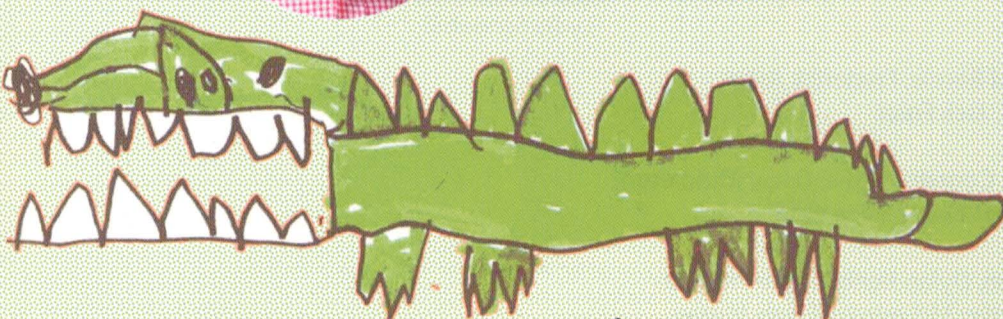

My favourite wild animal is a tiger. I like them because of the colours. They are orange with black stripes. I have seen a tiger and I have brought my toy tiger to school today.

My favourite wild animal is...

My favourite wild animal is a crocodile. They are green and I like green. Crocodiles snap and swim.

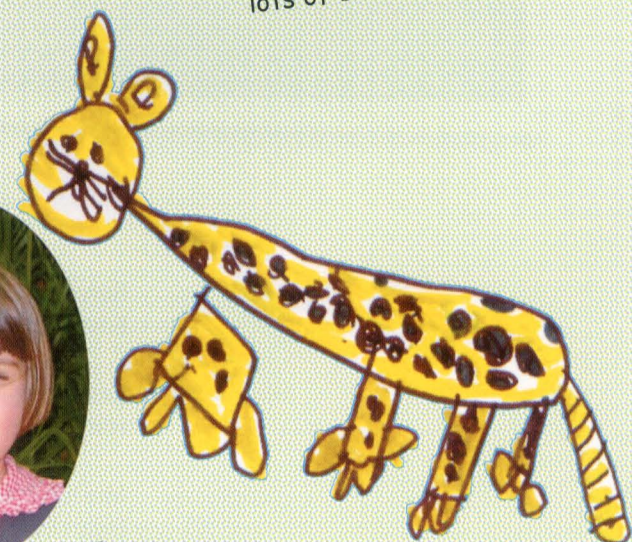

Ben Penton

My favourite wild animal is a cheetah. I like them because they live in a cave and they scratch and bite. They have lots of black spots.

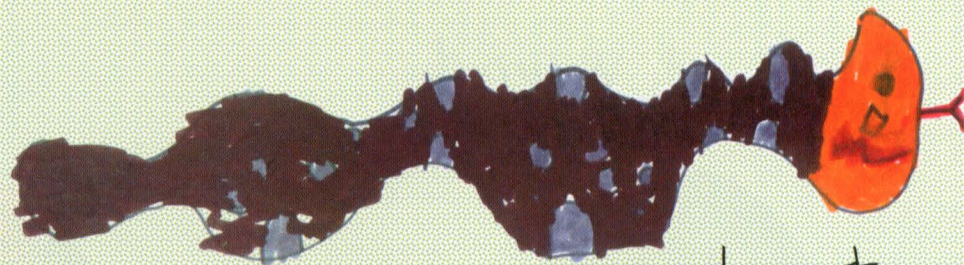

Avery Bultwinkel

Catherine
Fisher

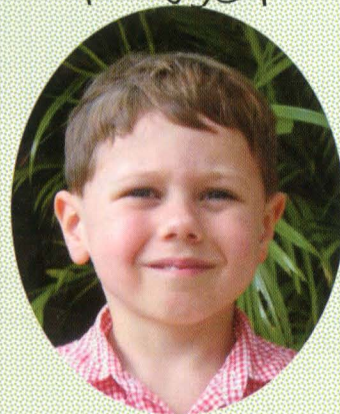

My favourite wild animal is a giraffe. I like them because I love their long necks, they are long so they can eat the leaves. They make quiet noises.

Robert
Fraser

My favourite wild animal is a snake. I like them because they slither and also because they can curl around trees.

My favourite wild animal is a wart hog. I like them because they spray mud. I like it when they roll in mud.

Edward
Beccie

My favourite wild animal is a zebra. I like them because I like their black and white stripes. If I had one I would call it Alexander.

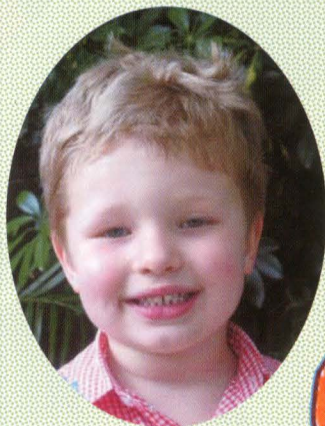

Eliza
Kidd

Freddy
Ashley

My favourite wild animal is a leopard. I like them because they can run fast and climb trees. They are yellow with black dots.

Edward
Mayall

My favourite wild animal is a tiger. I like them because they have sharp teeth and they are big and strong.

My favourite wild animal is a leopard. I like them because they run fast and can catch their prey so quickly. They are so spotty it has a million spots and it even has them under its tail.

Gordon
Mason

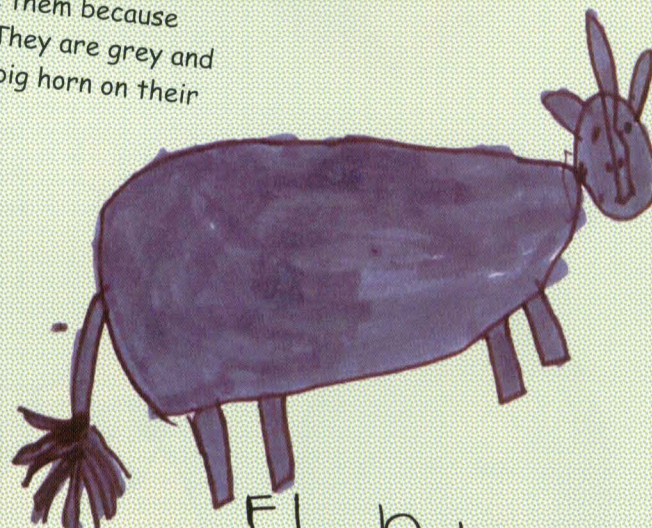

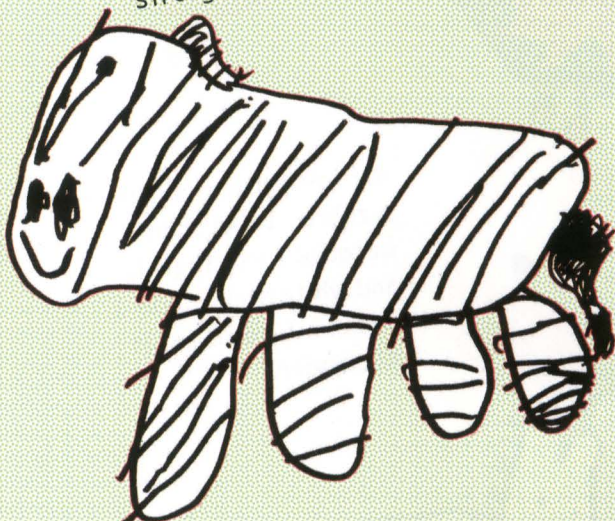

My favourite wild animal is a rhino. I like them because they bash. They are grey and they have a big horn on their head.

Ewan Evans

My favourite wild animal is a zebra. I like them because they have black and white stripes, but I don't really like wild animals because some of them kill you. I prefer friendly animals.

FLHh
LOITERLOH

My favourite wild animal is a rhino. I like them because they have horns and they charge. They are strong.

Oscar
Middleton

My favourite wild animal is an alligator. I like them because they snap with their big sharp teeth.

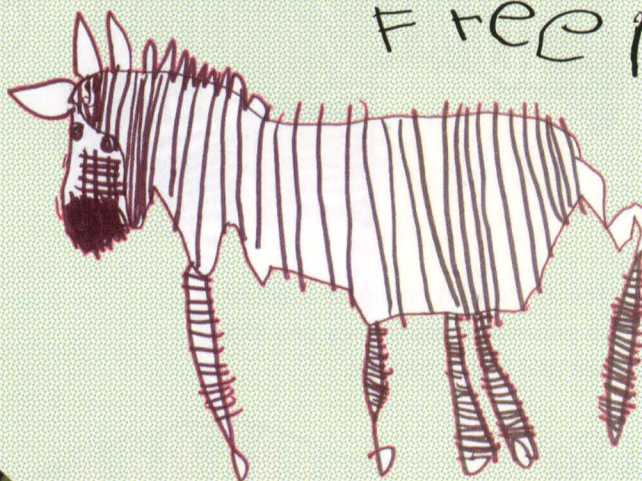

Jack
Freer

My favourite wild animal is a zebra. I like zebras because they have black and white stripes and they make neighing noises when they play.

Rebecca
Radford

Sewon Park

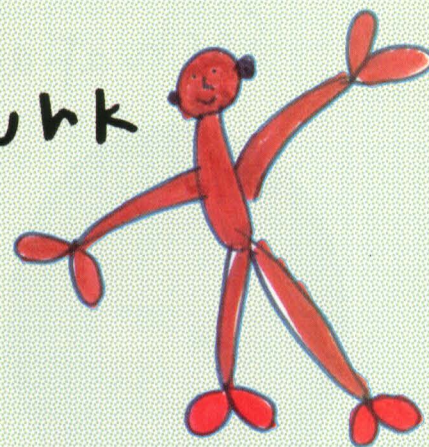

My favourite wild animal is a giraffe. I like them because they have long necks to eat trees.

Hannah Thomas

My favourite wild animal is a chimpanzee. I like them because they can swing and climb in trees. I saw a big one on the t.v.

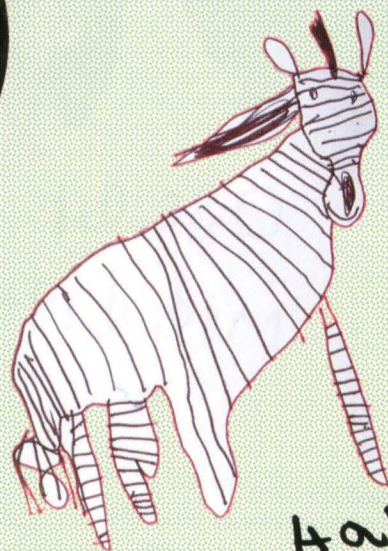

Lydia
Stonehill

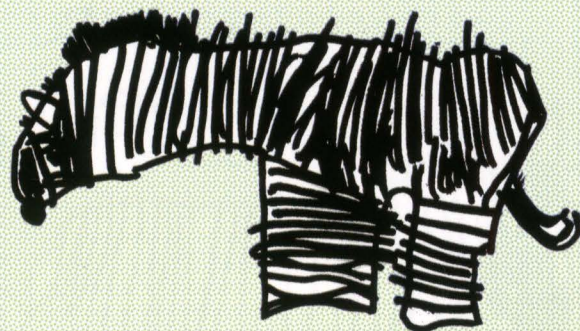

My favourite wild animal is a monkey. I like them because they swing in the trees, they eat bananas and they hang from their legs, they make me laugh.

My favourite wild animal is a zebra. I like them because they are stripy. I have seen a real zebra.

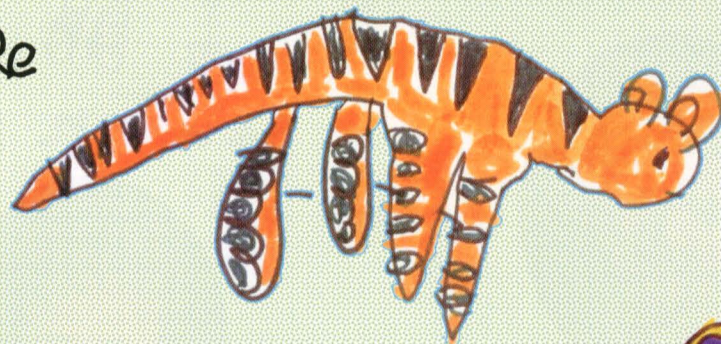

Harriet
Adams

My favourite wild animal is a zebra. I like zebras because they are like horses and I love horses.

Sasha
Faure

My favourite wild animal is a tiger. I like them because they eat people and can run very fast. They are black and orange and scary with very sharp teeth.

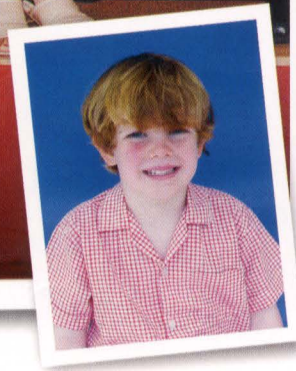

My favourite wild animal is a snake. I like snakes because they are long and slither and go hiss.

Kitty
Roberts

Sophie
Krauts

Reception, Class 2 | Miss A. Malcolm

Charles Abate

Maya Abuali

Benjamin Forbes

Matthew Bull

Reception 2 - Amazing Pets

Bertie Batman

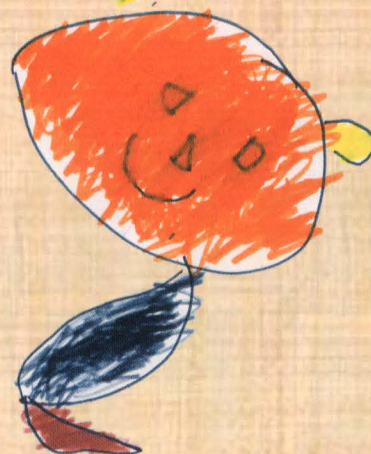

"My flying dragon would take me on a journey to Korea."

"My cat would be a nice cat and would play with me and my brother Eric."

Adam

McN

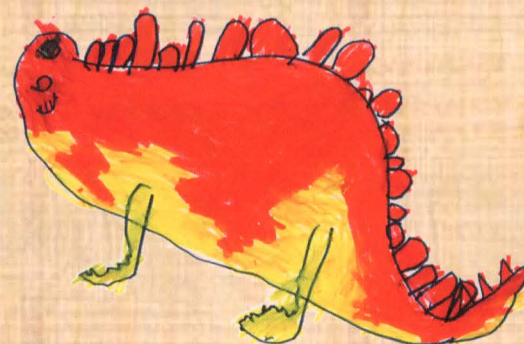

"My dinosaur would play with me and we would roar at each other."

Olivia Swan

"I would jump in my Kangaroo's pouch. When it jumps, I will reach the clouds."

Benjamin Forbs

Charlie Pepper.

"My dog will jump up and make me laugh. He can also do magic tricks."

"My fish has magic scales. I can pull one out and make a wish."

Isabel. Corner.

"I would call my horse Moonlight and feed her oats, straw and water."

Anna
Cooper

Jacob
Hawes.

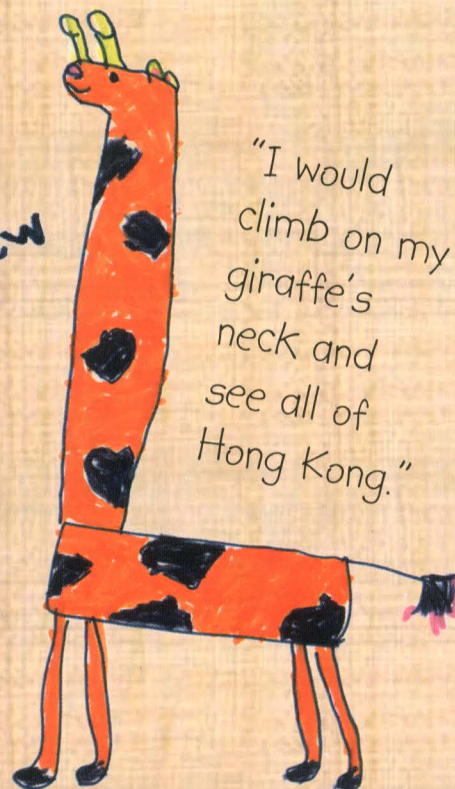

"I would ride on my tiger's back. He is very fast and I would have to hold on to his ears."

Matthew
Bull

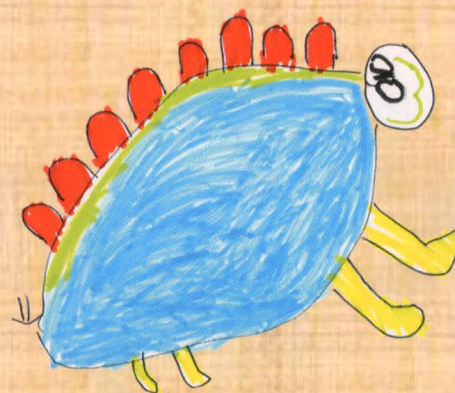

"I would climb on my giraffe's neck and see all of Hong Kong."

Jonathan Binkett

"My dragon would take me on lots of adventures. He would help me find treasure.."

Dillon Falvy

"My dinosaur would run very fast. He would take me to the desert so I can could meet all his friends."

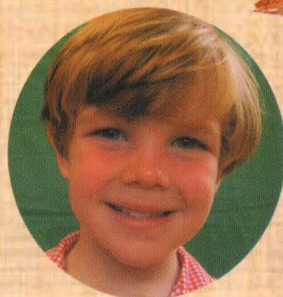

Charlie

"I like to take my dragon to bed with me. We would play cars together. My dragon wouldn't hurt me. He would be very friendly."

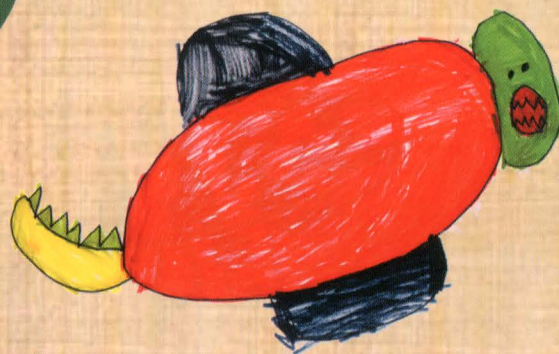

"My dog would be big and strong. He would lick me and chase me."

JACK ROBIN.

Cosima Bugl.

"My dragon would let me fly on his back. We would go on a picnic and have jam sandwiches."

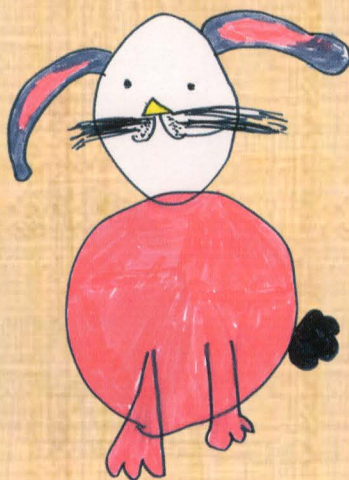

"I would call my lamb Mary. I would feed her milk from a bottle and she would be soft to cuddle."

Maya Abui

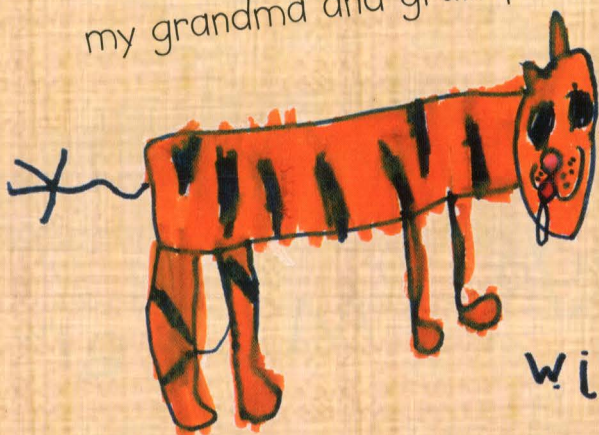

My rabbit would give me flowers and cards and push me on the swing."

Charlotte Loams.

My sabre-toothed tiger would let me ride on his back to England to see my grandma and grandpa."

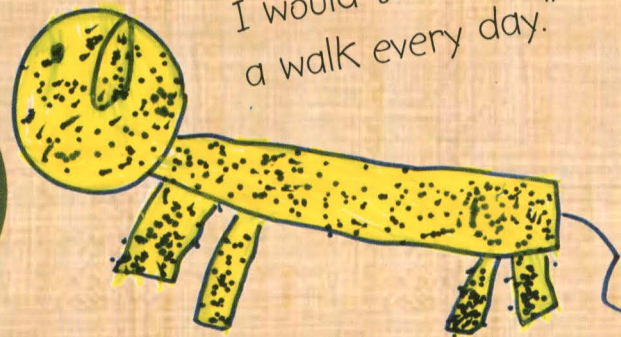

Natasha wilkinson.

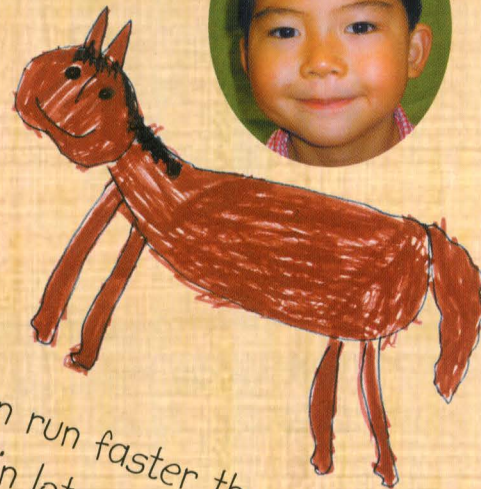

Hani Amed

"I would look after my cheetah very well. I would take him for a walk every day."

Lincoln Yeung

"My Horse can run faster than a jaguar and he would win lots of prizes."

Joshua Davis

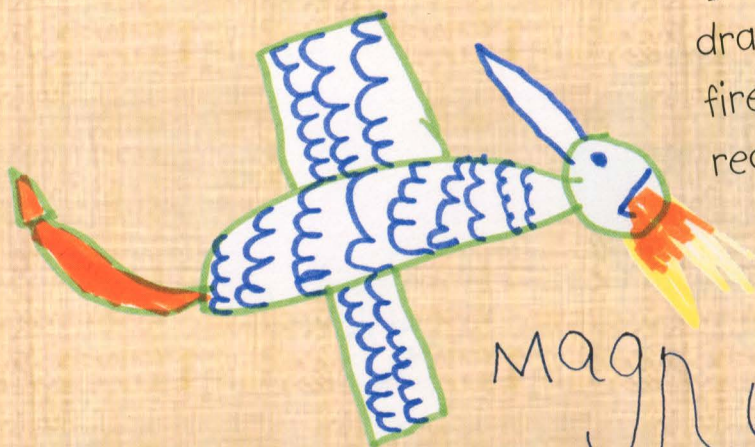

"My dragon would take me on a great adventure to Ocean Park."

Phoebe Red

"I would sit on my horse and tell it to go as fast as it can. It would live in a stable in my garden."

"I would give my dragon some fire biscuits and red water."

Steng.
Magnus

"My rabbit would be magic. He would be able to fly and turn into any other animal."

"I would love my dog very much. We would play fetch together."

May Gregory

Mya

Miller

Reception, Class 3 | Mrs V. Anderson

Back Row Josephine Ellis, Philip Ascough, Lauren Chillington, Tom Bischoff,
Harry Kitson, Jemima Barr, Axel Leven

Middle Row Magnus Douglass, Toby Marmion, Joshua Carroll, Charlotte Maynard,
Joy Ansell, Neil Griffin, Katherine Yang, George Zhai

Front Row Mrs Amanda Duffy, Allegra McCormack, Simon van Rijsingen,
Jacob Frankham, Hannah Batty, Bessie Elliot, Izabella Simpson,
Oliver Berg, Mrs Val Anderson

My wish is to have Superman, Actionman, Batman and Robin dress up clothes. If I had these I would be able to save the day.

Alexander

Charlotte Maynard

My wish is to go to Africa to see the lion Kiara who lives on Pride rock.

Wish Upon A Star With Reception 3

My wish is to have a tea party for Mrs Anderson, Mrs Duffy and Mrs Hanna. My teapot would have to be massive.

George Zhou

My wish is to change into a tiger. I would be very kind and help all the other animals.

Bessie Eulox

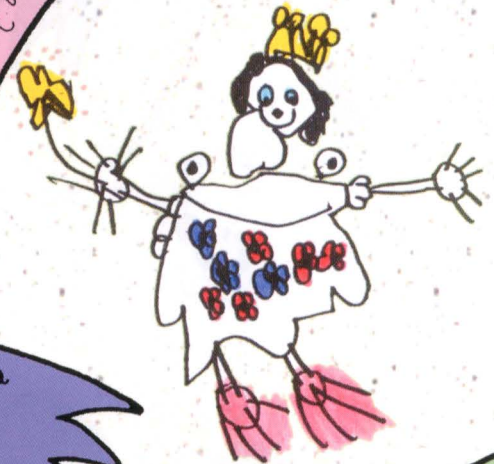

My wish is to be invisible for three minutes. I would trick people by juggling balls.

Hannah Batty

My wish is to have a magical fairy bead necklace. I would be able to help my friends with their wishes, by giving them my necklace for two days.

Allegra McCot Mack

My wish is for a horse. I would care for it in a field in Hong Kong. Her name would be Princess.

Izabella Simpson

My wish is to join the army. I want to be a soldier.

Harry Cresson

Jacob Frohman

My wish is to swim with crocodiles. I wouldn't be scared, as I'm a brilliant swimmer.

My wish is to bake enough cookies for all the people in the world. I would have to buy 18 eggs.

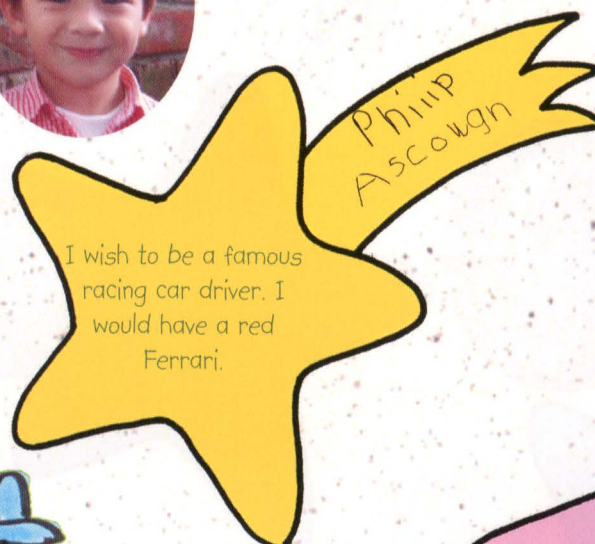

Lauren
Chillington

Phillip
Ascough

My wish is to be with my big sister, Jessica in her classroom. We would read books together.

I wish to be a famous racing car driver. I would have a red Ferrari.

My wish is to have a magic English calculator. It's so amazing that it can tell you all the letters and numbers. My calculator would be able to fly to my house and to school.

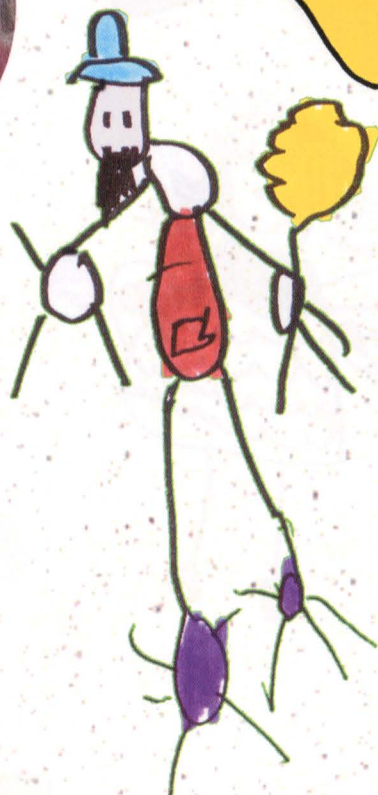

Katherine
Yang

My wish is to have my own computer. I would be able to play Buzz Lightyear games.

Neil
Griffin

My wish is to have a hamster called Jack. I would buy him a special house with an exercise wheel.

Joshua Carroll

My wish is to have enough chocolate, strawberry and vanilla ice cream to fill the Reception three classroom.

Joy Ansell

My wish is to be a Barbie doll. I would visit Australia with my Barbie friend Joy.

Josephine Ellis

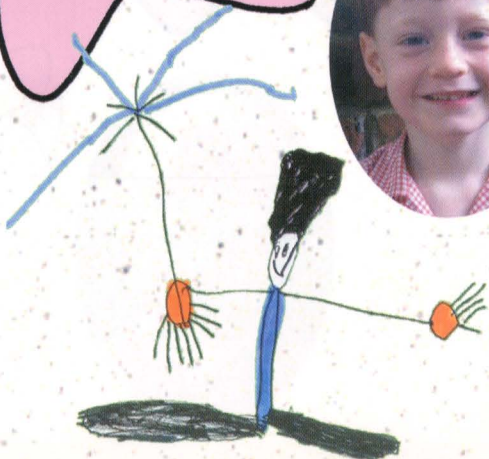

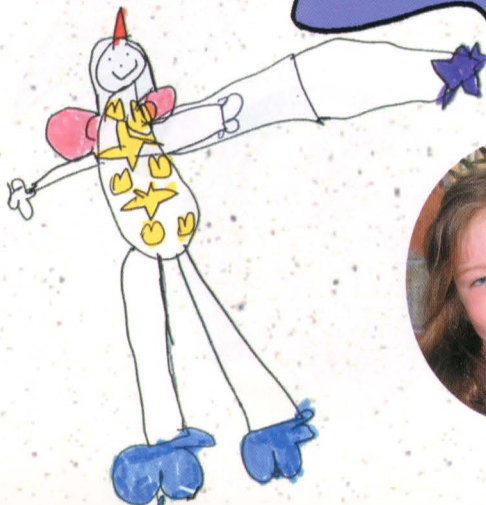

I wish my Mum would be a little girl again and go to my old Peak pre-school. That would be fun.

Te Mima Barr

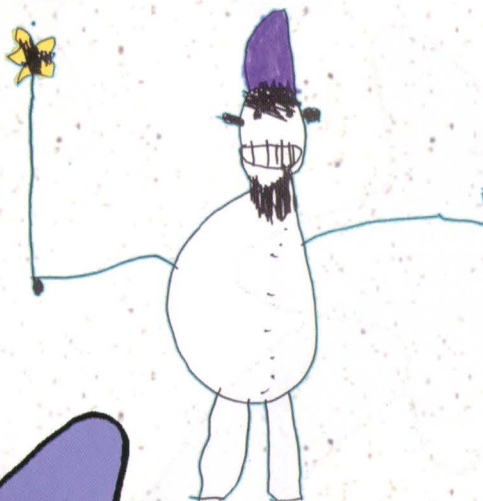

My wish is to be James Bond. I would wear a white shirt, black trousers and a bow tie.

Magnus Douglas

I wish I could turn into
a bionicle toy called
Rochie. I would be able
to fly while sitting down.

Tom
Blanchhoff

My wish is to be
Peter Pan. I would fly
to the ship and see
Captain Hook.

Simon
van Ruzingen

My wish is to take Simon
on a speedboat to the
Netherlands. I would drive
so fast.

Thomas
Mannuel

My wish is to be fiery
dragon. My Mum and
Dad would also be
dragons. We would go
to the beach for a
picnic.

Toby
Mannion

Primary 1, Class 4 | Mrs C. Allams

William Clemence

me paint the Sun when I was
littell I love it when my
mymmy tickles me.
by tieran Patrick Keilthy

I love it when I have Swimming
Lesen and my mom picks me up.
Then we go home in the car.
we Play games when we get home.
By seamus Whoriskey

I Love it When we ol
go scing to wisler
it is a lot of fun.
Jared Newton.

Primary 2, Class 7 | Mrs G. Driver

Katie Kearns

Andreas West

Back Row Julia van Rijsingen, Grace Pittar, Emma Swift, Olivia Bradbury, Joshua Andrade, Dieken Torpey, Siobhan O'Brien

Middle Row Miss Eva Chui, Jade Wooldridge, Charlotte Zonis, James Swain, Andrew Stewart-Cox, Justin Wah, Laura Parsell, Harrison Steeple, Max Haller, William Robinson

Front Row Mrs Jenya Hayhoe, Justin Tung, Katie Webster, Milo Bugel, Isabella Priestley, Kieran Noble, Mike Ko, Mrs Gill Driver

My Weather Poem

Rain goes plop, plop, plop, plop
when it is raining.

Lightening bangs and booms
when it has a fight.

Sun is warm and cosy.
You can never touch it.

Wind makes trees
when it goes by.

by Katie Webster

A Valentine for my Family.

Roses are Red Violets are blue,
come to me and I love you.
you and me make A happy family,
come on lets have fun,
Hip hip lets run.
We are all together,
But best of all I love you.

By Milo Bugel

About me

Cats are my favourite animals.

What's are what I wear.

Aeroplanes are what I fly to the
States in.

Rain drops on me when it is raining.

Lightening is when there is a thunder storm, I'm
not scared.

Popcorns are very good for me.

Tennis is my exercise every Friday.

OKyo is a very pretty place I visited.

Ears are for hearing things, I like to hear the birds.

by Charlotte Jones

A Food Poem

Bubble gum in my mouth,
Bubble gum in my mouth,
Blow it high,
Blow it low,
Bubble gum in my mouth.

Ice cream on my tongue,
Ice cream on my tongue,
It's cold,
It's freezing.
Ice cream on my tongue.

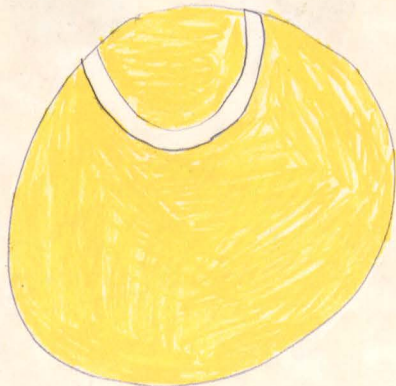

Chips in a bag,
chips in a bag,
Chips are yummy,
chips are scrummy,
Chips in a bag.

By Katie Kearns

About Me

Ox the year I was born:
Laughing that's me.
Ice skating, I love it.
Valentines, I go out with my family.
Icicles make me cold.
Atlases that I use at school.

By Olivia Bradbury

My Special Object

My ball is as yellow as a sunflower.
It is playful like a dog.
It's really round like a sphere.
It's scratchy like a mosquito bite.
My ball is fantastic like a basket ball.

By Emma Swift

A Food Poem

Banana on my cereal.
Banana on my cereal.
on goes the milk,
crackle pop goes my breakfast.
Banana on my cereal.
Sweeties in my mouth.
Sweeties in my mouth.
They taste good
in my tummy.
Sweeties in my mouth.

By Dicken Torrey

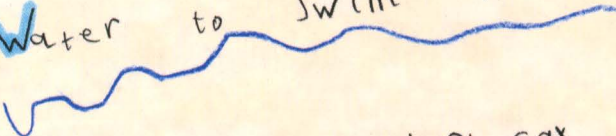

A Weather Poem

The rain splashes on the pavement.
It splashes on people's faces.
The umbrellas feel the rain.
Go drizzle drizzle on them.

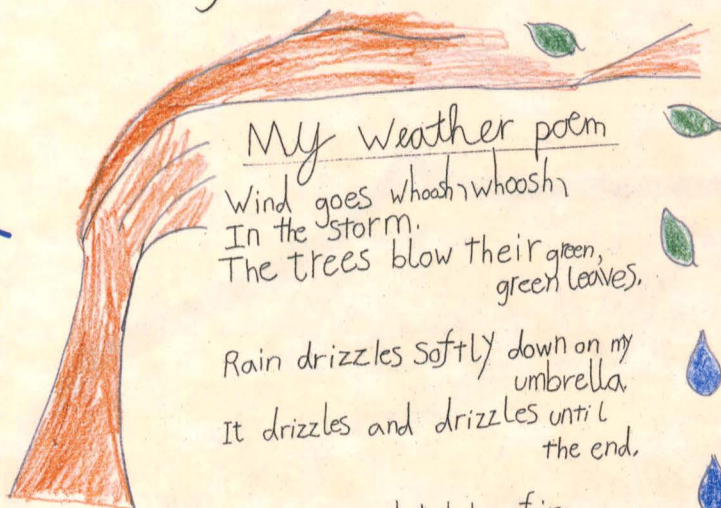

By Grace Pittar

About Me

Apple to eat. 
new hamster to have.
Dog to feed. 
Running face winners
Elephant to ride on.
Water to swim in. 

by Andrew Stewart-Cox

My weather poem

Wind goes whoosh whoosh
In the storm.
The trees blow their green,
green leaves.

Rain drizzles softly down on my
umbrella.
It drizzles and drizzles until
the end.

Sun is very hot like fire.
It is very warm as warm as summer.

clouds are bouncy like the trampolene
so bouncy you could bounce up
to space.

storms go bang boom flash whoosh.
lightning flashes all the time.

by Isabella Priestley

My Special Object

My puppy is playful.
Also black and white.
He is cute
And likes to eat pasta.
He makes me feel happy.
He never makes me sad.

By Justin Tung

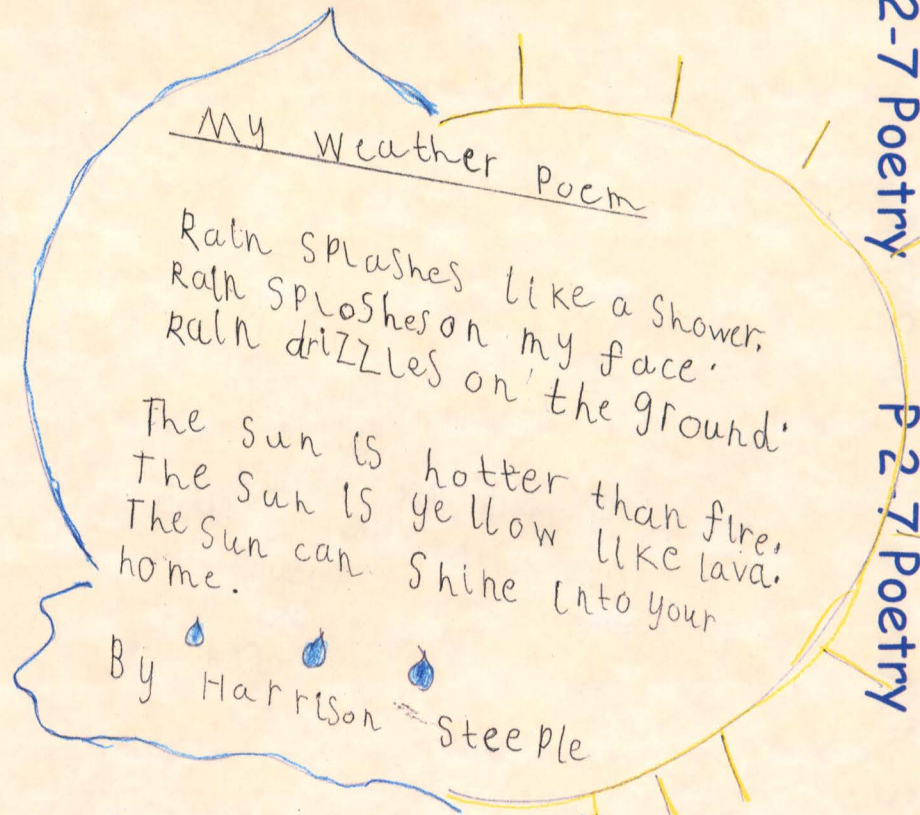

My weather poem

Rain splashes like a shower,
Rain splashes on my face.
Rain drizzles on the ground.

The sun is hotter than fire,
The sun is yellow like lava.
The sun can shine into your
home.

By Harrison Steeples

My Special object

My Mighty Bean
 Bounces like a Ball
 gliding in the air,
 Except When it hits the ground.
 It does a trick
 Like a Back Flip.
 It is hard like a rock.
 It Never breaks.

by James Swain ✓

A Weather Poem

Rain splashes in the puddle,
 Rain drizzles like a shower,
 Rain splashes in the pool.

Sun is hotter than a volcano,
 Sun is sunnier than a cloudy day,
 Sun is warmer than a fire.

By Justin Wah

My Weather Poem

Rain drizzles,
 Until it reaches the ground,
 Rain splashes on the ground.

Sun is as hot as fire,
 Sun is a burning boiling ball,
 Sun is as shiny as gold.

Lightning roars like a tiger,
 Lightning bashes and booms,
 Lightning gives you a fright.

By Jade Woldridge

About me

Jet to fly back to Holland.

Umbrella to keep me dry.

Lunch to make me strong.

India where my amah lives.

An elephant that I can ride on.

A Hong Kong weather poem

The rain drizzles on the
barbecue Pan.
It goes ding ding ding
Splash goes the rain oh my house.
The wind blows strong.
It breaks the trees
It breaks houses.
It is very scary
By Max Hailer

My Special object

My dog is cute.
He's nice and hairy.
My dog is cuddly,
Brown and soft.
My dog plays in my arms.
I am my dog's best friend.

By Laura parnell

A Food Poem

Fried rice for my lunch,
Fried rice for my lunch.
Eat it here,
Eat it there.
Fried rice for my lunch.

Strawberries in a bowl,
Strawberries in a bowl.
Eat them here,
Eat them there.
Strawberries in a bowl.

By William Robinson

My Special object

I have a box of shells
There are smooth shells,
Bumpy shells,
Stripy shells,
Orange shells,
Purple shells,
White shells.
Shells are everywhere.
By Mike KO

A weather poem

RAIN goes plop plop across the gutter,
The gutter goes down,
The rain slides,

Sun is shiny,
It shines all day.
Sun is bright.

By Kieran Noble

Primary 2, Class 8 | Miss A. Davidson

Harry Wong

Camran Ferrier

Back Row Jake Loiterton, Florence Bischoff, Susannah Lowe, Luigi Alcuaz, Anetha Rajah, Ciara Habluetzel, Arthur Hui

Middle Row Rachel Ng, Isobel Cooper, Amanda Milton, Roddy Denness, Allegra Jordan, James Andrews, Finn Slevin, Katie Lipton

Front Row Mrs Christine Naismith, Samuel Smith, Michael Howlett, Malorie McLerie, Jane Wright, Lachlan Heathcote, Ashley Ng, Miss Anne Davidson

My orchid

As soft as hair
Purple as an egg plant
Sweet smelling like perfume
could feel like a Rainbow
Petals are round circles
growing inside
its just like your mums wedding day
by Anetha Rajah

my shell

As fragile as glass
bumpy as a rock
small like a fly
shiny like a moon
A curled shell
with flat insides like a table
Its just like a little swimming pool
by Connor Williams

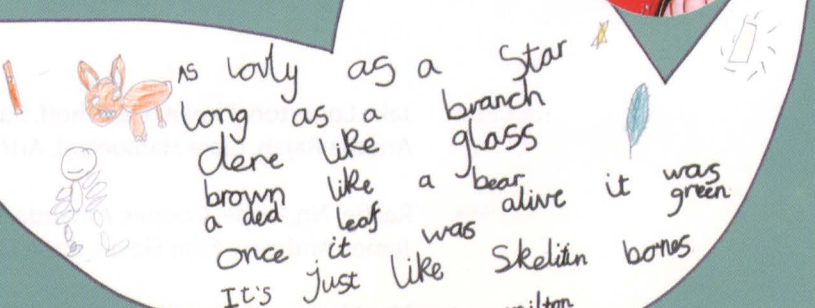

My stone

As gold as a star
round as the world
bumpy like a piece of wood
glittery like the moon
rough like a piece of metal
shiny as the sun
Its just like a ball
by Arthur Hui

My leaf

As lovely as a star
long as a branch
darker like glass
brown like a bear alive
a dead leaf was green
once it was skeleton bones
Its just like
by Amanda Milton

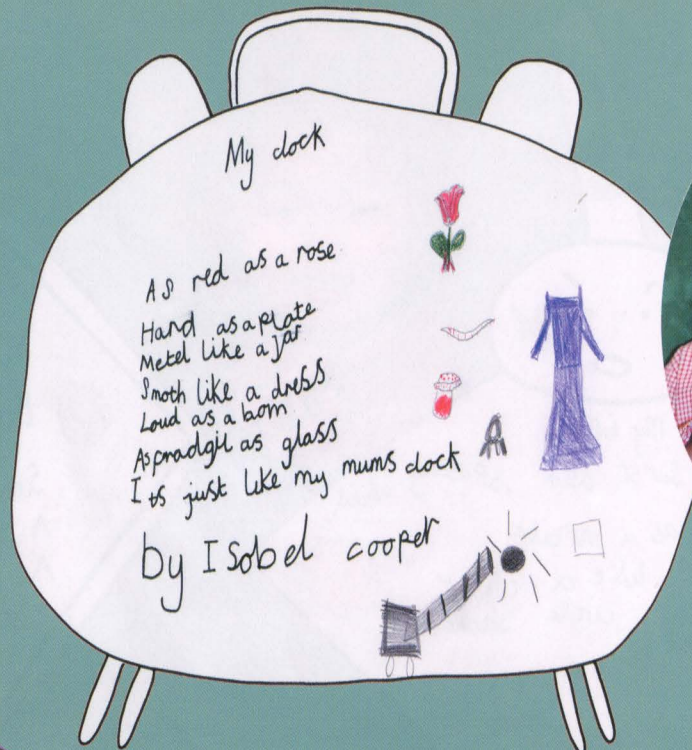

My star

AS yellow as the sun
pointy as a sword
Brit like the sun
Pointy sides like a pyramid
It glows in the night
Pretty stars in the night
It's just like a red star

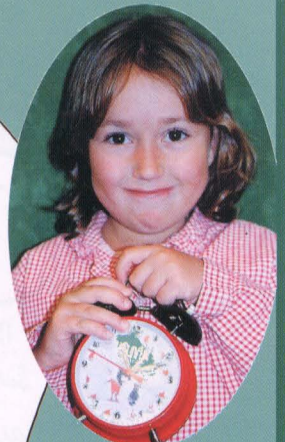

by Luigi Alcazar

My clock

As red as a rose
Hard as a plate
Metal like a jar
Smooth like a dress
Loud as a boom
As bright as glass
It's just like my mum's clock

by Isabel Cooper

My stone

As hard as a table
Green as grass
Sparkle like Glitter nail polish
Smooth like a window
Hot in my hand
I like to hold it
It's just like treasure like me

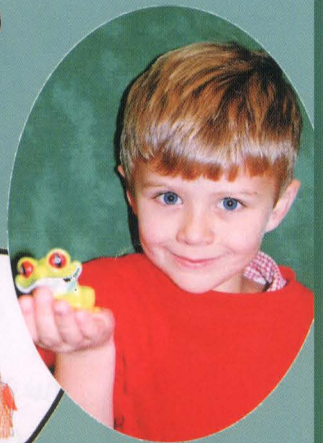

by Ashley Ng

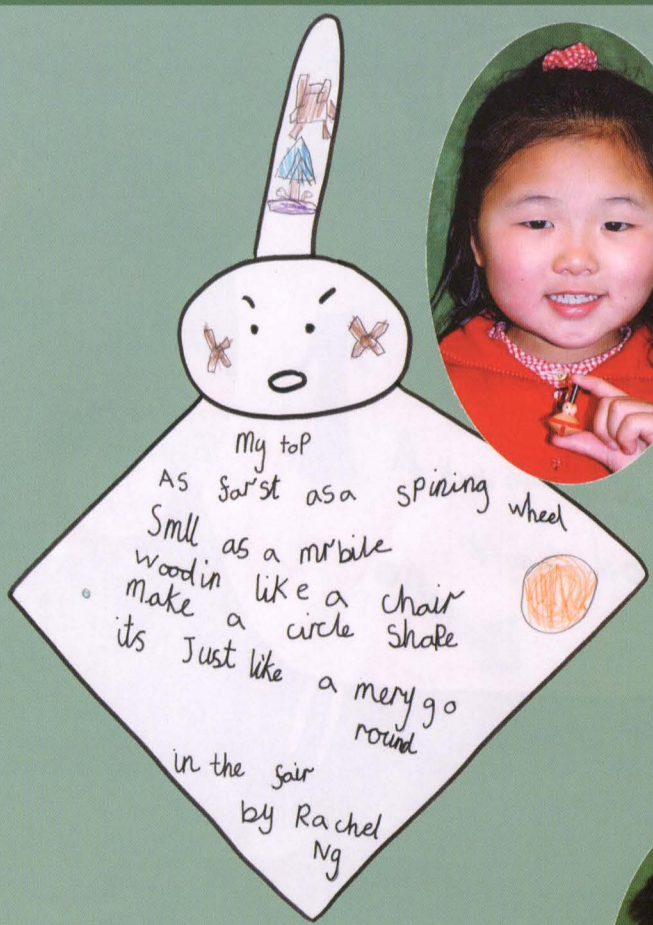

My Frog

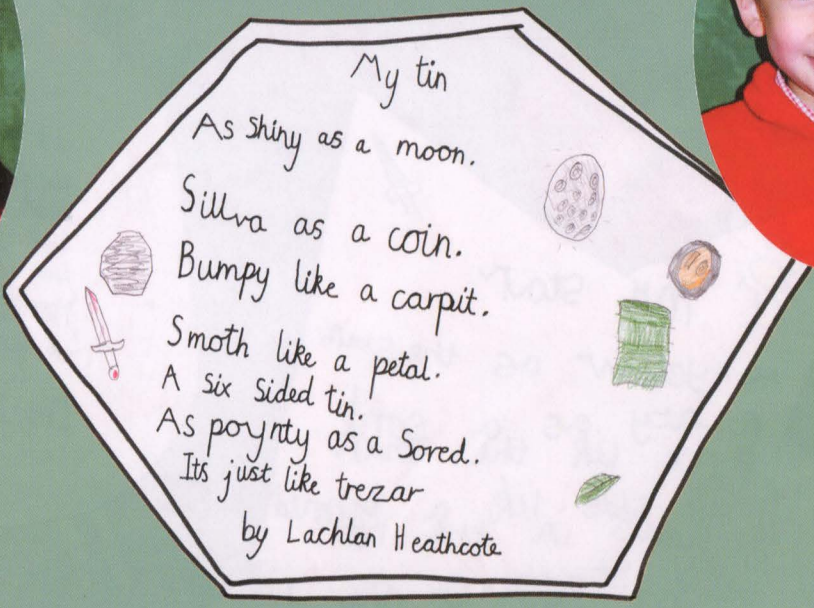

As green as grass
Jumpy as a jelly bean
Hops like in hop scotch
Smiles like a smiling fish
With red eyes like lava
Orange feet like a Alien
Wet like rain
It's just like a springed jack in the box.

by Samuel Smith

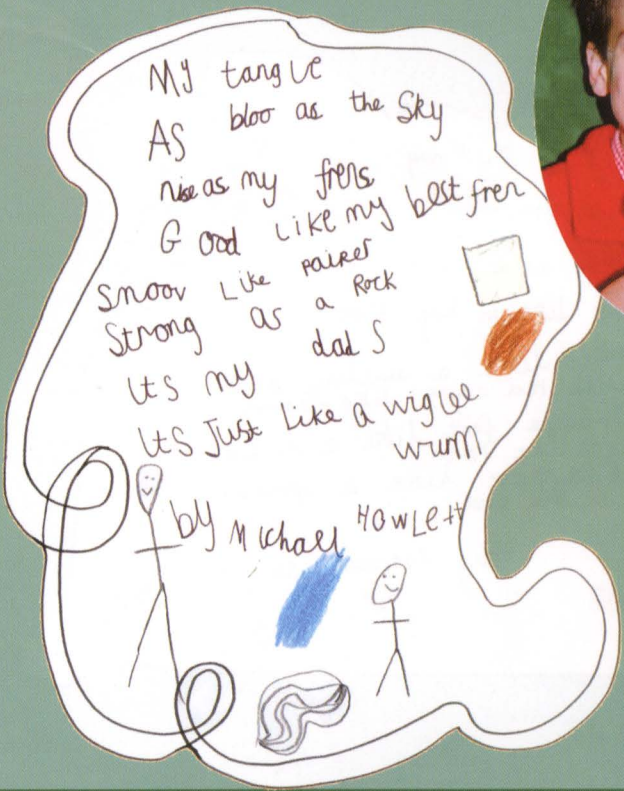

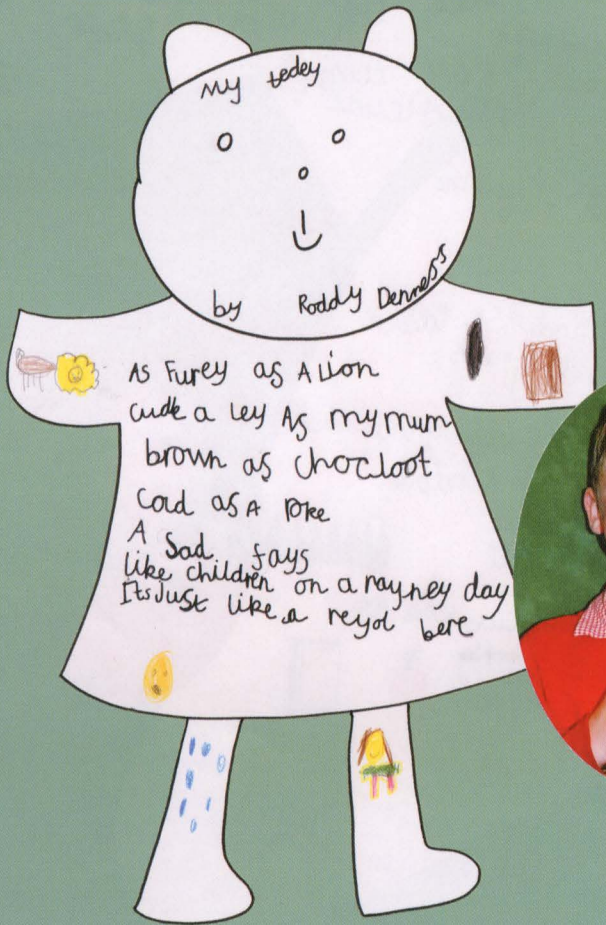

My top
As fast as a spinning wheel
Small as a marble
Wooden like a chair
Make a circle shape
Its just like a merry go round
in the fair
by Rachel Ng

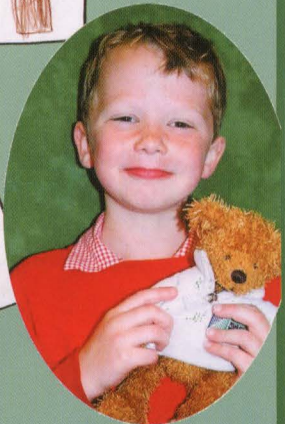

My tin
As shiny as a moon.
Silky as a coin.
Bumpy like a carpet.
Smooth like a petal.
A six sided tin.
As pretty as a Sore.
Its just like treasure
by Lachlan Heathcote

My tangle
As blue as the sky
Nice as my friends
Good like my best friend
Smooth like a roller
Strong as a rock
Its my dad's
Its just like a wiggle worm
by Michael Howlett

My teddy
by Roddy Derricks
As furry as a lion
Cuddly as a key
As my mum
brown as chocolate
Cold as a pole
A sad, says
like children on a rainy day
Its just like a toy bear

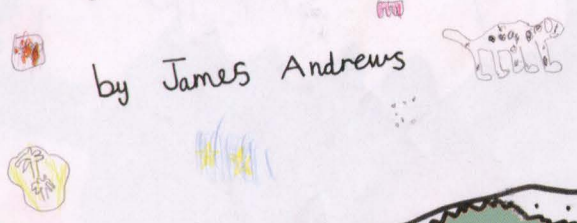

My shell
As fat as a cows udder
As bumpy as brail
Spory like a dowlmasin
dark like the sky
a hoty barsket
It's just like an island
in the midl of the ocan

by James Andrews

My blue bird
As blue as a box
Chubey as a ball
Fury like a muncy
pritey like a chick
A flufey yellow tumey
with a pointey beack
as well
It's just like a very
cuduly tadley lying on the
beack

by Jane wright

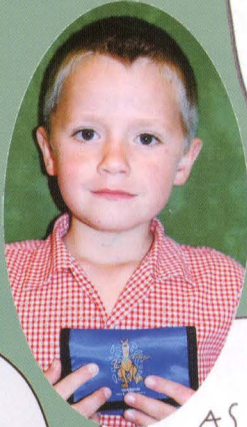

My corn
AS red as the sun Set.
Bumpy as the Sea
Little like a Pin
Stripy like a Reese of PaPr
Hard like a rock
It's just like a little Rebul
It's just like a Reese of Joolery.

by Ciana Hablutzal.

My wolf
AS shuney as gold
AS smth as a talbl top
Bluur like the sky
Black like brnt caks
Ful with muhe
H eve like a toy box
It's just like my dads wolit

By Jake Loiterton

My fossle

As bumpy as a rollecoster
gray as a computer
holy like a volcano
hilly like a moutin
bered under ground
when dinasars were a live
its just like the top of the moon

by Finn Slevln

My Shell

As Twistey as hair:
AS Bumpey as a Stone
S umnds like The Sea
it curds fumd like a stering
wheel

Point at the Top
its just like a boot on the water

by Katie Lipen

My Hamstr

AS Fluffy as a cat
Pink as a flower
bumpey like a star
Soft like a silk cooshin
and like noodls in a Bowl
its just like a real Hamstr

by Florence Bischoff

My Stone

As bumpy as a carpet
Silver as the moon
Ruff as a towel
Oval like a rugby ball
pointed like a pencil
Sharp as your nail
It's just like a stripy tiger.

by Harry Wong.

My rock

As brown as a monecy
big as a haws
Ovl like a rning track

bumpe like bral
a thee D shape
With flat and thin bits
It's just like a bolder

by Susannah Lowe

Kellett is full of kids
Every one eats at Kellett
Lapha lot at school
Like Kellett cause it's lovey
Eating gives you energy
To let's a retidy
Tidy the tables
School is fun
Chewing gum is chewy
Howling in the hall is bad
One o'clock we are no there
On choosing day I play with the
Like Kellett cos you have fun
Cameron Taylor

Kick the ball at P.E.
Every day we work hard.
Look at the white board.
Lego is out on wet play
Eat lunch at school.
Take toys out on wet play.
The teacher ticks are work.
Schools do usembalys
Caitlin is my name.
Hamsters are in the pet erva.
One person can go on the computer at once.
Obos are in the murosik room.
Look at the teacher when she is talking.
Caitlin Reilly

Kellett School is a English School
Easter at Kellett is a holiday
Lillian is my name and I am at Kellett School.
Lulu came visit he was funny
Eat your lunch at lunchtime
There are twenty two people in p2-9
Tempreatures are are taken
Scotland is where Mis/Nevin comes from.
Chatter is a Bavar leader
Hall is where we have shows
October is my birthday
Oboes are in the music room
Lucy is my friend

Lillian Armstrong

Camilla Trapness
Keyboards in the music room
English books are in the class
Love Kellett School
Littel Kids are in Reception
Easter holiday is for two weeks
Teenagers are not allowed
Teachers are smart
Sportsday is every January
Camilla is a pupil
Hats are white with a red K
Oranges are in the playground
Old people come for visits
Listen when other people are talking.

Kellett is good fun
Easter is when we have a holiday
Little recepshens run arond
Lunch is when errone is hungrey
Even techers have to wrck..
There are 400 children.
Techers cheat at wet netball.
Scotty comes every Christmas.
Children chase eichoter.
Hats must be worn.
Older children are very anoiing.
Off ice is a choosing
Library time is a qite time.

Lucy Steadman

A vibrant, abstract drawing of a creature with a blue face, red hair, and green body, set against a background of red and white geometric patterns. The creature has a large, expressive smile and is surrounded by swirling lines and shapes. The drawing is framed by a red and white border.

The Willow Pattern Story

The Willow Pattern Story

On her wedding day there were lots of celebrations. There was a dragon dance a fan dance and a kung fu dance. Koong See and Ta Jin are just about to be married when Chang grabs Koong See by the hand and Koong See grabs the jewels from Ta Jin and they run away. Everyone chased after them and shouted. Koong See and Chang managed to escape by boat. They sold the jewels and bought a farm. T'so Ling was very angry he sent messengers far and wide looking for his daughter and Chang. One day a messenger brought news of the couple. T'so Ling sent his servants to catch them and they were brought back to T'so Ling's house. They were locked in an underground passage that formed a maze beneath the house. Every turn that Koong See and Chang took led them closer to death. Koong See, Chang and the old mandarin died. Koong See and Chang were turned into immortal doves.

By India Blaksley

In a pagoda by a weeping willow tree lived an old Chinese mandarin, his name was T'so Ling. T'so Ling's wife had died so he shared his home with his beautiful daughter Koong See. But though Koong See was beautiful she was miserable. Her friends are the birds that fly in and out of the garden all day long, they are the ones that share her secrets. One day her father brought his special friend Ta Jin to visit her to make plans for the wedding, which was to be held in one month's time. Then it was time for the wedding, let the celebrations begin. Here come the dragon dancers and now fan dancers and finally the kung fu dancers. Then Chang grabs Koong See and they manage to escape by boat. Their long river journey took them to a poor part of China. One day T'so Ling found his daughter and Chang, they were imprisoned in the underground maze beneath the house. They tried to find a way out but every turn brought them closer to death. Koong See and Chang died together in the underground maze. At the same moment the lonely cruel mandarin died in the pagoda above.

By Elizabeth Brown

P3-10's Willow Pattern Stories

Once upon a time a rich girl (Koong See) lived with her father (T'so Ling) because T'so Ling's wife had died. She had to marry Ta Jin but she wanted to marry Chang. (The secretary) They both knew the birds by name. One day Chang sent the birds to send a message for them to meet at the banks of the river but her father said that she couldn't leave. So they met at the banks of the river but Koong See's father was there, he said "Chang you are to leave my house immediately." Chang said, "but sir..." "Go!" A whole year passed when Koong See didn't see Chang. One day T'so Ling brought his old friend Ta Jin to visit. Ta Jin said, "good morning, my dear, you look especially beautiful this spring morning I am very happy to see you. I have come to make plans with your father for our wedding."

By Elliott Williams

A long long time ago in China there was a castle. In the castle was an old Chinese mandarin called T'so Ling. One day Ming Ming was talking to T'so Ling's daughter Koong See in the garden. When Ming Ming went then the birds came. Then the birds talked. After they talked Koong See went to see Chang. So they talked and talked. Then T'so Ling came and said, "How dare you talk to my daughter!" Chang went away and never saw Koong See for one year. So Koong See was locked in the pagoda. Finally it was Koong See's wedding day to marry Ta Jin. It was her celebration. Suddenly, Chang shouted: "Ta Jin will never marry Koong See." Koong See heard Chang shouting, so Koong See and Chang went and lived happily ever after. But T'so Ling was angry, he sent two guards to capture them. They were brought back to T'so Ling's house and were prisoners in the underground maze. Koong See and Chang died together in the maze.

The Willow Pattern Story

The Willow Pattern Story

In a pagoda beside a weeping willow tree lived an old Chinese mandarin called T'so Ling. T'so Ling's wife had died so he shared his house with his daughter Koong See. Chang, T'so Ling's servant that writes his papers, loves Koong See. One night Chang and Koong See meet at the river. Then T'so Ling comes out, he is horrified. T'so Ling banished Chang forever. Koong See is lonely, her father said she had to marry his old friend. One day he brought his old friend Ta Jin to visit her. At the wedding there is a lion dance, a fan dance and a kung fu dance. Chang took Koong See by the arm and Koong See took the jewels that Ta Jin had brought to the wedding. Chang had made excellent plans, he and Koong See escaped by boat. Their long river journey took them to a poorer part of China where only farming was possible. Koong See sold the jewels in the casket. Chang and Koong See were married and bought a farm. They were happy growing fruit and flowers. But back at the pagoda T'so Ling was very angry. He sent messengers far and wide looking for his daughter and Chang. One day a messenger brought news of the couple, T'so Ling sent his servants to go and catch them. They were captured and brought back to the pagoda, there they were imprisoned in the underground passages that formed a maze beneath the house.

The couple wandered in the darkness searching for a way out but every turn brought them closer to death. They died in the maze together. At the very instant at which they died the cruel mandarin died in the pagoda above. But the gods had taken pity on Koong See and Chang, the instant they died they turned into immortal doves - birds that would never die.

Alexander Douglass

In China lived an old Chinese mandarin, he was rich and greedy. His name was T'so Ling. His daughter's name was Koong See and T'so Ling's secretary Chang loved her. Koong See's mum had died. So T'so Ling shared his pagoda with Koong See. One day T'so Ling brought his friend Ta Jin to visit her. Ta Jin was carrying an engagement gift for her wedding. T'so Ling said "Ta Jin let us retire to my chambers so we may talk." Koong See is so lonely her friends are the birds that fly in and out the garden. On Koong See's wedding day Chang rescues Koong See. T'so Ling, Ta Jin and the servants chased them. For Chang had made excellent plans. They escaped by boat. They sold the jewels and bought a farm. One day a man brought a message to T'so Ling and T'so Ling told his servants to get the couple. They were dropped into a maze, the couple vanished in the dark. Koong See and Chang died together under the pagoda. At the very same moment T'so Ling died in the pagoda above.

By Aaron Milton

Koong See, the beautiful daughter of the rich mandarin T'so Ling was forced to marry the old merchant Ta Jin by her father even though she loved Chang the poor secretary. Then it was time for the wedding, at the wedding there were lots of celebrations: fan dancers, kung fu dancers, it was such fun for Koong See.

But when it was time for Koong See and Ta Jin's ceremony Chang suddenly appeared. He grabbed Koong See and Koong See grabbed the casket. Chang had made excellent plans he and Koong See managed to escape by boat. Their long river journey took them to a poorer part of China where only farming was possible. But one day a message brought news to T'so Ling's house, T'so Ling found out where they were and sent his servants to catch them, they were captured and brought back to the house. T'so Ling just stared at them and locked them in an underground maze. Chang and Koong See stayed together and pushed the maze and the maze went down. The couple wandered in the darkness but every turn took them closer to death. The couple died together in the maze underneath the house at the very same moment the mean cruel mandarin died in the pagoda above. In joy they flew up into the sky where you can see them today on the willow pattern plate.

by Susanna Kidd

In a pagoda in a country far away called China there lived an old Chinese mandarin. His name was called T'so Ling, he was very rich and greedy, he was never poor and needy. T'so Ling had a daughter, her name was Koong See but though she was rich and beautiful she was miserable. Koong See's mother had died so T'so Ling shared his pagoda with Koong See. Koong See

was miserable because her father said she had to marry the rich merchant Ta Jin but she wanted to marry Chang. Chang is her father's secretary. Koong See was going to marry in one month's time. Today was her wedding day. At the wedding Chang came in and grabbed Koong See and there was a big chase. Chang and Koong See went to a poorer part of China where only farming is possible. Chang and Koong See sold the jewels in the casket and bought a farm. But one day T'so Ling had captured them and they brought them back to T'so Ling's house.

By Sebastian Carter

The Willow Pattern Story

The Willow Pattern Story

The Willow Pattern Story

In a pagoda by the weeping willow tree there lived a nasty man. His name was T'so Ling. His wife had been killed. So he shared his home with his beautiful daughter Koong See. But though she was beautiful and rich, she was miserable. Her friends were the birds that fly in and out of the garden all day long. Chang, T'so Ling's secretary loves Koong See. But her father doesn't like Chang.

T'so Ling wants Koong See to marry his friend the rich merchant Ta Jin. One day Koong See saw a floating coconut. She guessed Chang must be hiding near by. Finally the wedding day came. At the same moment Chang grabbed Koong See and they ran away. One day a messenger brought news of the couple to T'so Ling, so he sent his servants to catch them. They died in the maze. And the poor mandarin died above.

by Jacob Hill

In China there lived an old Chinese mandarin called T'so Ling. His daughter was called Koong See. T'so Ling was old and ugly. One day Chang came to see Koong See. Then T'so Ling sent Chang away because he didn't want him to talk to his daughter. T'so Ling sent Koong See's servant called Ming Ming away and locked his daughter in a pagoda. He brought a new servant called Chun Soy. He brought his old friend Ta Jin to visit her. Her wedding was held in one month's time. Then it was her wedding day and Chun Soy helped her to prepare. The celebration began. The first celebration was the lion dance, the second one was the fan dancers and the last dance was the kung fu dancers. Now it was the wedding time. Chang did not want Koong See to marry Ta Jin so Koong See grabbed the casket of jewels and escaped to Southern China.

by Ji Won Oh

Once upon a time there was a Chinese mandarin named T'so Ling. He has a daughter named Kong See. T'so Ling has 3 birds. Now let's start the story. T'so Ling wants Kong See to marry his friend Ha Jin. Kong See wants to marry Chang her father's servant. T'so Ling's birds like Kong See better than T'so Ling so at night they meet. "Kong See, we have a message," said a bird. Kong See looked at the message it said to meet him here tomorrow night so she did. Kong See and Chang had a nice time but T'so Ling brought Ha Jin to visit.

Ha Jin had a servant, he was carrying jewels. Ta Jin told her the date of the wedding, she told it to Chang. Chang did not see Koong See at all before the wedding. At the wedding Chang was there. They stole the jewels and ran away. They came to an island. But T'so Ling got news of them so his servants captured them and imprisoned them in an underground maze. They died there. But T'so Ling died, too. Chang and Koong See turned into birds and flew away.

by Matthew Beshke

The Willow Pattern Story

A long time ago there lived an old Chinese mandarin his name was T'so Ling. He had a lovely daughter called Koong See. She was very lonely, her friends were the birds who fly in and out of the garden; they're the ones who share her secrets. Her secret is that she loves Chang, her father's secretary. Koong See's mother had died so she was lonely. But one day Koong See's father T'so Ling brought his best friend Ta Jin to visit her. So you can see that Koong See

needs to marry Ta Jin. The next day was Koong See's wedding day. The wedding was just about to begin when, "OH NO THAT WILL NEVER BE, KOONG SEE WILL NEVER MARRY TA JIN SHE IS DESTINED FOR ME. COME ON KOONG SEE." It was Chang. But T'so Ling was angry, bitter and lonely and sent his servants to catch them. They were put in an underground passage, a maze beneath the house. Koong See and Chang died together.

by Lara Mary Titherington

In China there lived an old Chinese mandarin called T'so Ling. He had a daughter called Koong See. Koong See went to see Chang. He was working on T'so Ling's papers. The three birds came to see Koong See. Koong See said, "Good morning birds, I do love to see you all. Do you have a message for me today?" "Yes its here Koong See." "Thank you," said Koong See. "Come Koong See today is your wedding day.," said Chun Soy. T'so Ling had brought his special friend Ta Jin. Koong See said to her father, "I do not want to marry Ta Jin. I want to marry Chang." "No," said T'so Ling, "you're going to marry Ta Jin." "Okay," said Koong See. The three birds came to watch the wedding. But she did not marry Ta Jin; she escaped with Chang and the jewels. They lived happily until they were captured by T'so Ling's men.

In a far away land lived a Chinese mandarin his name was T'so Ling. He had a daughter called Koong See. T'so Ling wanted Koong See to marry Ta Jin, the rich merchant but Koong See wanted to marry Chang her father's secretary. One day T'so Ling brought his friend the rich merchant to visit her. They made plans for the wedding, which was to be held in one month's time. Koong See never saw Chang right up to the wedding night " now for your wedding ceremony it gives me..." "Oh no that will never be Koong See will never marry Ta Jin, she is destined for me," said Chang. Then they ran away with the jewels. Chang had made excellent plans and they escaped by boat. It took them to a poorer part of China where only farming was possible. They were happy growing fruit and vegetables but one day a messenger brought news of the couple to T'so Ling. He sent his servants to catch them and they brought them back. T'so Ling threw them into an underground maze. The couple wondered in the darkness. Koong See and Chang died together in the maze. The gods had taken pity on Koong See and Chang, when they died they were turned into immortal doves that would never die.

by Nicholas Parsell

Once upon a time beside a weeping willow tree lived an old Chinese mandarin called T'so Ling. T'so Ling had a daughter Koong See. She had a secret, she wanted to marry Chang. Chang was her father's secretary. Koong See's father had decided that Koong See had to marry his friend Ta Jin. One night Koong See was talking to Chang: "so this is what is going on behind my back!!! Chang my servant talking to my daughter, this cannot be!!! Chang you are to leave my house immediately and you Koong See you cannot be trusted. Ming Ming must go I will have to find a new servant for you. I shall lock you in the pagoda until your wedding day." One whole year passed when Koong See did not see Chang.

by Diana Wallace

A long long time ago by the weeping willow tree a big house stood and in that house lived an old man, his name was T'so Ling. His wife had died so he lived with his daughter Koong See. Koong See was bitter and sad; she was locked up with her servant Ming Ming. Ming Ming was kind, Koong See liked her. But Koong See was sad still she loved Chang. Chang secretly wrote poetry for her. He actually was a secretary for T'so Ling. Chang sent a letter to Koong See. The birds. Koong See's friend brought it in. It said: as the willow blossom falls so my heart flies to you meet me on the banks of the river as the tide turns under the moon. That night they met on the banks of the river.

by Pippa Bull

In a pagoda in a faraway land called China beside a weeping willow tree lived an old Chinese mandarin, his name was T'so Ling. But he was too fat and greedy, never fed the poor and needy only caring for himself. T'so Ling has locked his beautiful daughter Koong See in a garden. This was because Koong See had to marry an old merchant, his name was Ta Jin. Otherwise Koong See was lonely, her friends are the birds that flew in and out of the garden, and they are the ones that share her secrets. One day the birds had a message for Koong See from Chang and it said: "As the willow blossom falls onto the water so my heart flies to you, meet me on the banks of the river as the tide turns under the moon." For Kong See has a secret admirer, her father's secretary Chang. With the help of the birds they meet secretly at night. When the night came when the lovers were about to kiss T'so Ling woke up he said, "What's this! Chang my servant with my daughter! This is not allowed!"

by Ronan Keilthy

Once upon a time in China there was a pagoda beside a weeping willow tree. In side the pagoda lived a Chinese mandarin called T'so Ling. T'so Ling's wife had died so he shared his home with his beautiful daughter called Koong See. So Koong See is lonely because her mother had died, her father is too mean and greedy to be nice. Koong See has only three friends, the birds. One bird asked Koong See why she was lonely and she said her father will not allow her to leave her garden and she had to marry an old merchant called Ta Jin. Koong See did not want to marry Ta Jin she liked Chang. Chang was T'so Ling secretary who looked after his papers, he liked Koong See. One night Chang and Koong See met secretly. While they were talking T'so Ling found them. So Chang had to leave the pagoda and Koong See had to have a new servant to watch her day and night! T'so Ling locked Koong See in the pagoda

Willow Pattern Story

The Willow Pattern Story

The Willow Pattern Story

In a pagoda beside a weeping willow tree lived an old Chinese mandarin. He was powerful and rich, his name was T'so Ling. His daughter was called Koong See. She did not want to marry him because he was ugly and mean. She liked Chang, T'so Ling's servant. Koong See's wedding is in one month. When one month had passed Koong See was about to marry Ta Jin when Chang grabbed Koong See and ran away into a boat. They went to a better place where only farming was possible. They had a happy life until T'so Ling found them and sent his servants to catch them. They were brought back to T'so Ling. They were thrown into the underground passage, they wandered in the dark searching for a way out but every turn brought them closer to death. Koong See and Chang died together in the maze beneath the house. When they died they were turned into immortal doves that would never die, the Gods had taken pity on Koong See and Chang.

by Thomas Carr

In China there lived a Mandarin. He was fat and greedy. His name was T'so Ling. Those who worked for him all loved his daughter. Her name was Koong See. Koong See was lonely, her friends were the birds. They are the ones who shared her secrets. Her mother had died so she shared the house with T'so Ling. One night when Ming Ming the servant was asleep Koong See met Chang, T'so Ling's secretary. Then suddenly T'so Ling came into the room and sent Chang away and locked Koong See in the pagoda until her wedding day with Ta Jin. But one day the birds found a floating coconut shell from Chang. Koong See read the message and wrote another message for Chang and gave it to the birds. No word came from Chang right up to the wedding night but then at the wedding Chang grabs Koong See. She grabs the casket of Jewels and they escape by boat.

by Rupert Stonehill

A long time ago there lived an old merchant his name was Tso Ling. In his palace by the water he kept his only daughter Koong See. She was very miserable because she wanted to marry Chang. Chang sent messages by the help of the birds but no word came right up to the wedding day. "Let the celebrations begin" said the narrator and first the dragon dancers and now the kung fu dancers. Chang took Koong See. They got away by boat. But than they were caught and brought back. They were imprisoned in an underground passage. They both died underneath the

pagoda and so did the mandarin.

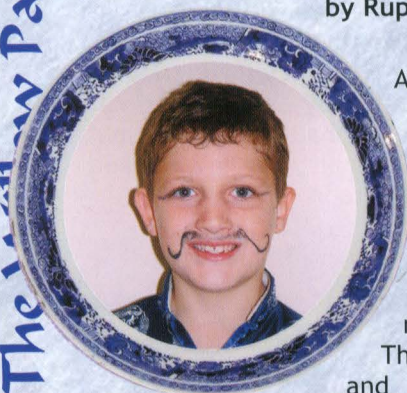

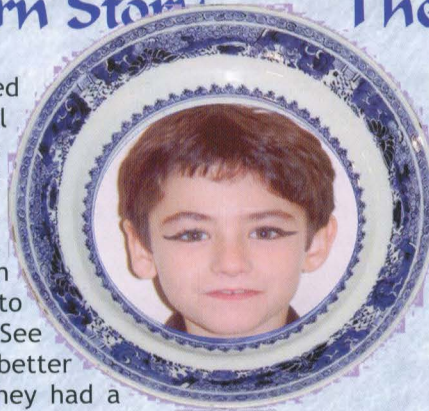

By Bruce Boeree

In a pagoda there lived T'so Ling and Koong See and their servant called Ming Ming. T'so Ling wants Koong See to marry an old merchant called Ta Jin but Koong See loves her dad's secretary Chang. Koong See's friends are the birds. One day Chang and Koong See were talking and T'so Ling saw them talking. He sent Chang away. Koong See sent a message to Chang. "Now it is the wedding, let us get married," said Ta Jin. "No that will never be Koong See is destined for me, come on Koong See" said Chang. Koong See grabbed Ta Jin's jewels and they jumped into a boat and sailed away. They ended up in a poor part of China and they sold the jewels and bought a farm. T'so Ling found them and tossed them into the maze. Each turn brought them closer to death. They died in the maze, at the very same instant they died they were turned into immortal doves. In joy they flew up in the sky. You can still see them today on the willow pattern plate.

by Ruairidh Grassick

Once upon a time there lived an old Chinese Mandarin. He was called T'so Ling. He lived with his only daughter Koong See. Though Koong See was rich she was miserable. Her friends are the birds that fly in and out all day. Koong See's father wants her to marry his friend the rich merchant. One day her father brought Ta Jin his friend to see his bride. The wedding would be held in one month's time. When the wedding came there were lots of celebrations. And when the ceremony began Chang grabbed Koong See and Koong See took the casket of jewels and they escaped by boat. The boat took them to a poorer part of China where only farming was possible. T'so Ling sent messengers far and wide looking for his daughter. One day a messenger brought news of the couple. T'so Ling sent his servants to capture them. When they were captured and brought back to T'so Ling's house they were imprisoned in an underground passage that formed a maze beneath the house. They searched and they searched but every turn brought them closer to death. There they died in the maze. The old cruel mandarin died above at the very moment they were turned into doves that would never die. There they fly together in joy.

Food, Glorious Food!

Mangoes

Mangoes have been grown in India for more than 4000 years. In the old days people thought that the mango tree was a sign of love and that it could grant wishes. The tall evergreen trees have clusters of tiny white flowers that produce large oval fruits. Mangoes are called the king of fruit. The trees can grow up to 20m tall. Each fruit contains a flat stone surrounded by sweet orange flesh. Mangoes are eaten raw or canned. They are also used to make jams and chutneys. My mango comes from India.

Tom Pepper

Chocolate

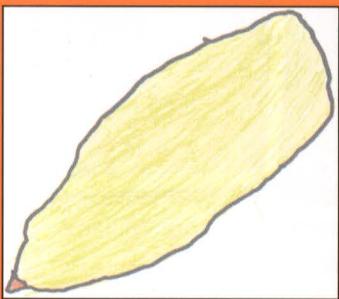

Christopher Columbus is believed to be the first European to discover chocolate. In both the Mayan and Aztec culture the cocoa was turned into a drink called "xocoatl". The cocoa beans were also used as currency. Chocolate as we know it today comes from the seed of the Cacao tree. Various spices were used as flavouring including hot chilli. Chocolate today is sold all over the world as sweets. My favourite chocolate bar is Cadbury Milk Chocolate. My chocolate comes from New Zealand.

Guy Aglionby.

Avocado.

The Avocado is a vegetable. It is commonly used in salads. The fruit of the avocado tree looks like a pear, but it does not taste like one. Avocados are rich in oils and proteins. The oil is sometimes used to make soap. They are cut in half and the large stone is taken out. They were first grown in South and Central America. My avocado comes from Mexico.

Jordan Stonier-Watson

Coffee

Soaking roasted, ground coffee beans in hot water makes coffee. Coffee beans grow on shrubs, which are green all year round. It came from Ethiopia in Africa. Each red coffee berry has two seeds in it, the coffee beans. They do not get ripe at the same time so they should be picked by hand. They are dried in the sun and then roasted. They turn brown and get their coffee flavour. Coffee houses opened in the Middle Ages in Arabia, then they spread to Europe. They were later called cafes, which is the French word for coffee. My coffee comes from Kenya.

Camille Montagne

Potatoes

South American Indians first discovered potatoes and they have been grown for about 2000 years. They called them batatas. Spanish people brought them to Europe about 400 years ago. There are all sorts of different kinds of potatoes: red, white and sweet. Potatoes have lots of carbohydrates, which we need to give us heat and energy. Potatoes are related to tomatoes. My potato comes from China.

Abigail Ng

Chillis

Chillis were all first grown in South and Central America. They were unknown in Europe until about 500 years ago. Sweet peppers [capsicums] contain large amounts of vitamin C and carotene. They have hollow fruits, which are red, yellow, purple or white when ripe. Chilli peppers are small, pointed peppers that taste extremely hot. Chillis are an important part of Mexican cookery. My chilli sauce comes from Hong Kong.

Jake Erder

Baked Beans

Baked beans are both delicious and are healthy. The popular meal of beans on toast provides an excellent balance of quality protein. Native Americans first flavoured their beans with maple syrup and bear fat. They put them in big pots, put them in a pit in the ground and covered them with rocks. Today, beans are put in tomato ketchup. My beans come from England.

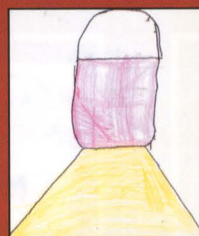

Ammar Karmali

Sugar

Sugar is a carbohydrate and serves as the main energy source for the body. There are many types of sugars. Sugar is found in fruits and vegetables. Different sugars perform different jobs in foods. Every plant has leaves and all leaves have sugar. In India, a special sort of reed used to grow wild. The Indians found a way of squeezing the juice out of the reed and turning it into sugar crystals. My sugar comes from India.

Toby Moore

Eggs

Eggs give people protein. There are many breeds of chicken including the leghorn, Dorking, New Hampshire and Red Jungle Fowl. Each bird may lay up to 300 eggs a year. Today, we mostly eat chicken's eggs but people also enjoy duck, geese, quail, guinea fowl, pigeon and ostrich eggs. The egg has a hard, outer shell made of calcium. Inside the shell is the egg white, which surrounds the yellow yolk. My eggs come from USA.

Charlie Middleton

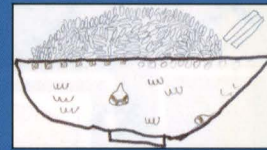

Vegemite Spread

Fred Walker created vegemite in 1923. Vegemite is made with yeast extract and is a source of vitamin B. Vegemite glass jars used to look different but in 1999 it became available in tubes. It is a good breakfast spread and it sells over 22 million jars every year. Vegemite has its own jingle called "Tweet Tweet" that plays to advertise it. You can make a vegemite milkshake. My vegemite comes from Australia.

Emelia Milliner

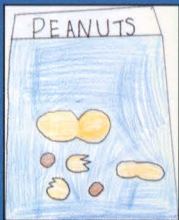

Rice

Rice can be from India or China or other parts of Asia. Rice is the most important food crop in Asia. There are over 7,000 known varieties of rice. Most of us will have eaten either long-grain short-grain or brown rice. There are over 7,000 known varieties of rice. Most rice is grown in paddies, which are large flooded fields. The rice plants have to be pressed into the mud in neat rows. Rice contains protein.

My rice comes from India.

Jack Moylan

Peanuts

Peanuts probably came from the Amazon Basin of South America. China and India produce the most amounts of peanuts. Two thirds of the world's peanuts are used in peanut oil and another 20% is used in sweets. Peanuts have protein, fat and carbohydrates in them. They are a member of the pea family. My peanuts come from Indonesia.

Vanessa Cheung

Nesquik Milkshake

Nesquik made the first chocolate milkshake in 1948 in America. The bunny has been on the packets for over 30 years. Nesquik helps build big strong bones but it is not good for your teeth. There are lots of flavours of milkshake; you can even get vegemite flavour! My milkshake comes from Switzerland.

Natalie Pettigrew.

Pasta

Marco Polo probably brought pasta back to Italy from China. The Chinese ate pasta about 7,000 years ago. Pasta is made from 100% wheat and noodles are also a type of pasta. There are over 600 pasta shapes in the world and my favourite shapes are the animal ones! World pasta day is on October 25th every year. My pasta comes from Italy.

Edwina Preston

Tuna Fish

Canned tuna has high protein and low fat. Tuna fish can be caught in the Pacific Ocean. Fish are kept at temperatures near 0 until they are ready to be canned. If a fish is not good enough, it gets thrown away. Cleaned tuna fish go into filling machines then into cans. Next, water or oil is added. The labels are stuck on before the cans get shipped all over the world. My can of tuna fish comes from USA.

Alec Coombes

Flour

There are many different types of flour. Flour comes from cereal plants such as barley, wheat, oats, rye and maize. Grinding or crushing the seeds of the plant makes flour.

Today, most flour is made by machine and the grains are ground between huge steel rollers. If you cut a grain of wheat down the middle, you will see the germ. This part grows the new shoot. Then you will see the bran. This is a layer of hard skin, which protects the inside of the grain. In the middle is the endosperm. This is the biggest part of the grain. It is food for the shoot when it first begins to grow. My flour comes from England.

Amy Griffin

Tea

There are many different kinds of tea including green tea, black tea and

herbal tea. Green tea is China's favourite type of tea! One Chinese legend is that an emperor called Shen Nung, who lived around 2750BC, first discovered tea. It is said that some leaves fell into his cup of boiling water! Tea leaves grow on an evergreen tree called the camellia, which comes from China. The trees can grow up to 9 meters tall. India is now the largest grower of tea in the world, followed by China and Sri Lanka. My tea comes from Sri Lanka.

Caileigh Faure

Parmesan Cheese

Parmesan cheese probably originated in Parma or in Tuscany in the 11th century. Monks first made it and the recipe has never changed. Each cheese today is still identical to how they were centuries ago, having the same appearance, the same extraordinary smell, made in the same

way, in the same places, with the same expert ways. Special Parmesan cheese called Parmigiano-Reggiano is made only from April 1 to November 11, with milk from cows that have been eating fresh grasses. Parmesan is the word for any hard, dry, sharp-flavoured Italian-type cheese that is suitable for grating. My cheese comes from USA.

Sean Barry

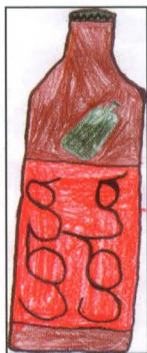

Tomatoes

Tomatoes are rich in vitamins A, C and fibre. They are one of the world's most popular foods. The average size of a

tomato is about 148 grams or 5oz. A long time ago tomatoes were called love apples because they made you fall in love. Tomatoes can be big or small; also they can be red, orange, white or yellow. Inside it is soft and juicy, the seed is as big as a tip of a pin. When spring comes the tomato starts to grow in the green house. Tomatoes are related to potatoes. They have similar star-shaped flowers and shiny fruits like berries. Tomatoes are a vegetable. My tomato comes from

Jocelyn Ng

Coca-Cola

Dr. John S Pemberton invented Coca-Cola in 1886 in Atlanta, America. It was originally made with extracts of coca leaves and kola nuts. That's where the name comes from. It was first sold as a fountain drink by mixing coca-cola syrup with carbonated water. During the first year of selling coca-cola they sold 9 drinks a day. Now, they sell more than one billion drinks a day! Although Coca-Cola is enjoyed ice-cold around the world, in Hong Kong it is sometimes served hot as a remedy for colds! My favourite brand of drink is Vanilla Coke. My Coca-Cola comes from Hong Kong.

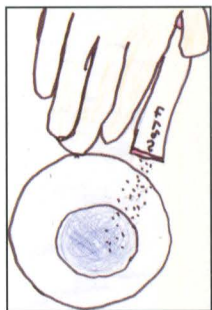

Jamie Wilkinson.

Yoghurt

Yogurt is a dairy food because it is made with milk. A dairy was a clean, cool room on a farm where these foods were made. Today, a dairy is also a type of factory. Yogurt is made from sour milk. Yogurt was first sold with fruit in it in 1946 in America, but it dates back to ancient times. It was popular with Egyptians, Greek and Indians, long before it came to Europe or North America. Today you can buy it with fruit, nuts or honey. My favourite flavour of yogurt is strawberry. My yoghurt comes from China.

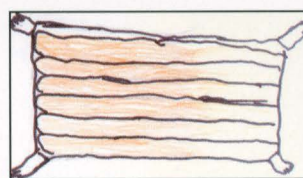

Jack Varndell.

Salt

About 40 percent of salt is sodium and 60 percent is chloride. Fresh water is added to the sea from rivers and rain. There is always more salt being washed into the sea. There is salt under ground and there is even salt in the air. In some African deserts, salt lakes come and go year after year. Salt has many uses. It is in lots of foods. In winter salt is used to melt snow and ice on roads. It is used in water softeners. It is also used in processing fabrics and leather. My salt comes from England.

Tom Howes

Sausages

In England, people spend £500 million per year on sausages! There are over 400 different flavours of sausage. The word sausage comes from the Latin word salsus, which means something salted. Sausages were called bangers during the Second World War because they contained so much water they exploded when fried. More sausages are eaten on Saturday than any other day. Sausages were first written about 2700 years ago. My sausages come from America.

The Lemonade Kid and his Gang

Howdy, my name is Hero and I'm a citizen of Brimstone. I have black hair and my skin is brown. I wear a brown cowboy hat, a blue jacket over a checked blue shirt and one thin white T-shirt with a picture of sidemen, matched with a pair of blue pants. I am a goodie because I don't rob banks. I own a black horse. He neighs a lot and his name is Super. My friends are cowboys. I like to play the game 'Zap the bad guys' with my friends. We ride on our horses and look after cows and in the evening we take the cows home. I have noisy parties with lots of bangs and zings with my friends. One of my enemies is One-Eyed Jack because he is a terrible thief.

Aman Gupta

Howdy my name is Creepy Cal! I'm a real baddie. I wear a red bandana, a red hat, and blue denim shirt with blue jeans. I have a horse and his name is Jocky. He's a black horse and he's real brave. I have lived in the Wild West for a long time. The boss of my gang is One-Eye Jack. Let me tell you how I got my name. It all began one day when I had an idea to play a trick on the gang. I told them that One-Eye Jack wanted them to fetch him some water but not cold water. You see, One-Eyed Jack only likes cold water. So when he drank it, he was very surprised and angry and punished all the other gang members. That's how I got my name for being so creepy.

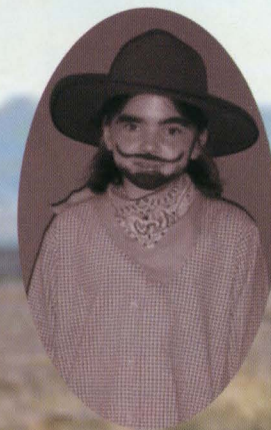

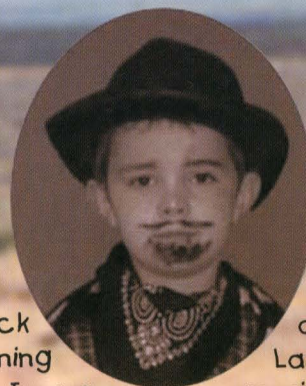

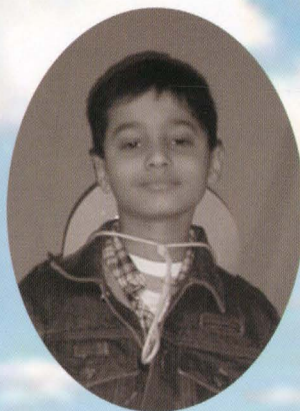

Audrey Pecot

My name is Dismal Dan and my teammates are Devilish Dick and Dreadful Dave. I'm a bad crook. I capture bad people and I steal money. Once Lightning Larry came by and wanted to capture me for a reward of ten million dollars. Luckily, I was wearing a black suit and it was dark and Larry didn't see me. So I grabbed him and tied him to a chair. I demanded a ransom of five thousand dollars. All the good people in town started collecting money but my sworn enemies, another bad gang, didn't want me to get the money, we didn't like each other was because we always wanted to be the best gang. So we had a showdown. I said, "Where's the other guy?" As one of them was going to free Larry while we were having a showdown. But the guy didn't know I saw him and I shot him right in the head. Then, my teammates shot the rest of the gang in the feet. They ran for their lives and I got my ransom.

George Chumas

Hello there folks, my name is Lousy Luke. I have been a cowboy for 20 years. They call me Lousy Luke because I am very lousy at shooting. I've a horse named Shooting Star. She's a black horse with a white star on her forehead. I've ridden her several times and she's very fast. I'll tell you about the time I visited a little town called Brimstone. Some of my friends live there. I met a nasty outlaw One-Eye-Jack in that town. I shook his hand and joined his outlaw gang. One day, I was in Brimstone with my partner Moldy Mike when Lightning Larry rode into the town. I followed Lightning Larry into the bar. He said, "Hello, can I buy you a lemonade." "No", I replied, "Where do you come from?" "A little town in the West," said Lightning Larry. I liked Lightning Larry and we became friends. I quit One-Eye Jack's gang and joined up with Lightning Larry.

Shawn Wallace

Hi, I'm Super Seth. I'm rich and I've got a great gang. Their names are Dismal Dan, Devilish Dick, Dreadful Dave, Stinky Steve and Sickening Sid. I am a super cowboy who attacks bad men. However, I could never defeat One-Eyed Jack, but maybe one day I will? He has a ferocious gang that includes outlaws like Raunchy Ralph, Grimy Greg, Moldy Mike, Creepy Cal, Lousy Luke and Gruesome Gus. I am a good cowboy and if anybody needs help they ask my gang and me. I help them fight crimes, shoot the outlaws, repair things and help them do lots of other things too.

Arthur Leventhorpe

I'm Moldy Mike and I'm part of the gang of men led by One-Eyed Jack. I was born in Brimstone in a hospital by the Okey-Dokey Corral. I'll never forget the day when that Lemonade Kid came and reformed the entire nasty gang, including One-Eyed Jack. Nowadays, everyone isn't bad and we can enjoy our hobbies or school. The citizens say that it's different without the outlaws and much better. I have a black horse named Vanilla. Everyday Vanilla and I set off to a nearby tennis court. Creepy Cal is usually waiting to play a game of tennis. After that we set off to the Cottonmouth Saloon for lunch. On Sundays, Gruesome Gus joins us.

Beatrice Nash

Hi, I'm Devilish Dick and I am an evil cowboy. Once, I zapped a horrible cowboy named James with my partners Evil Eve and Cool Kid. The most evil thing I've ever did was to zap everybody in Brimstone. I live in a little cottage with my partners. I wait until someone hires me to zap because I'm a bounty hunter. While we're waiting we smash into shops and steal things. One day, my other partner Cool Kid and I were raiding a bank, it was hard because another gang was also raiding it! They were Stupid Sid, Crooked Curt and an Indian called Incama. We had a showdown and we were lucky. I'm always lucky at showdowns because I always win.

Jamie Fraser.

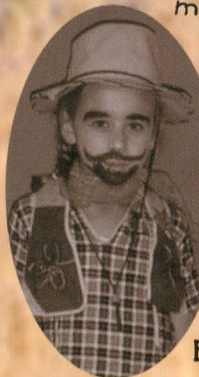

I'm Evil Nick and I'm mean and strong. I like robbing banks. If people don't let me have all the money in the vault I'll zap them, tie their hands and legs and then hang 'em up by their necks. I'm so evil and fearsome that whenever people see me, they run all the way back home without even looking back. My horse, Tiger, is black and he has red eyes. He can jump over a river. My gang is called 'Killer' but all their names are secret. I like drinking lemonade at the Cottonmouth Saloon with my gang.

James Brock

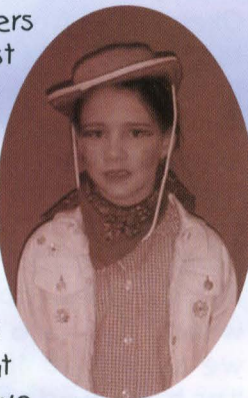

Well howdy folks! Star Sarah's the name. I'm a nice, kind Cowgirl and today I'm going to tell you about my friends and me. I have a horse that is the color of chestnut and Chestnut is his name. I live in Brimstone. 'Jessy Cowgirl' and some of my other friends live in the same town. I help my friends fight outlaws. One day Lightning Larry and his gang came into town. I used my gun and my friends and me zapped the outlaws in the heart. We all zapped one outlaw each. My friends and I celebrated with all the townsfolk by drinking lemonade and having a party all through the day and all through the night. We have never drunk so much lemonade in all our days.

Emily Zimmermann

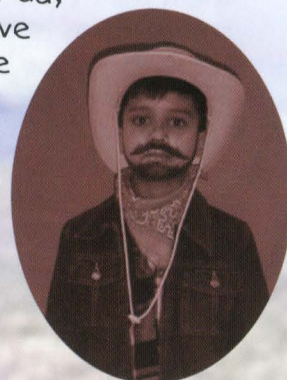

My name is Jessie and I'm a cowgirl. I have a horse, her name Sparky and her colour is a sort of blonde. She loves to eat carrots, cucumbers and polo sweets. I'm a goodie and best friends with Lightning Larry. Everyday I go to the bar for lemonade with Lightning Larry and every day we go for a walk. We see rabbits, squirrels and wild dogs all over the place. One day, we were out for a walk when we saw One-Eyed Jack and his gang, so we hid behind the bushes and got out our lightning guns. When One-Eyed Jack and his gang got close we jumped out of the bushes and fired. 'Zing... Zing...' we shot them right in the heart. Five minutes later, they came over one-by-one and pumped our hands and asked us if we'd like to go to the saloon for lemonade. Now, Larry and I are best friends with One-Eyed Jack and his good gang!

Jessica Radford

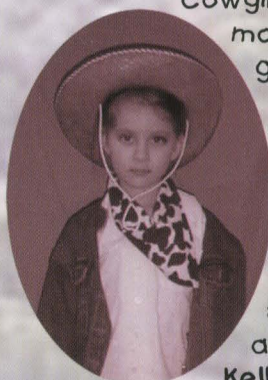

Hello, I'm Raunchy Ralph. I'm a nasty fellow! I steal, rob and kill! I live near the Okey-Dokey Corral in Brimstone. The corral is covered with bones and skeletons because a lot of people died there when our gang killed them. I stay up all night and plan nasty things to do. My gang is very lazy sometimes we sleep until three o'clock in the afternoon. Our leader is the fearsome outlaw One-Eyed Jack. One day, my gang and me went to the Cottonmouth Saloon. We pushed the bartender around and stole all the money he had! Suddenly, Lightning Larry strolled by and just shot Crooked Curt, one of my gang, right in the heart. My gang and me shuddered right down to our boots. However, Crooked Curt didn't die he just turned good. The next day Dismal Dan, Devilish Dick, Dreadful Dave and I walked into Brimstone, yelling like mad people. All of a sudden Lightning Larry turned up again, shot three little bolts of lightning at us and we turned good too, just like Crooked Curt!

Kabir Laroia

I am citizen Kelly. I am one off the meanest and scariest cowgirl in the west. I always go to Brimstone every morning to get lemonade. I bully the bartender and grab lemonade without paying for it. Once, I went to the Cottonmouth saloon in Brimstone and it was closed. I was very cross and I never went back there again. After that I went to the horse shop but there was only one horse. It was a mean and scary horse. It scared the outlaws away by kicking and biting them in the butt. I bought the horse and I gave him some bread and called him Many. He is black in colour.

Kelly Hazell

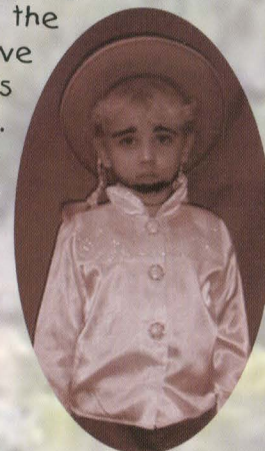

Hello, my name is Lightning Larry, the Lemonade Kid. I always drink lemonade. I'm a cowboy and I'm very fast at shooting. I've a special gun and I use it to make bad people turn good. I have to aim for the heart when I shoot. I've got a horse. His name is Tom and he can run very fast. My worst enemies are One-Eyed Jack and his gang. I hate them because they are crooks and I have never shot them before. I wanna shoot them because they have robbed so many banks and they always getting away. All day long I try to shoot bad guys along with my best friend Old Seth. Sometimes I go to the Cottonmouth Saloon to have lemonade. I hope soon that I'll be able to shoot One-Eyed Jack.

Nicholas Hayward

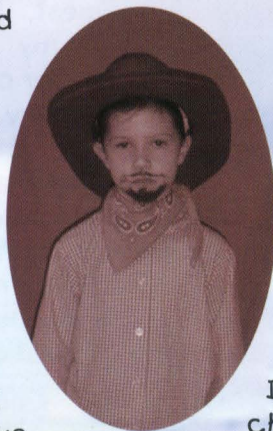

I am Grimy Greg. I like money and snakes. My favourite snakes are rattlesnakes and boa constrictors. My horse is called Ginger because he is ginger in colour. Ginger can run at 100 miles an hour. I like eating fish and chips and I love to drink tea and eat chocolates. I don't like work, instead I go and rob banks with my best friend Moldy Mike. I can run as fast as a cheetah. I have a real scary gun that can shoot eighty bullets at the same time. I must have around a hundred hats and boy do I love them. On Saturday nights I go out dancing and my partner for the Showdown Hoedown is always Creepy Cal.

Lucy Jackson

Hi I am Crooked Curt. They call me that because I like going down crooked slides. I also like to sit back, relax, eat chocolates and enjoy a movie. I have a partner called Stephanie. She helps around a lot and so when I'm busy, I just ask her to help and she never says no. She's very kind. About my horse, she's called Daffy and she loves to sniff people, especially strangers. If you were a stranger she would come up to you and sniff you real good. Now, let me tell you what happened to me in Brimstone. I used to be a baddie but when Lightning Larry shot a bolt of light into my heart, I dropped my gun and I turned into a good guy.

Madeleine Taylor

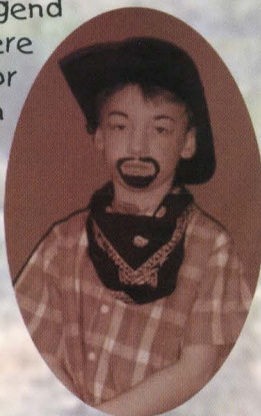

Hi my name is Magica Madison and I live in Brimstone. My horse is dark chocolate in colour and I call her Vanilla. One of my best friends is Sarah, we go to the bar with Lightning Larry and sometimes we drink lemonade together. I help people with my magic! I can make them disappear and I can heal them. I also help other cowboys catch bad guys. Do you know, I helped make the magic bullets for Lightning Larry's gun? These magic bullets turn bad guys into real good guys. One day we were rounding up all of the bad guys in Brimstone, when suddenly One-Eyed Jack showed up. Luckily Lightning Larry showed up too and shot all the bad guys with my magic bullets. Then we all celebrated with some lemonade.

Madison McLerie

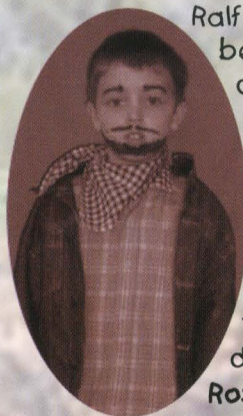

I am the 'Unstoppable Sheriff'. I am mad, mean and tough. I have the meanest gang in the west. My gang and I have been terrorising other towns but our town is the safest town in the west. My horse here is called Burn. My gang and I are the richest in the world. I'll tell you the story about Lightning Larry and me. I was robbing a bank when Lightning Larry strolled by, I just shot him in the back and we went back to our town. The next day Larry's gang tried to raid our town too, but we just shot them. We then carried on stealing and getting richer and richer. Our legend continued and we were the best gang ever or the worst depending on which side of the fence you sit. We made watchtowers around our town with guards in them.

Mikkel Stenhaug

I am Gruesome Gus and I am a fearsome gang chief. I've got a really nasty temper. When I'm mad I shoot anyone I see, except if you are in my gang. People shake in fear when they see me because I look so scary. In my gang are Creepy Cal, Raunchy Ralph, Grimy Greg, Moldy Mike and Lousy Luke. My best mate is Raunchy Ralph. When I get bored, I go to the Sheriff's office, shoot him and get the other crooks out of jail. I've got a horse and his name is Matt. Matt has got a mean temper to. He bites people, even me! I whack him hard when he does it and then he tries to run away.

Rory Boggan

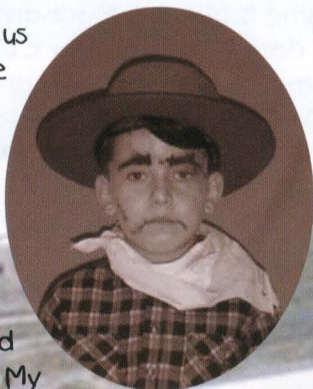

My name is Dreadful Dave. They call me that because once I broke into a house and took all the money away. I live near Brimstone and sometimes I steal sweets from the sweet shops. I have shot a lot of people in Brimstone. In my gang there are Dismal Dan, Devilish Dick, Stinky Steve, Stinky Sid, Raunchy Ralf, Grimy Greg, Creepy Cal, Moldy Mike and Gruesome Gus. My best pal is Rauchy Ralf. My horse is 10 years old and he's cool cause he can do good tricks. I also have a pet Wombat called Lightning Bolt. He nips my Feet! One day I went to Brimstone with my gang to rob the bank. Lightning Larry saw us coming up the steps and he shot me in the heart. However, I did not die but felt very happy. Next I shot my best friend Raunchy Ralf. At the end of the day Ralph and I had a gunfight with One Eyed Jack's gang and shot them in the heart. Now we are all the best of friends and do good deeds all day long!

Ross Mason

I am One Eye Jack and I am famous all over the Wild West. I have been an outlaw for well over five years and I'm the meanest outlaw in my gang. I carry two small pistols with me so I can shoot people by surprise. The pistols are so small that I can hide them both in my holster. I do evil things like robbing banks and destroying towns in shoot-outs. My horse is called Gallop and he can run really fast. He's a mean horse too and kicks anyone who walks behind him except for my gang and me. He kicked me once when I first got him and that was when I lost my eye! My worst enemy is Lightning Larry, the lemonade Kid. I had a showdown with Lightning Larry and I got zinged and it felt very strange. I became very happy when it happened.

Alastair Hirsch

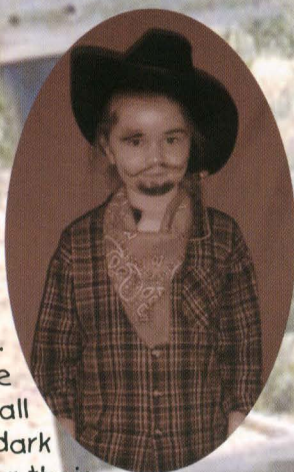

Howdy, my name is Sarah and I expect you realize this old town here is Oldo. The real name is Oldano and a hundred people live here including me. I am a cowgirl. When I rode into Oldo I didn't make much noise or course any bother. People said I was nice, kind, beautiful, helpful, honest, and thoughtful and minded my own business. I have a horse, her colour is white and her name is Snowy. She is very fast. I have a lot of cowgirl friends, their names are Jessie, Maddy, Kelly and Audrey. One Monday I saw a new man in town and I said to him, "What's your name?" and he replied, "Lightning Larry." He had a brown horse called Brownny. When I went to Chocolate Bank I found a trail of blood!

Sophie Christopoulos

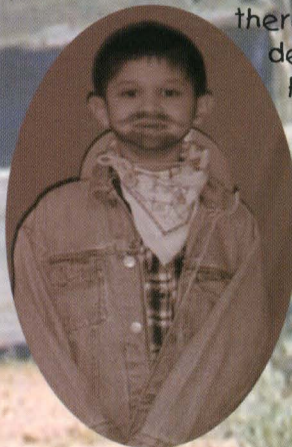

I am Sickening Sid and I am a mean baddie. My friend is Stinky Steve and we both rob banks and scare people. Our horse's names are Frizzball and Conker. Frizzball is very furry and Conker is dark brown - that's the reason for their names. Once when we robbed a bank, we got \$9,890! Our boss is a dude called One-Eyed Jack. When we're not robbing banks, we watch TV all day long. The bank we always rob is in Brimstone. We creep into the bank in the middle of the night, steal the key from the sleeping guard, let ourselves in to the safe and take all the money. After we get the money we ride back on our horses to One-Eye Jack. When we got back we all have a party.

Sophie Hext

Hello their folks, I'm Raunchy and I'm one a tough outlaw. My story began when I was a Cowboy in a town called Brimstone. I was robbing a bank called Tunser Bank with my gang called the 'Fearsome Skulls'. My gang is really fearsome, we aren't afraid of anyone! I like most folk but there was one man I could not stand, Lightning Larry! He was my worst enemy. He was always stealing the money we had stolen. My horse was very smart his name was Sprint and he was the best horse in the west. One day when I was feeding Sprint, I suddenly heard a loud bang. I opened the door and it was Lightning Larry. He was just standing there! I could see some of my outlaw gang dead on the ground! I faced a gunfight with him. We walked seven paces from each other. Larry shot first, 'ZING', I ducked and I shot him. He lay on the ground dead! From that day on my gang and I became famous in the west as the worst gang.

P4-13 and the Camp of Horrors

Camp Nightmares

"Where is everybody?" asked Charlie.

"Look there's a path of blood leading right up that hill," I said.

We all followed the path of blood, but Charlie ran ahead.

Suddenly, Charlie screamed. He came running back; his face had gone completely white.

"I just saw a werewolf," Charlie said panting, "and I saw a dead body too."

Suddenly, I asked, "Oh no, where's Jess?" Then I remembered, but I was not going to tell anyone.

"I'll go tell Mr. Nevin," said Charlie.

Georgina Moore

Out of Control

The next day when we were getting up, Owen screamed at the top of his voice, "Run for your lives!!!!!!!"

We all jumped out of bed and climbed over the wall. Oscar accidentally moved the switch on the device that Evila had by mistake left behind. The huge beam of light went out of control.

"Duck!" I shouted. It hit some trees, a football, a basketball and much more.

"The trees are jumping, the balls are talking, the cats think they are mice, the mice think they are tigers and the tigers think they are cats. The rope course is walking and the beach is singing," I shouted. Everything seemed to be doing the opposite.

Alexander Cooke

The Buddha

I escaped and went off in search of Alexander. Alexander yelled for help once again, but no one answered. As he was shouting for help, a long, thin cobra slid down his back. He screamed again. This time I heard him. I ran to him. I saw a guard with a chain-gun, and its owner was asleep. I picked up the gun and ran back to Alexander. The snake was squeezing him to death! He was very pale and could not move. I raised the gun and opened fire. The snake fell to the ground.

Maxwell Fuller

Killer Cockroaches

I was lying in bed awake because Owen had been snoring very loudly. I had no idea how long I'd been awake, but I had a feeling that this was an abnormal night. It seemed like it was nearly midnight. Suddenly, something slapped me on the face. I screamed when I saw it, but it was only Owen who had rolled over.

I was getting thirsty, so I went to get a drink of water. As I walked back to my dorm, I saw something big scuttling on the beach. It was about one metre long and was moving very fast.

Jeremy Smith

The Fight For Survival

On camp, when we were in our dorms, the other children woke me up. They told me they saw red eyes outside. I told them to get their weapons and armour.

So they put on their armour and got their weapons. Jeremy, Owen and James and myself went outside to see what was over there. So when we went outside, we saw demons. We called my friends and the other children to come out.

The weapons they had were swords and bows and arrows. They were shocked to see what they were going to be fighting.

They were scared but I said, "Don't be scared and don't show mercy!"

Kenichi (Ri) Lee

The Dark Camp

It was the day of camp and everyone was very excited. Nick and me were playing stone, paper, scissors. Suddenly, Nick lost and leaned backwards and landed into some plants. Nowhere a Venus flytrap could find him I thought, but I was wrong. A Venus Flytrap appeared and ate him.

"Look out Nick, run," I shouted.

"AHHHH! Help me!!!"

No one heard him all we could hear was, "Gulp. Burp!" And he vanished.

Oscar Copley

Some Dogs Are Bad

"Who is Lotta?" Max asked Mrs. Rees

"He means Lotte. But anyway, where is she?" replied Mrs. Rees.

"Let's look back in the street that we just came from," I suggested.

We walked back down the street and saw a blond blood hound lying across the road.

"That dog looks like Lottel!" said Jessica.

"Should we get away from Lotte?" I asked Mrs. Rees.

"I think we should," said Jonathan. We all started running away.

A few minutes later, Jonathan noticed that Max was not with them, so he stopped everyone to a halt.

"What's the matter John?" asked Nicholas.

"Max has turned into a blood hound too!" was his answer.

Sophie Roder

The Return Of The Black Camp

We went back to the campsite and went to sleep. I was bursting for the loo but I was too scared to go. I got up to get a glass of water. Suddenly the floor started to crack, and out of the cracks came ZOMBIES. Owen Maxwell and me ran to our dorm. As soon as we got in to our dorm and fell down a trap door. All of us whined, "Where are we?" Out of the shadows came a werewolf, with glowing red eyes and razor sharp teeth.

Alexander Bradbury

Underwater

"SPLASH!" Maddie and Miranda fell into the sea. Luckily, they had breathing masks on so they could breathe.

"What shall we do?" Maddie spurted.

"Swim! Lantau is north," said Miranda.

"Look! I can vaguely see a shark," screamed Maddie.

"Swim!" Miranda said.

The two girls swam as fast as they could.

"Keep swimming," Miranda whined.

Suddenly a shark came as close as it could.

"What shall we do?" Maddie asked.

"Jump on top of it," Miranda gasped.

Miranda Robson

When Things Go Wrong

Soon we found a fairy who explained why we had seen the dragon.

She said, "While you were asleep you travelled back to the dark ages."

I asked, "What's your name?"

She said, "My name is See Through."

"See Through, could you take us back?" I asked.

She replied, "No it would take lots of fairies."

"Can you call them?" asked Maddie.

"Yes, but they won't come," said the fairy.

"But why?" said Maddie.

"Because they are prisoners in the evil castle," she replied. "I can only defeat the evil king with two friends."

We looked at each other and said, "Yes, we will help."

Lara Bates-Prior

Ghost

"Help us"! we called as huge rocks came flying down on us.

"Help us," we shouted again.

There was no one on the same hillside

"It might have been a ghost," Mr Nevin suggested.

"No way," Maxwell said.

"But there are no ghosts here on this huge hill," Alex shouted.

"Let's sit down on this grass," I demanded.

"I don't think that will be a very good idea," Owen said.

"Why then?" Nicholas asked.

"Because they are green needles that look like soft grass. That's why you shouldn't sit on the grass," John shouted.

Hugo Denness

The Kung Fu Cat

Its 12:00 midnight and I look out of my window and see a small creature swinging on a rope. All of a sudden, "HIYAAA." The creature lets go of the rope and lands on the roof.

It throws a mini-trampoline down and jumps. It bounces up and down and up and then finally falls on the floor. It picks itself up with a grunt. It creeps into our dormitory and stands in the middle of it.

I kick Alice and she says, "What!" a little bit too loud."

What is going on in here," came the tough booming voice of Mrs. Gregory. "I thought I told you to sleep?"

Tabitha Roberts

P4 Camp

It was turning night-time. I went into my dormitory and off to bed. When everyone was asleep I saw the cupboard open and a mummy was in it. I thought it was a dream so I lay back down in my bed. Then the bed shivered and I woke up. This time it was not a dream. I saw him push my bed.

I whispered to Mr. Nevin, "Help there is a mummy."

Mr. Nevin said in a sleepy voice, "Just go back to bed." So I went to sleep.

In the morning, Mr. Nevin was gone. The mummy was still in the cupboard. We were shouting. Soon the mummy was walking around the room.

Joshua Newton

Horrifying Camp

At camp Georgina, Katerina and I were shocked because it wasn't a normal camp like you usually have. It was a black castle. In the castle lived a troll. Not any troll. It was a troll that liked to eat people and kids. If kids were in their dorms, the troll could smell us wherever we were.

'Boom Boom.' I pulled my friends in to the girls' dorm. Georgina and Katerina said in an angry voice to me, "Why did you pull us in Maddie? You almost got us badly hurt!"

"Well," I said in a nervous voice, "Did you hear that girls?"

"Hear what?"

"That booming sound?"

"No. You must have been dreaming Maddie."

"No I am not. Remember what Mr Nevin said in the garden about the troll."

Maddie Scott

The Demon and the Big Buddha

Phoebe was about a metre away and the demon was stood in front of me. I was scared, for I knew the demon group could follow me.

Suddenly, I fell down a whole load of steps. I was near my class and the other class, but what about Phoebe? She was still up there. It was my job to tell the teachers. But wait, I thought, my teacher is a demon too. For all I know he could have made a trap to kill Phoebe.

Katerina Wilkins

Into The past

At 3:30 we arrived at Tung Chung Fort. I walked around with my best friend Jonathan and we walked upstairs where the cannons were. We sat on one cannon and suddenly everybody froze. We walked past waving at them but they did nothing so we went into a little jail.

Inside was a funny patterned circle and before we could say a word, we were sucked in. We were falling in a tube of magic. We landed in the Tung Chung Fort but it was different. We had gone to the past. We got up as people came rushing past us.

Nicholas Au

The Toilet of Doom

In the middle of the night on a full moon, I woke up hearing a creaking sound. I think it was coming from the bathroom, so I whacked the person opposite.

James Huang and I tiptoed to the 'bathroom of doom.' In the bathroom it was dark and cold, so I told James to go and fetch his torch. Thirty seconds later, James came back with it, so we both took a deep breath and tiptoed into the bathroom of doom. James and I were terrified when we saw what it was. It was what we dreaded the most. SNAKES! Snakes in seawater.

James Wong

Hounds

Suddenly, thousands of hounds came out of nowhere. Is this the end? I don't think so. The hounds ran at them like mad but Rupert punched them until their deaths.

"Who else wants a piece of me?" threatened Rupert. The hounds looked at each other and disappeared.

At that moment, the Boys' dormitories opened. All the boys had been turned into zombies by a lightning strike.

Owen Rees

Hiking

The P4 children and I were hiking on the mountain top. Mrs Gregory, Alexander Cooke and I were doing a rollercoaster when me and Mrs Gregory fell down the path. Something touched us. We didn't know what it was, but when we all stood up and saw a huge alligator. Mrs Gregory, Alexander Cooke and I tried to run away but it crawled and ran after us.

It was two thirty in the afternoon and the alligator was still following us and we were running as fast as we could when we fell down a huge hole. It was so freaky that Mrs Gregory fainted and we had to throw water on her face. Suddenly, the alligator fell on top of us. Mrs Gregory's bag turned into a flying carpet and we flew away on it.

Guy Moore

Ghostly Teachers

What's that? I heard something out there. Someone was out there. Georgina and Jess heard it too. They looked at each other.

"I don't know," sighed Georgina.

"It could be the boys," thought Jess.

We all looked at each other in wonder.

"Why don't we see?" I asked them.

"All right," agreed Georgina, "If it's the teachers, we will pretend that we're going to the toilet." We all agreed and we opened the door

'Aaaaahhhh!"

All the teachers looked at us. Their eyes were bright green.

"Children!" shouted Mr Nevin. The teachers' claws were ripped.

We all screamed our heads off,

"Aaaaaaaaahhh." We did it to waken up the camp.

Eleanor Bound

Mysterious Camp

Suddenly, Jess heard a howling noise. It was a werewolf. The door slammed open and Miranda started seeing things. Then something appeared. It had glowing white eyes and blood dripping from its mouth.

"Watch out," screamed Jess.

"Gggggggggg," whispered the first monster. It was too late. The werewolf had already had her dinner. I jumped out of bed and ran into the teachers' room. The first monster came charging after me. Jeremy walked out of his dorm and saw the bloodthirsty creature. Suddenly, two more appeared. Jeremy ran around screaming. He even ran in to the girls' dorm. Georgina woke up and screamed. There was a dead body next to her. Now we had trouble.

Jessica Haller

Dreaming

It was midnight and I thought, "I'm the only one awake." I looked down and maybe because I was thirsty, I jumped out of bed, crept to the door and tiptoed to the water fountain.

I closed my eyes because I was tired and something ran straight through me. I ran to my dorm and went back to bed. As I looked up I saw some creepy red eyes looking down at me so I ran to the door and switched on the lights. I told my dorm what happened but they said that I was dreaming and they had not seen a thing. They all went to bed but I went to the loo.

As I was in the toilet, I heard the next toilet flush, then the shower went on. But you weren't allowed to have a shower at night!

Alice Irwin

Camp Monsters

"There's something outside", I whispered." Grab your torches, and let's go."

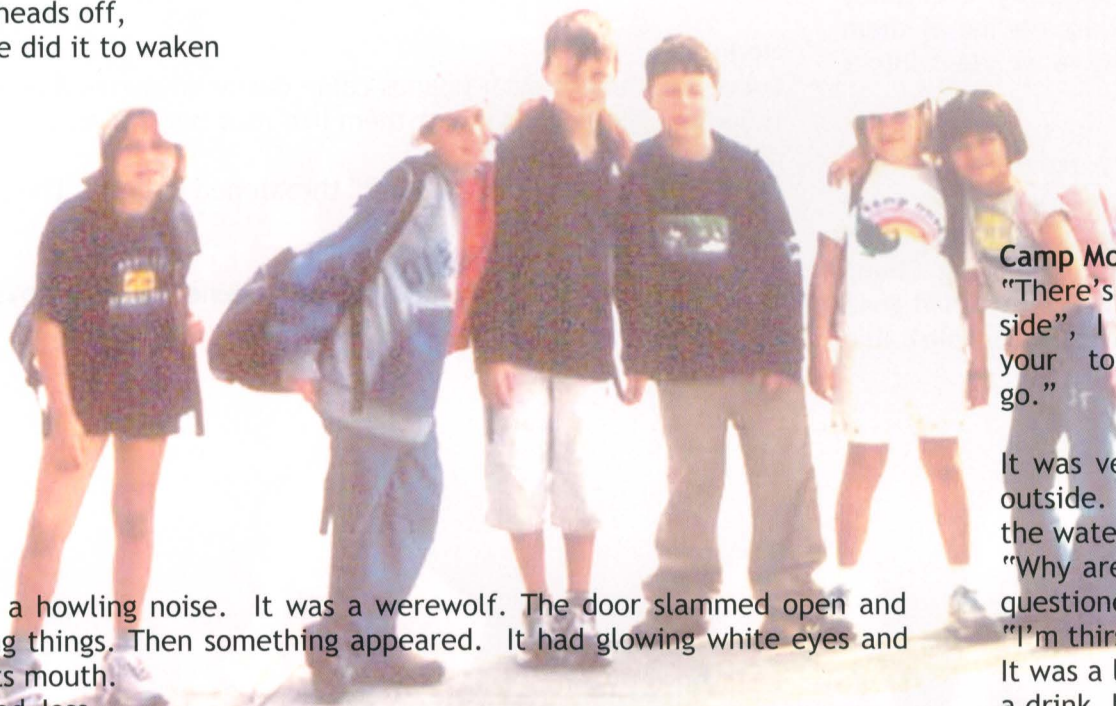

It was very cold, and dark outside. We crept over to the water fountain.

"Why are we here?" James questioned me.

"I'm thirsty," I whispered.

It was a lie. I wasn't having a drink, but keeping an eye on the gap between the girls' and boys' dormitories. There was something there. A pair of big, yellow, eyes, more than one, were staring at us.

Body Parts and Bone Graphs By P4-14

In class we have been studying growth and bone lengths. We measured our head circumference, our height, our noses, ears and a whole lot more! Then we inputted our findings into the computer and made graphs out of the information that we collected. Next we inserted them into publisher and wrote about our findings.

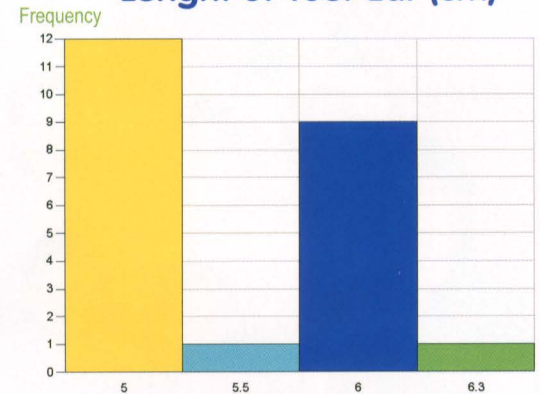

Length of your radius (cm)

This graph shows the length of children in P4-14's radius bone. Most children have a 19 cm radius. The least common lengths are 16, 18, 21 and 26 cm. The most common measures are 17, 22 and 20 cm. The longest bone is 26 cm and the shortest is 16 cm, the difference between the longest and shortest radius in my class is 10 cm.

Ben Newton

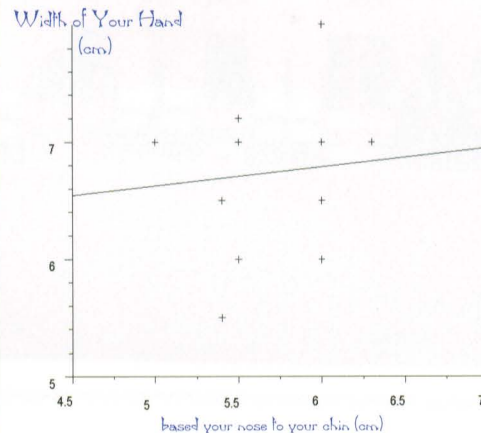

Length of Your Ear (cm)

My graph is about ear length of children in P4-14. Most people have a 5 cm ear length. One person has a 5.5 cm ear. Nine people have a 6 cm ear. One person has a length of 6.3 cm. I was surprised that there was only 1.3 cm difference between the smallest ear and the biggest ear. I was surprised that my ear was the same length as my friend's ear and she is older than me!

By Alexandra Davidson

Comparison of Hand and Distance Between Nose and Chin

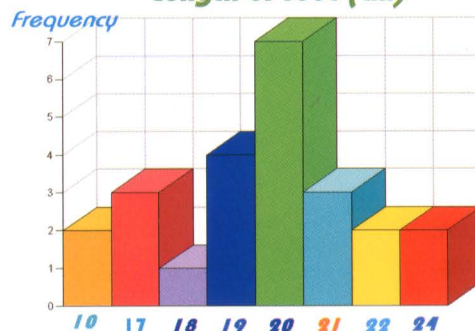

This graph is called a scatter graph. We measured parts of our body. This graph shows the difference between the width of your hand and the base of your nose to the bottom of your chin. We expected them to be the same but they weren't. There are only 12 dots because some of them indicate some thing like 5 people. The dots underneath the line mean that the width of your hand is shorter than the base of your nose to the bottom of your chin. The dots above the line show that the width of your hand is longer than the base of your nose to the bottom of your chin.

By Daisy Blaksley

My graph shows children's foot length. The most common foot length is 20 cm and the least common is 18 cm, the difference is 2 cm. Four people have a 19 cm foot.

By Jack Edwards

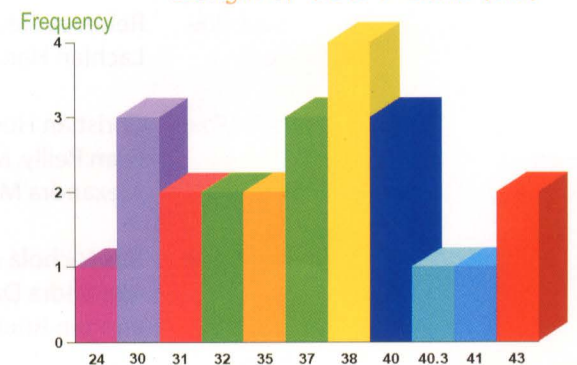

Length of foot (cm)

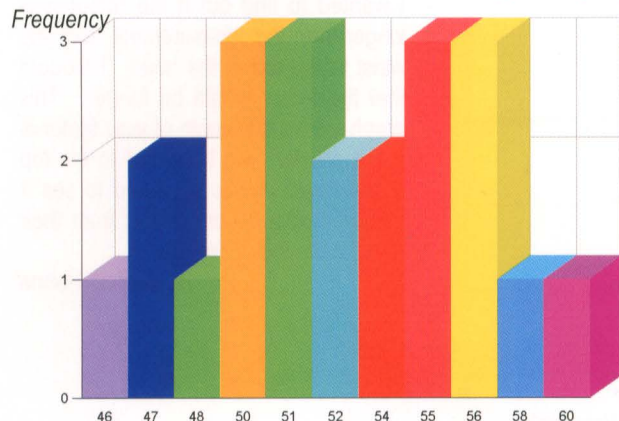

This graph shows everyone's length of their femur. Only one person has a femur of 24 cm. The longest length is 43 cm. Four people have a femur measuring 38 cm. Three people have a femur measuring 40 cm.

By Rebecca Slevin

Length of Your Femur (cm)

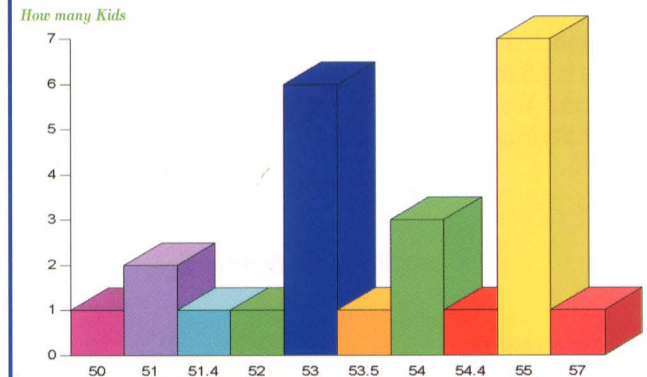

Your Waist To The Top Of Your Head (cm)

This graph is a bar graph, it shows the range of measures in our class for the distance from our waist to the top of our head. We found that the smallest measure was 46cm compared to the largest measure which was 60cm. The most common measures were 50 cm, 51 cm, 55 cm and 58 cm. The least common measures were 46 cm, 48 cm, 58 cm and 60 cm. I was quite surprised that the difference between the smallest measure and the largest measure is 14 cm.

By Nadja Auerbach

What is your head circumference?

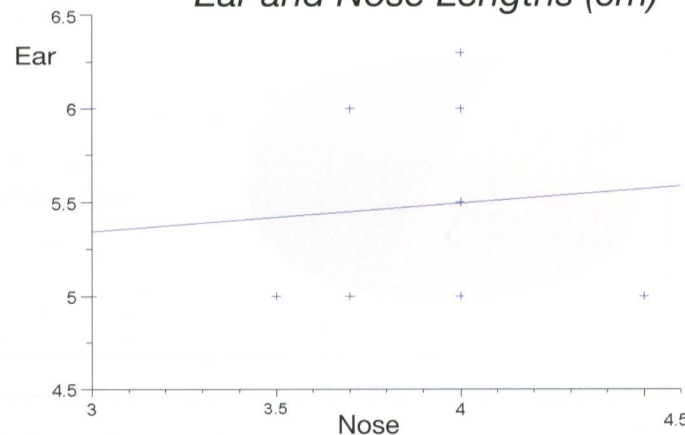

The graph says that only one person has a head circumference of 57 cm. Guess who that person is? The answer is ME!! Yes it's true my head is the biggest in my class! The most common head circumference is 55 cm. It also says that someone has a head circumference of 50 cm. That's the same as my little sister! And she's only 3 years old! This shows that different peoples head circumference grows at different rates.

By Alexander Jenkins

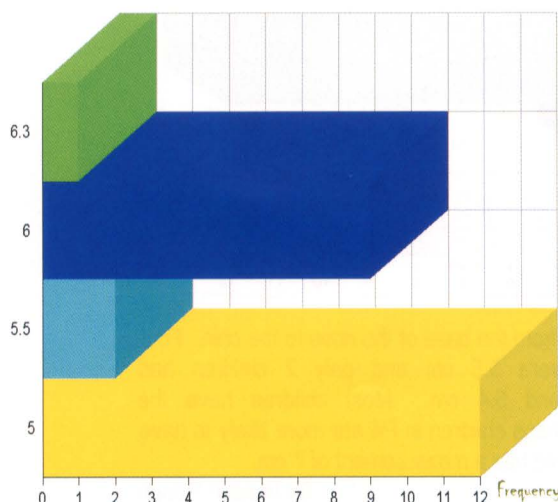

Ear and Nose Lengths (cm)

This is a scatter graph. One person's nose is the same length as their ear. The biggest ear is 6.3 cm. The biggest nose is 4.5 cm. The smallest nose is 3.5 cm. The smallest ear is 4.5 cm. I think that as you grow your nose and ear grow to be the same length as each other.

By Grace Miller-Day

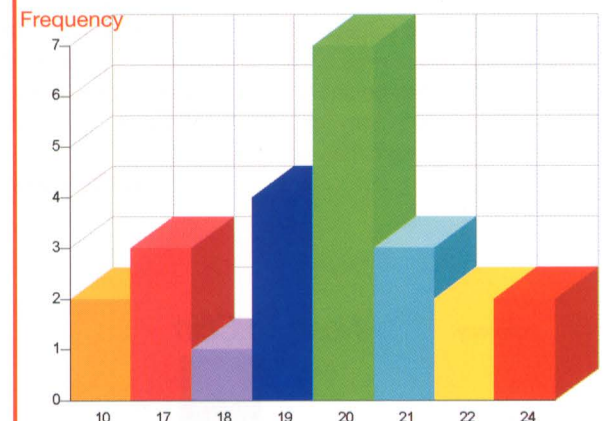

What is the Length of Your Ear (cm)

My graph shows the length of children's ears. There are 12 people that have a 5 cm ear, this is the most common measurement for an ear in P4-14. There is only a small difference between the biggest and smallest ear, the difference is 1.3 cm. The least common ear length is 6.3 cm. There are only 2 people with 5.5 cm ears. The order of the ears from smallest to largest is 5, 5.5, 6, 6.3 cm.

By Phoebe Eddleston

Length of Your foot (cm)

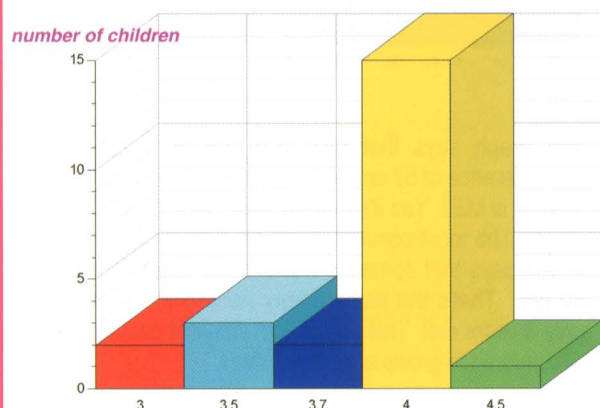

My graph shows the length of children's feet. The most common measurement was 20 cm. Seven children had feet the length of 20 cm. The least common measurement was 18 cm. The largest measurement was 24 cm. The difference between the largest measurement and the most common measurement is 4 cm. I never knew that somebody had a ten cm foot! That is a big mistake.

By Lawrence Knight

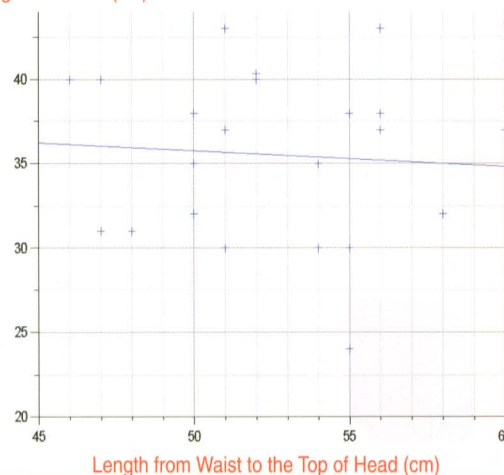

This graph shows you about noses. This graph shows the difference between the smallest nose and the biggest nose, the difference is 1.3 cm. The smallest nose is 3 cm. The largest nose is 4.5 cm. The most common length for a nose in our class is 4cm. We found out that the oldest person in P4-14 did not have the biggest nose.

By Sayaka (Ri) Lee

Length of Your Nose (cm)

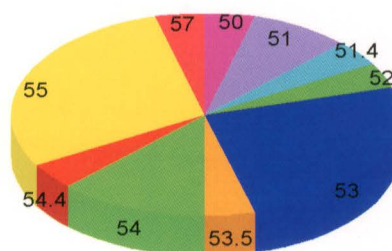

Length of Femur (cm)

I wanted to find out if the femur was longer than the measurement from the waist to the top of the head. I thought that the femur would be longer. This graph shows the length of your femur is much shorter than the waist to the top of the head. I was surprised to see 1 person had a 60 cm length from their waist to the top of the head.

By Lachan Hanna

Head Circumference (cm)

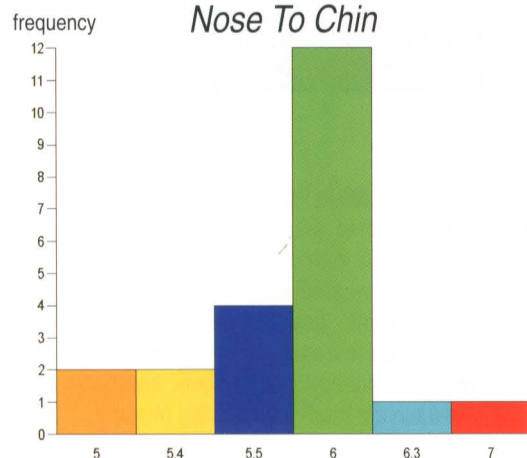

This graph shows the head circumferences in P4-14. The most common measurements are 55 cm and 53 cm. There is 7 cm difference between the longest and the smallest. Only 1 person had 57 cm, 50 cm, 51.4 cm, 52 cm, 53.5 and 54.4 cm. This tells us that peoples' head circumferences grow at different speeds.

By Charlie Speirs

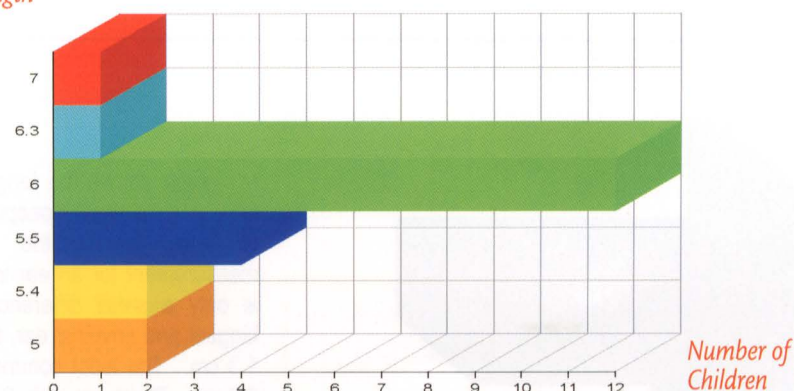

This graph shows the length from nose to chin for children in P4-14. Twelve people's nose to chin differences are 6 cm. Only one person has a length of 7 centimetres and it is the biggest. I was surprised that all the differences were so near to each others nose to chin differences. I was amazed how big a nose can be and that other peoples noses are far bigger than mine, they might even have a 12 to 20 centimetre nose when they stop growing!

By Max Copley

Nose To Chin

Length base of your nose to your chin (cm)

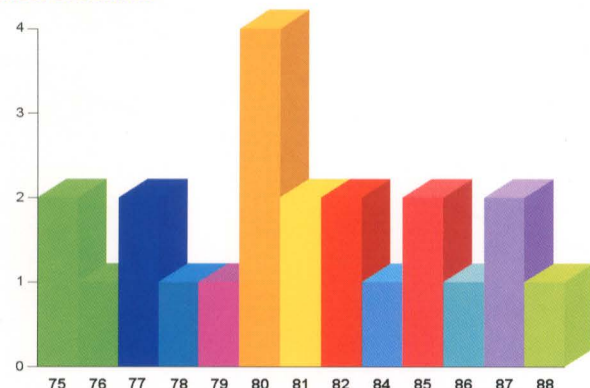

This graph shows the length from the base of the nose to the chin. Four children's measurements were 5.5 cm and only 2 children had measurements of 5 cm and 5.4 cm. Most children have the measurement of 6cm so perhaps children in P4 are more likely to have a nose this length. Only 1 child has a measurement of 7 cm.

By Imogen Rough

Length From Waist To The Floor (cm)

Number of children

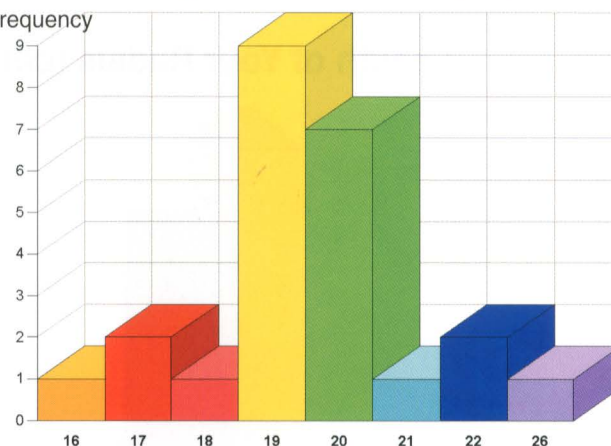

This graph shows the length from the children's waist to the floor. Four people measure 80 cm and 2 people measure 75 cm. One child measures 88 cm. One child measures 86 cm.

By Wester Beune

Length of Your Radius (cm)

Frequency

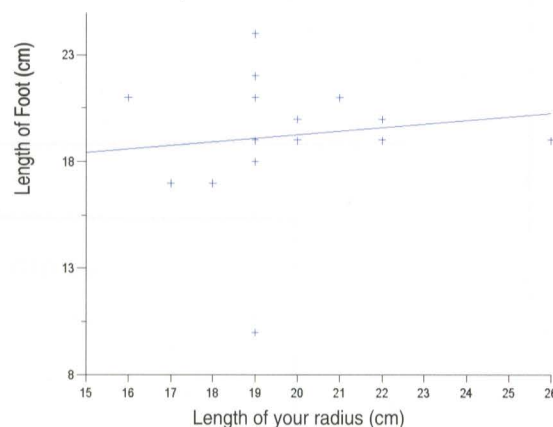

This is called a bar chart. Most children in the class have a 19 cm radius. Only one child in the class has a 16 cm radius and only one child has an 18cm radius one child has an 21 cm radius and one child in the class has a 26 cm radius. The longest radius is 26 cm and the smallest is 16 cm, the difference between them is 10cm. Only 2 people have a 17 cm radius.

By Christian Huck

My graph compares foot size to the radius bone. I expected these measures to be the same. The graph shows that there is a close relationship between these two measures although they do not measure exactly the same. The biggest foot does not match the biggest radius. The biggest radius is longer than the biggest foot. The biggest foot is 21 cm bigger than the smallest foot. One problem with these results is that we had our shoes on when we measured our feet, which would make a difference! My left foot is the same length as my friend's right foot and my right foot is the same length as my friend's left foot!

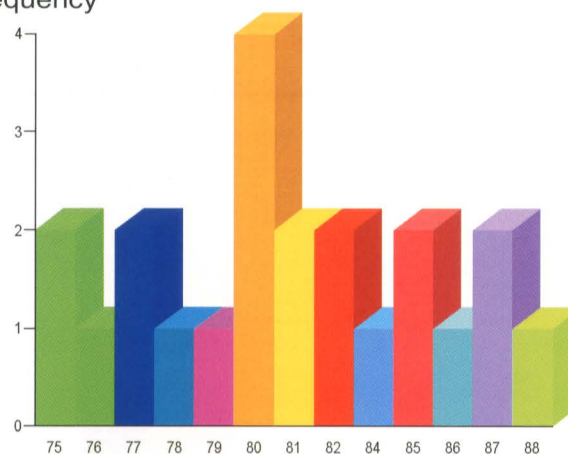

By Jamie Henderson-Gibb

Comparison of Foot to Radius

from the floor To The Waist. (cm)

Frequency

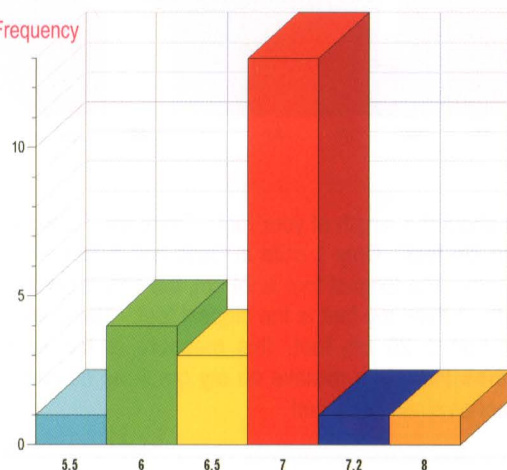

My graph shows that the majority of people in P4-14 measure 80 cm from their waist to the floor. Two of the people have a measurement of 75 cm and one person has a measurement of 78 cm. The longest measurement for a person in P4-14 was 88 cm. The second longest was 87 cm. The shortest length was 75 cm

By James Walton

Length of your hand at the base of your fingers (cm)

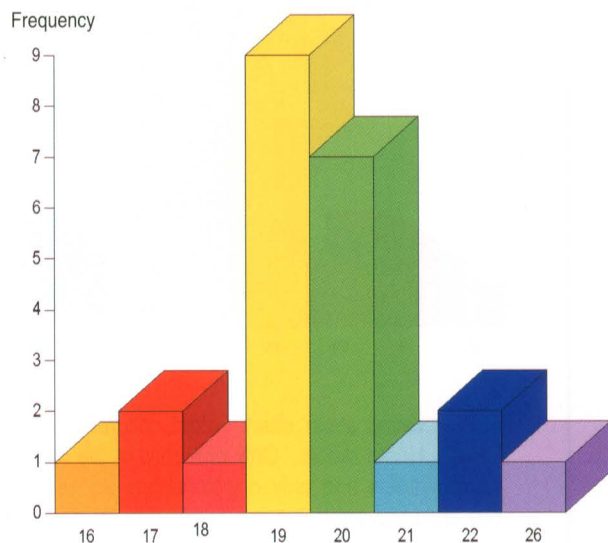

Frequency

This graph shows the length of children's hands at the base of their fingers in P4-14. There are 13 children in P4-14 that have a length of 7cm. The length of my hand at the base of my fingers is 6.5cm. One person has a measurement of 8cm. These measures are the least common: 5.5 cm, 7.2 cm and 8 cm.

By Jessica Elsaputra

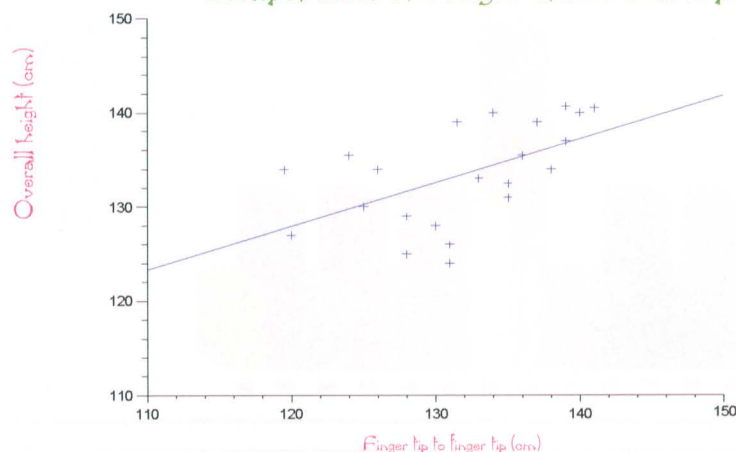

Length of Your Radius (cm)

Nine people had a radius that measured 19 cm, that is the most common measurement in our class. One person has a radius that measures 16 cm, that is the smallest measurement we recorded for our class. The biggest radius in our class measured 26 cm, but only one person had this length. I was surprised that the difference between the smallest and largest radius was 10 cm.

By Lotte Van De Venn

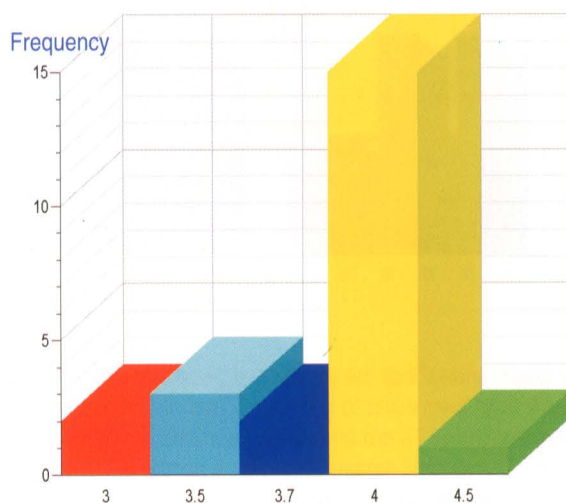

Comparison of Height and Arm Span

I expected that most arm spans would be the same as children's overall height. Only 3 people had the same arm span as their overall height. There are more people smaller than their arm span. It is expected that when you are an adult your height is the same length as your arm span.

By Clemens Shaw

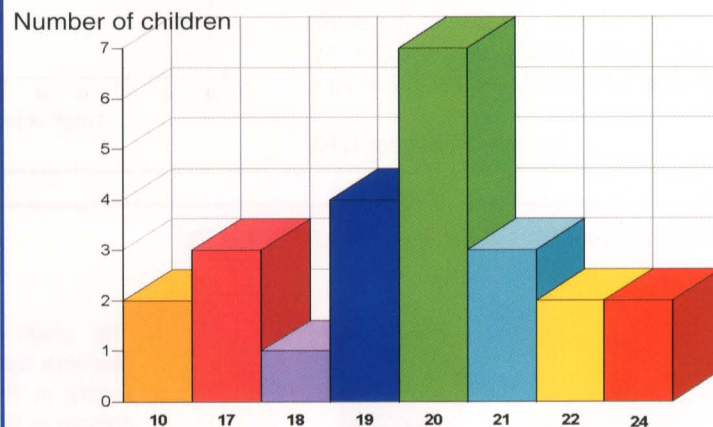

LENGTH OF YOUR NOSE (CM)

My graph shows the nose length of children in my class. The most common measurement is 4 cm. The least common measurement is 4.5 cm. Only 1 person has a measurement of 4.5 cm. The difference between the biggest and smallest is 1.5 cm.

By Evan Reilly

Length of Your Foot (cm)

This graph is about the length of your foot. There are 7 children who had a 20 cm foot. Only 1 child in class had a foot which measured 18 cm. The longest foot is 24 cm, but only 2 children had this length. I think my foot is the biggest foot. There are 7 children who had a 20 cm foot, this measure is the most common. I think there is a mistake on my graph as no-one in class has a foot as small as 10 cm!

By James Huang

30th August 1768

It's four days since we left home to wherever we are going. Oh no, a storm has arisen and Captain Cook has called us out of the hold to prepare the ship for the battering storm. As soon as I stepped out of the hold I was nearly swept off my feet with the wind. I am scared because I have to climb the swinging, rigging to pull the sail down. I am drenched with the rain water all over us, I am freezing as well and the storm is not getting better. Oh dear, this is bad the sail cannot come down and I have tried to use other sailors but it won't budge!

By Imogen Bull

The Day I Saw a Platypus August 7, 1770

Heaven help us! Just when I went to the cold creek to cool down my hot body, I saw this devil swimming quite close to me. As I could not swim, I had a thick rope tied to tree with my good sailor skills. This time I used a knot called the Devil's Tongue, but it does not matter. I climbed on to the rope until the devil passed away. I ran as fast as I could until I ran into this man with drawings on his body. He spoke in a barbaric and uncivilized language. I ran until I was thirsty. I did not want to go back to that demon-possessed creek but I did because I was so thirsty. As I was drinking the water, I saw the devil again. But I was not as frightened as I was before so I had one good look. It had a bill like a duck and black oily skin. I wanted to touch it, but it darted away. Maybe I'll paint a picture of it to my sister, Marlette.

By Audrey Koh

Voyages with Captain Cook *P5-15*

Ship in a Storm 28-30th 1768

We could see a storm heading for us it looked like a black horse, all of our men were scared even the captain looked nervous. The sea was getting rougher and the wind was howling some of the men were praying. The captain told me to climb the mast and put up the sail (it might be damaged in the storm). It was very misty and I couldn't see the deck I had done my job for the captain but now I had to do a job for myself to stay alive! Suddenly I heard someone shout

"We have lost some chickens!"

Sometime later a man shouted. "We have lost a boat!"

I just saw the boat get shattered on the rocks. It looked liked the worst of the storm was over the men were overjoyed I don't think I will survive with some chickens and a boat lost already.

By Young Sam Winter

The Day I Saw A Kangaroo April 29th 1770

We had just finished unloading all the things we didn't need off the ship, when a very peculiar animal sort of bounced across the plains. People stared at it as it went by. It was a tall animal with a sort of extra head sticking out of his tummy. Another one went by but closer. I told the crew with guns to fire at it with a gun, I wanted to have a closer look. One of the members got it in the head. I told the crew members to bring it back on to the ship. When it finally got on the ship, I stood open mouthed.

By William Huck

30th August 1768

We have been sailing alone peacefully for 4 days I think, when a storm picked up. The wind was howling, the boat was going side to side. We were going side to side. Oh God. Think of me a 17 year old boy on a boat in a middle of a storm. Help somebody help me. I dozed off. I woke up with a shout "Man over board!" I ran out side leaving the door open, allowing the chicken to get away. I grabbed my rope from my belt, which holds my shorts up. I threw the rope off the side (of course still holding it) He grabbed hold. Everyone's helping me by now so we were just able to hose him up. "Hey Charlie did you let the chickens out!" Suddenly a massive wave hit the Endeavour and sent the chickens and a boat flying over board the Endeavour. "Bye Bye boat and chickens," I mutter to myself. Anyway the chickens were starting to get annoying. I am cold, wet and relieved because the storm is over. We celebrated with a bottle of rum. HIP HIP HOORAY, HIP HIP HOORAY.

By India Boffey

30 August 1768

The weather was wild, the wind was blowing so hard, it was raining heavily and we couldn't see anything. We just left land and it was like this? "How are we going to survive with chickens falling off board?" I screamed "and how are we going to control the ship when we can't see?" One of the lifeboats fell off as a wave hit us. The ship was rocking around and we couldn't control it. The man in the crow's nest suddenly shouted "Stop the ship if we don't we will get struck by lightning!" After he said that he said that he fell off and hit the ground. Suddenly the ship nearly capsized!

By Shaan Jindal

The day I saw a kangaroo...

April 29th 1770

I get off the boat on Monday to have fun and run to get the feeling back to my legs. We start on the cargo and trade gun powder for food. First time in 3 months I had a comfy bed. April 30th 1770. I saw an amazing sight, a jumping animal. I call Captain Cook "Look at this!" A man villager comes up to us, so I ask him what the strange jumping animal is. The villager says it is a kangaroo. I asked how can it jump so high and he said "I don't know all his kind can. It's just the way they are." I asked Captain Cook "Shall we take one back?"

By James Boggan

The day I saw a koala

April 29 1770 was the day we spotted land. When we anchored we started to take our stuff off the boat. When we went into the forest to explore I spotted this fuzzy little gray thing in a tree, eating leaves, how strange was that?

I asked the aborigines what that was and thankfully one of them spoke English he said "that is, in your language (English) koala." I shouted out to everyone

"Up there a koala!"

"What." said one

"Where?" said another.

Captain Cook said "gee-whiz my golly what is that thing up there say that again."

"A koala" I said

"A koala wow." Cook said amazed.

By Georgia Hablutzal

The day I saw A Black Widow Spider

April 29th 1770: My ship the Endeavour has landed on a wonderful beach. I wanted to have a look at the plants, so I started climbing a beautiful short tree. When I got to the top of the tree, I was about to pick a yellow plant, I felt something furry and wriggly on my left hand, as soon as I felt it I fell down and got knocked out. After about five hours I woke up and looked around. Suddenly, I felt something itchy on my head, I scratched it but when I put my hand down I felt something bite my hand I screamed "HELP" but none of my crew could hear me. So I looked at my hand and saw an amazing sight, I saw a black wriggly thing, which was furry and had eight legs. I was terrified!

By Edward Stonehill

The day I saw a Dingo April 28th 1770

We had just landed at a strange place, nothing like home. I decided to look around this new discovery. There was a patch of dry grass, so I went to rest. Suddenly this enormous, growling dog jumped out of a great bush and chased after me. I was shocked and scared but most of all amazed. I had never seen such a creature in my life. Then I remembered my mother had told me the word 'din' meant canine, which meant dog. So I thought well I decided that this thing must be called a DINGO. I knew I was going to have great adventures with my discovery. I decided not to tell Captain James Cook the one who I had offered my assistance to.

By Isabella Barnes

The day I saw a kangaroo

It was April 29th 1770. I spotted land and we sailed up to it. A land never conquered before. I checked if we were in Australia and we were! Suddenly a shake in the bushes, then I saw a creature I had never encountered before. It was hopping on two legs and had a pocket in front of its belly. I went up to it and felt it's tender yellow fur, then, it ran back into the bushes. It was SOOOOO fast! Gosh I wish could hop like that!

By Joshua Kindler

*The day I Saw a Black Widow Spider
April 29 1770*

I woke up and I heard Young Nick shout out land ahoy. I ran as fast as I could in excitement. In a while we reached a strange place and searched around. Then on a tree we saw a spider. It had six eyes and eight legs. It was black with red on top. I was amazed. I was so amazed that I laughed. Then suddenly, it bit Jimmy Longerson. "Are you ok are you ok?" I asked him. We carried him on to the boat we looked in his cut we found out that these spiders have lots of venom. Jimmy could not breathe and one hour later he died. We found out more about the animal, but I say that it is extremely dangerous.

By Alex Lipton

April 29th 1770

The Day I Saw A...Kangaroo

Today I was sailing my ship to Australia, and we were nearly there. At last we got there, the crew and I were shocked. There was clean water, sand, grasslands, there were nice friendly people too. But they weren't the friendliest people ever. I had a huge shock when I saw a bush rattling and shaking. My friends were too. There were pointed ears poking out at the top, feet at the bottom and arms at one side. On the other side there was a long tail. Then it was bouncing up and down away from the bush really fast. GOSH O MIGHTY I WISH I COULD BOUNCE LIKE THAT!!!!

By Polly Carter

The day I saw a Cockatoo

April 29th 1770

We had just come ashore it was a very strange place. I was trudging up the sand when there was a harsh screech. I looked into the trees to see an exotic bird. It had yellow feathers on the top of its head which curved upward at back. Then another one landed, as it did so the yellow feathers on the back of its head stood up like a kind of crest. I pointed it out to the officer who had come ashore with us. "What an extraordinary bird," he said. "I've never seen anything like it". We went back on board and told the captain of it. "I think I will come ashore and see." Once the captain had seen it, we decided that we would give it a name it ended up being a Cockatoo..

By Luke Priestley

The day I saw a wombat...April 29th 1770

Today we have landed on the beach near Botany Bay. The locals are friendly enough, but William and I don't trust them. Last night I heard William murmur to me "Avery Avery why is the boat rocking so? What if them brown-skinners come creeping to take the food and captain's Golden Chain he always wears around his neck, I need my gun!"

Today when I was cooking I saw one of the oddest things in my life! A small brown bear like creature to the beach she had a large brown nose and large glassy brown eyes, following her where four other things that looked just like her. I was so entranced I came off the ship and pet the one last in line but then the mother gnashed her large teeth at me and, I went away quickly. There is one good news and one bad news, the good news is we have decided to name the creature a Wombat, the bad news is... I burned the bacon.

By Kiki Torpey

30th August 1768

I was Walking around town when someone came up to me and said, "Listen you, you're coming with me or else."

"Or else what" I said,

"Or else I will knock you out" he said. I refused to go so he knocked me out. The next day I found myself tied to the mast of a ship. Then Captain Cook came out of his cabin and said, "You're on the ship called THE ENDEAVOR and sailing out to sea as one of my sailors" Then I was just about to speak when Young Nick called out "STORM!!" Just then a big storm cloud came in right above us. It started to rain, thunder and lightning. We managed to survive the storm but we lost 2 chickens and a lifeboat.

By Hugh Loiterton

The day I saw a Platypus

April 29th 1770

I was walking near the water in this strange land when out of the water this strange animal with a long beak and a strange tail sat down. It was furry and had little eyes. It did not see me, so I thought that I should draw it in my book to show the crew. It was hot so I went in the shade of the trees to finish the drawing of the creature. When it swam away I got up to go back to the ship.

By Rohan Naismith

30th August 1768

We had sailed a couple of days when a storm was approaching from the South coast, the waves were over 20 meters high and our boat was swaying from side to side. I was wet and I could not move, I was too tired, a couple of salty tears ran down my cheek. I missed my family and life back in England. I was forced on the ship but I would not go, so they tied me up with ropes and kicked me on the boat so I had to go. It was my turn to pull the sails down. I tied a rope firmly around my waist and the other end to the candle post of the Endeavour. It was a long way up. I untangled the rope and let down the sails but there was a whoosh of wind and I fell into the water, but I had my rope on and managed to get back on board. Lightning struck and there was another howl of wind, it opened our chicken cage, for the wind was so strong and the chickens did not have enough weight to keep themselves secure on the ground. We lost some chickens. The wind was calming down and we got to quiet waters, but then the storm started again, I could not do anything I thought I would die, one of the crew kicked me on the thigh and told me to get a move on, my thigh hurt tremendously but I had to work.

By Petra Paivinen

Ship in a storm 30th August 1763

We're aboard the ship, the wind has started and, I knew wasn't going to like this. I've already been sick. Firstly, I don't know anyone here. Secondly, I'm already homesick. I don't even know how I got here. Somebody knocked me out, and the next thing you know I'm standing on a ship already dressed looking straight at Captain Cook, and guess what, we've only just left the dock and I've vomited twice already. Night is falling and I'm not looking forward to it. The sky looks evil and the wind and the clouds look like they're ready to start a storm. Us sailors have to stay up all night hoisting the sails and scrubbing SOME of the deck.

I was right! The storm was screaming and the sky was cracking. The ship was trying to kill us as well. I looked over at everyone else. My eyes stopped at a rowing boat and a box full of live chickens. They were falling off the ship!!!

By Ning Ning Lui

The day I saw a platypus

April 29 1770

I was getting of the ship and I saw the people and they where not happy. So I went to get some fresh water and I saw the strangest thing ever so I went to go and see it. It had a long nose a tail and swam so well. So I went to tell the others. I told them it had a long nose and a tail and to come and see. They where amazed. They thought it was wonderful.

By Louis Merritt

The Day Saw a Koala

April 29th 1770

I was lying on the ship when I heard a person say land! So we stopped in a place called Australia. The people seemed alarmed they calmed down and gave some food to us. Captain sent me to get some wood to cook the meal while he talked to the people. I went. It took an hour to find the wood but then I found some, then I saw it just lying in a tree staring at me, while it chewed a leaf. It had big fluffy ears and sharp claws but it was ever so cute. I kept staring at him. Then all of a sudden he climbed off the tree and crawled to me. I picked it up and brought it back to the other sailors. They began to look at it in surprise and the captain looked pleased. I went to the tribe and asked what was its name and they replied the KOALA!

By Saxby-Rose Macalister

April 29th 1770

Today my mates had an argument. They are always having arguments so anyway to get away I went for a walk. It was fun walking through the Australian bush in spring. But I have one thing against it, it was hot boiling hot and I was more burnt than meat over a fire. Twenty minutes later I had only seen a couple of trees and a lot of grass, not very interesting. Two minutes later I had seen a log as well, but when I looked inside a spider nearly bit my nose off. I think the locals call it the funnel web spider. Later on, I met the most interesting animal I have ever seen it had massive feet, a long neck, brown fur and to my surprise a pouch with a little baby poking its head out. I was so shocked that I ran all the way back to the boat. I was out so long that by the time I got back my friends had stopped arguing.

By Luke Frankham

The day I saw a platypus

Finally we got to land. We looked around us to get some fresh water but something was moving in the bush. A big brown creature like a water rat with yellow feet was heading for us. It looked like a rat but it had an orange beak like a duck. We ran away but there were lots of them. There was a black one too. We tried to get out of there but could not get out because they were surrounding us. We were stuck. There were so many there with their big beaks and body. We jumped over them and they headed into the water as a group swimming away. We were still, as a person, just standing there. But they walked in the water and swam up river. They drank water and spat it back in the river and lay on the bank. We were frightened at first but then we saw that they weren't going to attack us so we carried on getting water and food. When we went back to the ship no one believed us about this strange animal.

Sailing with P5-16 on the Endeavour

The Lost Diary of Captain Cook

29th April and days that follow

The Endeavour has finally reached Botany Bay. There's plenty of food here as well as wonders, y'know there are these giant rats, which keep on jumping around. The biologists have gone insane there, running all over the place; well I can't blame them with all this stuff they've never seen before.

We beached the boat after we holed it on a reef, we had to lose fifty tons of guns, ammunition, ballast and a few other things. Hells teeth I'm surprised there's anything left. But we should be all right.

By Ted Clifford

Jonny Williskins life aboard the Endeavor

26th April 1770

After capturing a village, I was on the way back to the boat when I found a monkey and named it Gibber. I took Gibber back to the boat and Captain Cook let him be lookout with me because he was so good at climbing up and down the mast compared to me and the rest of the crew. The captain even had a go at climbing, but he was useless compared to Gibber. We all treated Gibber very well. Later we named the village we captured something like Sydney after my friend. We thought Sydney had the best harbour in the world and the water was so clear we could see the bottom of the sea and everyone started singing, 'A Sailor went to Sea Sea, Sea.. That night I had a horrible dream about the strange people from Sydney coming and attacking the ship while we were all asleep, I woke up because I could hear the sound of fire crackling, I immediately rang the bell and everyone woke up instantly, they all came up on deck with pistols in their hands.

By Marcus Faure

A Dreadful Day

21st April 1770

This has been a dreadful day. Van diemens land wasn't as I thought it would be. The country was totally different from home and there were tall trees with ship shaped leaves. The trees had white bark!!

In the morning I was enjoying myself when I heard an ear-piercing scream. It was Sporing and I could see why he'd screamed. There was a black dog creature with gazing eyes and sharp teeth. It was going towards him. Cook went to help him. In the afternoon I went off to explore some more and it was then I got the fright of my life. There were tigers, strange! They were everywhere. They were all heading towards me. Raverhill came along to my rescue and died of fright there and then. I couldn't waste any time. I managed to escape and ran straight back to the ship.

Oh how I hate hard tack, My gums are getting swollen and my teeth are falling out. I don't feel well. What a terrible day!

By Miranda Douglass

Disease and Death

12th June 1770

George finally died yesterday after having several fits. At Cape Tribulation the ship got holed and stuck on the Great Barrier Reef. In the middle of the night there were terrifying jolts and bumps. Mario went over board and banged his head on a sharp rock, he was lost at sea. The night was horrible.

16th June and the following weeks

We came to a river; the Endeavour was unloaded of fifty tons of guns, ammunition, ballast, even fresh water and wood, so we could make safe our passage. The days went past very slowly. Pettigrew died, I was very sad because he was my best friend; he died of scurvy and a fever that weakened him and drained the life from him.

6th January 1771

We stopped at Princess Island for supplies, but the water was bad and many men got dysentery. Ravenhill committed suicide by jumping from the boat's mast. I am disturbed aboard the Endeavour with all of my friends disappearing. In the middle of the night there was a huge wave and the hammocks nearly fell off their hooks.

30th January to 26th February

It was a tragic few days eleven crew died, then seven in the next week and three in the next two weeks. On board we are afraid because of all the diseases and it is also infested with rats and mice, which makes things worse.

By Georgina Hill

What's that?

28th April 1770

This morning we reached the lovely sandy beach of Botany Bay. It's beautiful, it's wonderful, I can't believe it, and it's so nice. We were out walking today and suddenly I heard something it was, I don't know it was, maybe a huge rat, with a long tail, long ears, It was jumping up and down and had a bad temper. I ran, it chased me. I ran for my life. It was so big; maybe this wasn't such a good idea exploring on my own.

By Callie Pettigrew

Land is Spotted

28th April 1770

Yesterday was a cold and foggy day and shipmate Annika spotted land, 'Land a-hoy,' she called. I turned the wheel left and saw New Holland with my own beaming eyes. When we finally dropped anchor in Botany Bay it was 8pm, we lit a fire and cooked some chicken. We went to bed, everyone except me and shipmate Laura were asleep. I heard a rustle of a branch, I flinched, I heard another rustle, I flinched again and scrambled around for a lamp, then lit it. I gave a shout, it was a very strange animal, it had big round ears, a big oval nose and two small round eyes. Shipmate Laura fainted of fright. I woke everyone up and we ran to the ship. Those animals make me nervous.

By Emma Velterop

A Diary of Jack Sparrow

Thursday 21st January

Today everyone was feeling happy, the waves were really calm and the wind was as soft as a feather. Captain Cook was in a good mood and let the sailors play games on the deck. I played checkers against One Legged Bob. I climbed up to the top of the eagle's nest. I saw dolphins swimming next to the boat, a whale out in the distance and I could see what I thought was land on the horizon. For dinner we had a fish feast as the catch from the day before was enormous.

By James Parsell

The Endeavour Sets Off and Encounters with Animals

25th of May 1768

We're just about to leave Plymouth, we loaded up with eight crates of lemon and lime Juice, lots of biscuits and food. We also bought some hens, sheep and cats. I said goodbye to my wife and two boys, I boarded and met with the other crew. One of my best friends is here I'm really glad, but I'm sad to leave my family.

I know I will have a great time on board, we put our stuff down and saw our beds. We have also been given a list of our daily jobs. The ships called the Endeavour and it is beautiful.

28th of April 1770

We reached Botany Bay. It's beautiful and has a glorious smell.

I noticed a brown creature with dark glossy eyes, it hops and has a pouch with a smaller creature like the big one, in it. I asked Cook what those animals were and he said they are kangaroos.

Later in the day I was just about to explore when I saw something that stopped me. It was a man who was nearly naked he was only wearing a grass skirt and was carrying a spear with other people behind him, I got my gun and went nearer; Cook was trading with them so there was no need to worry.

By Emily Brock

Sailing and Land

28th April 1770

Today we finally came ashore on 'Van Diemens Land', or should I say 'Australia'. When we alighted the ship, with our proud captain behind us, we were welcomed by the locals. The captain gladly let them see the ship but me and me mates Sailor Jenny and Ship Mate Emma don't want to rely on them folk. Captain said, we were free to explore the land since it was soon to be ours. As always me and me mates went off to explore together and see what we could find.

After we had walked for a full ten and five minutes we came to a plain. Suddenly we saw a huge rabbit like, hopping rodent! The irregular hopping rodent had a pouch with a tiny head sticking out of it, the creature started coming towards us so we ran back to the ship.

By Annika Trapness

Journey Around the World

12th June and the following days

Crash, bang, and boom. The Endeavour had hit the Great Barrier Reef, and was damaged. The hold had split. The second it hit poor Peter Flower fell over board. Cook did all he could, but failed because the strong current dragged him out past the rocks. Suddenly a strong wind came and the Endeavour was damaged even more. We took the boat to shore and fixed it with pieces of driftwood. Two men wandered off with some island women and one of them was captured. The other man was pardoned once he'd agreed to pay a four days allowance of wine, to the captain.

18th June

We sailed out around the island of Knabooboo and one of the sailors spotted Australia. We didn't notice the strong current ahead of us and we got mixed up with some nasty raging ocean. Because of the rough sea all of the lemons and orange syrup was tipped over.

Heaps of sailors were coughing last night and there was no way I could have made them better. Quite a few died. Many had been weakened by scurvy. This morning John Smith died. He was one of the only sail releasers left.

This afternoon a sailor shouted land ahead. It was the mainland of Southern Australia. I told the last few sailors to load the lifeboats and, row to shore. I jumped out of my boat and I heard a squeaky sound. It was the sand. The sand was so fine and white, every sailor started jumping on the sand.

A smart sailor shouted, over grown rat, over grown rat. I went and I saw a large rodent, hopping on the squeaky, white sand. The next second we saw hundreds more, hopping our way. One rat scratched my face.

The sailors and I went climbing. Then I saw a hairy miniature bear climbing with a baby on its back. Everyone was screaming and the bears were asleep eating leaves on a Eucalyptus tree.

My men and I went around the woods and made a camp in the middle of nowhere. We all had to squash up in one little driftwood made house that my men had quickly built.

By Laura Andrews

Polly Parrot's diary

29th September 1769

Today we leave Batavia now the surgeon is sick with TB and he has forty patients also sick with TB. Things are looking terrible for us, BRACK! Poor thing Saunders has just died.

WE NEED ASSISTANCE!

6th October 1769

Yar, we hoisted the sails and dropped anchor in one day because young Nick found land, Australia. So we went to have a closer look. I saw a GIANT jumping rat, a bear with huge ears and the biggest duck that goes underwater, we called them kangaroo, koala and a platypus.

THANK YOU YOUNG NICK.

By Michael Lowe

Life at Sea

18th July 1770 and the following week

I haven't been having very good meals nowadays. Just fish, fish, and more fish. I've had no fruit or vegetables. This diet doesn't do me any good. I'm a bit worried because my teeth are falling out and my gums are black. I just hope it's not scurvy!

I'm also worried because the weather has been awful. There have been huge storms, enormous waves and on Tuesday our ship nearly capsized because we had so much water in it!! Unfortunately, I have also been seasick continuously for the last two weeks!

By Camille Ng

The Reef

18th June

I had just finished in the kitchen when Will asked me what the noise was. We went to go see what had happened. And I saw everybody running around, I caught one of the men and asked him what was going on. He yelled, Where have you been the Endeavour's been holed, and then he ran off madly. I went to survey the damage and try and sort things out.

I noticed, Will was nowhere to be seen. Then I heard screaming it sounded like Will, it was coming from the water. I rushed to the side of the deck to see Will being dragged under by a huge shark.

What a bad day!

By Morten Stenhaugh

Sighting and Land

8th October

It was very early when we first sighted the huge island that is named Australia. The crew were exhausted from the journey. Almost at once, our skipper James Cook called us out by name to do our jobs. We hoisted the sails high so we could catch the wind.

When we arrived we had quite a surprise. There were some strange hopping animals we had never seen before. There were people who were friendly but naked. Some of them had spears and looked fierce. Hopefully we will stay at peace with them.

By Oliver Varndell

Ship Life

12th September 1668

We reached Madeira and this is the second place we visited, we stayed there for one day. The next day we started the journey again.

28th April 1770

Today we arrived at Botany Bay. I was amazed to see a kangaroo; it was like a giant rat with a big tail and a pouch. I shot one to see what it tasted like, I'm not keen. We also had some trouble with Aborigines they were fierce, we tried to avoid problems so we gave them gifts. They weren't impressed. Later that day I spotted a big furry creature that we called a Wombat after my mate Wally the Wombat who is big and hairy.

By Benedict Lai

Cook's Journey

29th August 1771

One sunny early morning Peter Flower shouted out land, land. We saw a funny little figure standing on the golden sand, it had brown fur, a black nose and a pouch. We landed, it hopped away and from that day we called it the kangaroo. We saw things that no man had surely seen before. We named some of the animal's wallaby, wombat, kookaburra, platypus, and koalas. There were lots of animals. What a strange new land.

By Joshua Moore

The Diary of Cook's Journey

14th June

The next day so many fine men died. Corporal Truslove, Sporing, Parkinson and Ravenhill died, also Green and Molyneux. When we woke up we decided to go and get a Pint of Rum each. We all felt so bad that we almost wanted to kill ourselves. John Reading drank three pints of neat Rum and to our amazement he passed away. What a day! When we got back into our Cabins we noticed that Tayeto wasn't there. The boat shook so we all went outside to see what had happened. We were on the east coast in really bad weather. Cook said we had to go and pull the Sails down. We climbed up the netting. Jack Lenson fell from the dark brown net; he was dead on impact when he hit the deck. We pulled the Sails down and got inside as quickly as we could. Two hours later Sutherland died. Every one said it was because of TB. We threw the bodies overboard. What will tomorrow bring?

By Michael Biddlestone

A Survivor's Diary

28th April 1770

On the 28th April 1770 we arrived at a strange land, which is unknown to anyone. I got into one of the boats and we rowed ashore. Once we reached the shore we got off the boat and started to explore the place. This land is different compared to England, even the plants are. Our botanist Joseph Banks is jumping with delight.

12 June 1770

On the 12th June the sea is calm, but at night I hear the sound of wood creaking and one of the crew tells me that the ship has been holed, I got up and started repairing the ship. Sea water was gushing around my boots but we managed to plug the hole.

13th June 1770

After we had lightened the ship of fifty tons of guns, ammunition, old food and wood. We pumped madly in order to get the water out, we managed to make a more permanent plug out of sail sewn with wood and oakum, spread with sheep dung.

By Alistair Rough

The Diary of a Survivor

31st March 1770

Today we are heading for New Holland or should I say Van Dieman's Land, farewell New Zealand. Many bad and painful days have past, I never thought that ship work would be so hard, but that is the only way I can see the world. Many sailors have died and suffered throughout our voyage. Weir drowned while anchoring the ship a few months ago, my good friend Peter Greenslade committed suicide and Peter Flower fell overboard. Captain says that when we reach New Holland we will explore it, for he says the land will be ours.

Many men onboard have caught scurvy and some have died; however, our ship is very clean thanks to our great Captain.

By Jenny Wong

Sounds Fishy to Me

28th April 1770

We finally reached Botany Bay and we were all told that we were going to be sleeping on the beach but before that we drank some rum and ate our supper. As I was crawling into my tent I saw a giant... I don't know what. I went towards the rest of the crew and told them to creep up on it. What a relief. It was a friendly fat rodent Pheew! (the crow's nest guy) told the rest of the crew to get some sleep, so we did.

29th June 1770

Today we set sail for New Guinea. Everyone was tired because we stayed up so late. I felt like a huge rock had been dropped on top of me, I was so tired. We hit a storm and it took us over the reef. We were amazed!!! Unfortunately Trapness and Pettigrew drowned when we were in the storm. The waves were huge, I was terrified!!!

30th April 1770

Today I told the crew we were going to search for other people on the land. We didn't find any one, but we did see a camp and a big blue fish was roasting on the fire. We felt really hungry and there was no one around so we took it and ate it. It was delicious!!!

By Holly Moylan

The Kangaroo

28th April 1770

We were sailing along the coast and one of our men spotted land. We anchored the boat and took the rowboats onto the shining sand. We walked on the beach and explored. I saw a rat like animal with a long tail and it stood on its two feet. I went near the animal. The animal jumped away from me. A hunter came out and spoke to me in a strange tongue; I think that he was asking why I had come to his land. I quickly ran away in the direction the animal had gone.

By Joel Leung

Cook's Adventure

27th April

We are nearly at Botany Bay. We have lost tons of food because it has gone rotten and lots of the crew have been sick; many people have died. The ship is falling apart at this moment.

This morning as we scrubbed the deck, we heard whales sing to us.

28th April

Today we anchored in Botany Bay; it is like paradise, sunny and no rain! We ate the food, which I made for breakfast. We have lost lots of resources so Michael and I went out with our guns and bags for the food that was in the forest. We were searching when we heard a noise. We looked behind some bushes and there were aborigines telling stories around a campfire.

We went deeper into the forest and gathered fruits and drink, then we brought them back to the ship.

Later the crew scrubbed the deck while Michael and I cooked dinner, we had just finished when these big rats came out of the forest and they jumped up and down. They had big brown noses and light brown fur. I swear I could have died, I shouted monsters!!!! When the crew went out to see what the fuss was about, the monsters ran away.

29th April

We named the big rat, a kangaroo. The crew went and shot some animals and brought them to the ship for dinner.

By Tom Butterfield

Primary 6, Class 17 | Mr R. Allen

Back Row Jemma Webster, Camilla Penrice, Lily Taylor, Natasha Wilkins, Tatu Paivinen

Middle Row Chloe Eddleston, Joshua Hill, Georgina Lowe, James Tortoishell,
Kevin Elsaputra, Justin Au

Front Row John Bound, Alexandra Milliner, Harrison Martell, Catherine Chan,
Alice Blaksley, Boris Lam, Mr Roy Allen

In P3 Thomas left and I was very sad. So then I just played with Nick. I did not play football because I did not like football.

In P5 I joined lots of after school activities. I did rugby with my friend James as well as swimming and football. My teacher was Miss Summers and my favourite lesson was literacy.

When I first went into Kellett School I was kind of embarrassed because no one knew me. Then I met a friend. His name was Thomas.

Then in P4 Nick left but I got some new friends. At play time they just played football so I joined in. Mr. Nevin was my teacher he was a very good teacher.

In P6 I had Mr. Allen. When I got into P6 I got better at sports and things and I made a lot more friends.

Joshua Hill

On my first day in Reception I remember meeting Georgina, Chloe & Heather.

P1 & P2 was a calm & happy time with Mrs Nevin & Mrs Paterson.

I enjoyed playing a loud part in our P4 assembly. I was the HERALD and had to sing a solo with Natasha.

Jemma Webster

P5 was a very busy Year because of S.A.R.S.

I cant wait meet new friends, teachers to start new subjects wherever I go.

On my first day in Reception I met my teacher, Mrs. Glen, and my first friends were Nicholas and Alistair. At the end of my school year, I moved to Japan.

I came back to Kellett in P3 after the Christmas holidays. I met Nicholas again. but Alistair had left.

In P5 my teacher was Miss Summers, and my best friends were James, John, Justin and Boris.

In P6 my teacher was Mr. Allen, and one of my best friends, Harrison, left to go to New York in the USA. When I leave, I will be really sad because only one other person from Kellett is coming to Island School. I will miss my friends.

My teacher in P4 was Mr. Nevin and I got new friends, like James, John, Josh, Boris, Justin and lots more. Nicholas left after P4.

Tatu Paivinen

Source: First day in Kellett was in P2-7.

Ox bow: When Harrison left I felt that I had no more friends which wasn't true, I still had friends but he was my best friend so he's the one that I played with most. I last saw him on the 13th February 2004 at the car park and the first time I saw him was in P4.

V-shaped valley: The best camp I had was the "Beijing Camp". What I like there most is the eggs in the restaurant. They were totally delicious.

Waterfall: The thing that annoys me most is the thing that schools always give me called "homework".

Rapids: I also have to go through difficult times like falling down, bleeding and sickness. I do not like it but the worst thing from Kellett School was going on a 10km hike at Survival Camp.

Delta: Now it is time to leave Kellett.

Kevin Elsaputra

Alice Blaksley

I remember that when I started school in England, there was a lollipop tree.

I remember when my brother was Joseph in the Christmas play and he look really funny on stage.

I moved to Hong Kong and it was a big change.

P5 was my worst year because there was S.A.R.S. and Beijing didn't happen and I broke my leg.

In P6 it was fun because we went to Beijing and survival camp which I really enjoyed.

I am finally leaving primary school but I don't want to because you get more homework and school days are longer in South Island School.

When I started at Montessori, my first primary school, I made a friend called Sasa. My first memory of her was discovering that she lived in the Manhattan, like I did.

Lily Taylor

When I was half way through my first year at Montessori, we left to go to England where I went to York College

After a year there we moved to back to Hong Kong where I finished Montessori then came to Kellett.

Near the end of P2 I left to go to Japan where I went to an American school. After a year there I went to a British school.

A few weeks after I started at my new school I met Louisa, who became my best friend.

Then I moved back to Hong Kong and came back to Kellett where I met Catherine who became my second, best friend.

I will be moving to England in the Easter holidays, That means a new school, new friends and a new routine. How long will it take me to get used to it?

Source: When I had my first minute in Kellett School I remember I thought that everyone was staring at me as though I was dumb.

Ox-Bow: When I lost one of my best friends Nicholas Langridge and I was very sad. But I still see him.

Lake: When I went to Whistler and went skiing in the snow and had lots of food and had a really good time.

John Bound

Waterfall: When I fell out with some friends and got my first leg injury (twisted ankle).

Pollution: When I cracked my head open and had to miss 3 weeks of sport (My worst ever injury).

Delta: I'm very sad to leave Kellett School but happy to be looking forward to going to South Island School.

I remember feeling calm when I left my mum on my first day in reception in Kellett.

I remember when Teresa always found me when I was bored in P3.

I remember in P4 that I got a piggy back from Mr Nevin on camp in P4 it was embarrassing!

I remember my friend Iselt left in P5.

I remember the classroom was new for me and my teacher in P2.

I remember that Julia came with a blue and white checked hair band in P1.

I will miss Kellett when I go to West Island School!

Georgina Lowe

James Tortoishell

On my first day of school I remember meeting Lawrie Chapman and Angus Yeatts. I also remember playing with the dinosaurs.

In P4 I had probably my best teacher Mr Nevin. I had lots of fun and made a lot of new friends.

In P1 My teacher was Mrs Ennion and in the play I was a penguin. I remember there was a big row about who would play it.

In P3 Angus, one of my best ever friends, left. I was also split up from two of my other best friends.

For P6 camp we went to Beijing. I had a really good time we went to the Great Wall. We also stayed in one of the best hotels in Beijing. It was a five star hotel.

I started at Lauriston for girls in Melbourne Australia. My best friends there were Hannah and Rebecca.

Then I moved to Caulfield Grammar School which was co-ed.

I made a lot of friends at Caulfield Grammar.

Then I moved to Hong Kong in 2002.

I went to Bradbury School in Hong Kong.

I then moved to Kellett in 2003 where I made friends with Lily and Catherine.

After one year at Kellett I left for high school into the wide world.

Alex Milliner

Catherine Chan

I started school in R3. I cried when my mum left but my teacher, Mrs Glen comforted me.

I did my first play called "Teddy Bear". I did not have any lines to say.

I went to P3 camp. It was so exciting! I remember one of my teeth fell out. P3 camp was my favourite of all the camps I had.

I had the first birthday party with my classmates. It was the best!

I will really miss Kellett, the ESAs and all the teachers. I am looking forward to going to my new high school.

Natasha Wilkins

On my first day at kindergarten I was so scared because I only knew Breanne and there were lots of year 6's looking around. Then one year 6 came up to me and took me around to see the school.

I joined Kellett in P3. On my first day I only knew Chloe and she was still on holiday.

In P4 I was Nobody and I had to sing a song with Jemma but I kept on forgetting to come in so I had to sing the chorus instead.

In P5 I went to Australia because of SARS and I stayed so long that I went to school in Australia for 3 weeks. When I got back to Kellett people had thought I had left for ever.

When I grow up I would like to drive around Australia in a campervan with some friends.

I remember playing with Boris, he was my first friend I think.

Justin Au

In P3 Tatu came. He became one of my best friends.

I remember in P4 Nico and I played James Bond. Nico left that year.

I remember winning the tag-rugby tournament in P5. We were very proud.

I remember in the P6 camp when I went to Johns and Josh's tent, it stank because of Josh's feet.

P1: Wildlife
I really loved the covered area and cooking. I remember always wanting to be the mum and if I wasn't I got really cross.

R1: Source
Once I went on a visit to Kellett to meet all the others starting school and when we left I remember asking "Mummy, why was that girl called feather?" meaning Heather Byers.

P4: Flood
P4 was really great and I learned loads and I achieved my goals. I made new friends and thought it was great fun.

Chloe Eddleston

P5: Waterfall
I remember how difficult it was because of SARS and all the good and bad times I had.

P6: Delta
I don't know where I'm going next but I'll always remember my time at Kellett.

Boris Lam's journey began in 1996. On the first day at my old school Raimondi, I remember I kept asking when school will finish that day.

When we were in P5, SARS stopped us from going to Beijing, which was bad, and going to school, which was good. But we still had to do homework (May 2003).

Harrison, one of my best friends and my only friend from P2, left in the end of the Christmas term but we are still in touch.

I changed school at the start of P1 from Raimondi to Kellett. I started at Kellett at P2.

In July 2003 my family and I moved to Chung Hom Kok from an apartment in Bagoio Villas.

So off I go to West Island School carrying all the memories of Kellett School. I would like to be a teacher when I grow up.

Boris Lam

Primary 6, Class 18 | Miss S. Lockhart

Back Row Zac Boffey, Anjali Rajah, Maria Friis, Eilidh Grassick

Middle Row Lawrie Chapman, Sander Van De Ven, Samuel Lehto, Elinor Cooper, Mels Rademaker

Front Row Colin Huang, Tyler Brown, Heather Byres, Julia Mason, Michael Yen, Miss Sally Lockhart

Anjali Rajah's journey started in 1995 in the Children's Place, Singapore.

Year 2 - I remember when we performed our Christmas nativity. I was a king.

Year 4 - I remember my first day of school in Hong Kong at Bradbury.

Reception - I remember my first assembly in Tanglin.

Year 1 - I remember when I had to sing a solo in front of my class. I felt so nervous and embarrassed.

Year 5 - I remember my first day at Kellett; I was nervous as I didn't know anyone.

Year 6 - I remember when we went to p6 camp; everything was great!

I hope my future will get me good marks so that I can be a fashion designer.

RIVER JOURNEYS

P6 have drawn their own rivers to represent the journeys they have made through primary school. See what stages they have been through in their lives and the memories they take with them, by looking at the different features of their personal rivers.

Zac Boffey's journey started in 1996 at Tanglin Trust School in Singapore.

I had a rough time moving from Singapore to Hong Kong.

I can't wait 'til I finish Kellett and grow up to hopefully be a professional rugby or soccer player.

I remember one time when I was in P1 I accidentally stapled my thumb.

I was awfully sad when my friend Alex left in P5.

I remember when I walked into the classroom on my first day at Kellett; everyone was staring at me.

Eilidh Grassick's journey began in 1998 at QBS. The best thing about Reception was that we were all just one big class.

When she started at Kellett, Eilidh did not know anyone, and was very sad when her mummy left her.

The end of P3 was hard for her when her teacher left and most of her friends left.

P4 and P5 were also a calm time for Eilidh, but at the end of P5 she was upset when her friend Acacia went to live in India.

It was hard for her to leave QBS and all her friends.

But she soon settled in, and P3 was very calm.

Eilidh's favourite part of P6 was her trip to Beijing, P6 camp, and having Miss Lockhart as her teacher!

She went through a tough time when her best friend left to live in Australia.

When Eilidh leaves she will always remember her years at Kellett, and when she grows up she wants to save the tigers and be a zoo keeper and live in Africa.

Lawrie Chapman's journey began at Kellett in 1997 in Reception 2 with Miss Lloyd Jones.

I remember that when I was in Reception my Mummy was walking away and I tried to pull her back but I couldn't and she left me screaming and crying.

I remember that one day when I was in Reception I had cut my chin open and when I came into school everyone stared at me and asked me loads of questions.

I remember on my fifth birthday I had given all of my cup cakes out to my friends and all the teachers but I forgot to give one to my own teacher and she made an awful cackle.

On Beijing camp when we were walking on the Great Wall I was buying a medal and I had written down my name but my 'L' looked like a 'W' and the little man spelt my name Wawrie.

I can't wait 'til I get out there to the real world because that is where life begins; I hope that I can become a rock star in a band of my own called The Black Daffodils.

Source-

Sander van de Ven started his journey in 1997 at Seoul Foreign School.

Deposition-

I was very sad when I had to leave my friends at Seoul Foreign School.

Meanders-

My friend once switched some people's lunchboxes and I got the blame and he didn't know anything about it; I felt annoyed.

Confluence-

When I went into Kellett my buddy was Lawrie.

Bridging

Point-

Moving to p6 was so exciting!

River Flow-

When I was 4 years old I started pre-school. I was very nervous when I started primary school.

Waterfall-

Moving to Hong Kong was such fun because everything was new.

Delta-

I am very proud of myself and when I grow up I want to be a racing car driver.

Mels Rademaker's journey began in 1997 at the Vrije School in Holland. The best thing in Reception was that we had a big class and we stood up for each other.

Someone pushed me when we were playing tag and the bone in my right leg changed position; I couldn't move it for one to two weeks.

I found it hard to leave my friends behind when I came to Kellett, but I fitted in well.

I hope that in the future I'll be skilled and talented enough for a job and I'd like to become an artist or an author.

When I leave Kellett I will try and remember the nice teachers!

Elinor Cooper's river journey began at Orleans Infant School in St. Margaret's, Twickenham in 1996.

Reception-
On my first day I met a girl who is my best friend today.

P4-Olivia moved schools and it took me a while to make new friends.

P5-I made two new friends, Meave and Abbie.

P5-I moved to Hong Kong; I had to leave all my friends behind me.

One of my new friends left for Switzerland.

Year 7 here I come!!! I definitely want to do something to do with animals when I'm an adult!!!

P4-My friend broke her arm and was taken to hospital in the Headmaster's car.

P5-My new 'friend' started to steal all my friends and turned them away from me; they made fun of me and I was scared to make new friends in case she teased them as well.

Michael Yen's journey began in 1998 when he started at Ling Nam Primary School.

On the first day of school I had to go to the staff room because I was noisy.

I felt lonely when I first got to Kellett because I didn't have any friends and I didn't know much English.

At p4 camp my team got more points than the others and I felt proud.

We did a great show called Dr. Dog in p5 and I felt proud of myself.

In p6, I did some good passing and some good dribbling. One time I passed it to Michael Lowe and he scored.

I cooked sweet and sour fish at camp; it was really tasty!

I am excited about going to The Delia School of Canada.

When I grow up I want to be a pilot for Air Canada or Cathay Pacific.

Julia Mason started her journey in 1998 at Kellett School.

I started my journey when I walked into p1-6 and I didn't say goodbye to my mummy and then a girl took me to a table and we did some colouring.

One day we were in the garden with my friends up on the steps and I accidentally slipped and bumped into a boy called Lachlan, who pushed me over the side of the stairs. I hit my head and I can just remember falling as if I was doing a headstand; I had a bruise there for weeks!

When we went up into p4 all my friends, except one, went to the other class and then she left six months later.

I can't believe that I am leaving Kellett but look forward to what lies ahead. When I grow up I want to have a house and be based in New Zealand and own a speed boat and travel round the world in it, visiting different countries...

Sam Lehto's journey began in Sundsvall, Sweden in 1998 when he was in pre-school.

In 1999, he moved to Hong Kong and started at Kellett. He didn't know a word of English and he didn't have any friends.

In 2003, he began in P5-16, and he was really looking forward to P6.

He entered P6 older, wiser and more worried than ever! Now he had to set an example to the younger children.

He is leaving in 2004 and is going to S.I.S.

Maria Friis' journey started at a primary school in Denmark. The very first day I cried my eyes out.

I was really sad when I moved from Denmark to Hong Kong. I couldn't speak a lot of English but now I don't stop talking!

It was also very hard to leave all my really good friends behind in Denmark.

It was very difficult when I first came to Kellett because I could only say a few words.

When I was moving from P5 to P6 I felt quite big because I was top of the school.

I really don't want to leave Kellett; I wish there was a Kellett secondary school. In future I hope to be a vet.

Tyler Brown's school years began at Kellett in 1998 in P1-4.

When I first started school it was hard to make new friends.

P3 camp was a lot of fun and I remember walking in the woods next to a little river.

It was our class Christmas party and I got to see Scotty and Lulu for the first time.

I felt left out when I went into P4-14 because I didn't know that many people.

It was sad to leave Mr. Ali because he was a great teacher.

It was exciting to enter P6-18 and to be head of the school.

Having two camps in P6 was so much fun, but I missed camp in P5 because of SARS.

The journey ends when I leave Kellett to go to secondary school. I hope one day I will be a pilot and have my own children.

Heather Byres' journey began in 1997 in Reception at Kellett School, when she was four.

P1-6

I changed best friends in a day. Samantha was my best friend 'til P5.

R1

I cut my finger badly on a chair on my first day at Kellett.

P3-11

Samantha and I were put in different P4 classes.

P5-16

SARS changed my life; I had to go to a school in Scotland for a term and while I was away most of my friends left Hong Kong.

P6-18

I cooked breakfast for my team at camp (bacon, egg, tomatoes, sausage and baked beans). It was great!

When I grow up, I would like to become a Border Collie breeder in Edinburgh, Scotland....

Colin Huang's primary school journey began in 1997 at St. Paul's Co-Educational School in Hong Kong.

I walked to school with my helper. Once we got to the entrance, she left me alone; I felt scared and nervous inside my body.

When I got to Kellett in 1999 I didn't know what to do, so I just sat there on the bench on my own. After a while, a teacher told me where to go.

The day Ms. Lockhart told us that we could go to Beijing, everybody in the class went crazy because we were so happy.

I got to stay in the same year and the other friends went up to the next year group so I didn't get to see them very much.

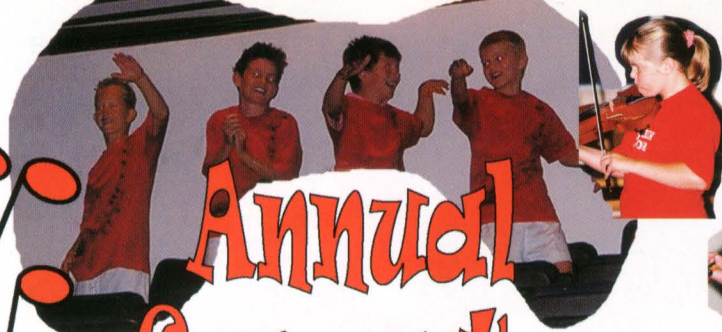

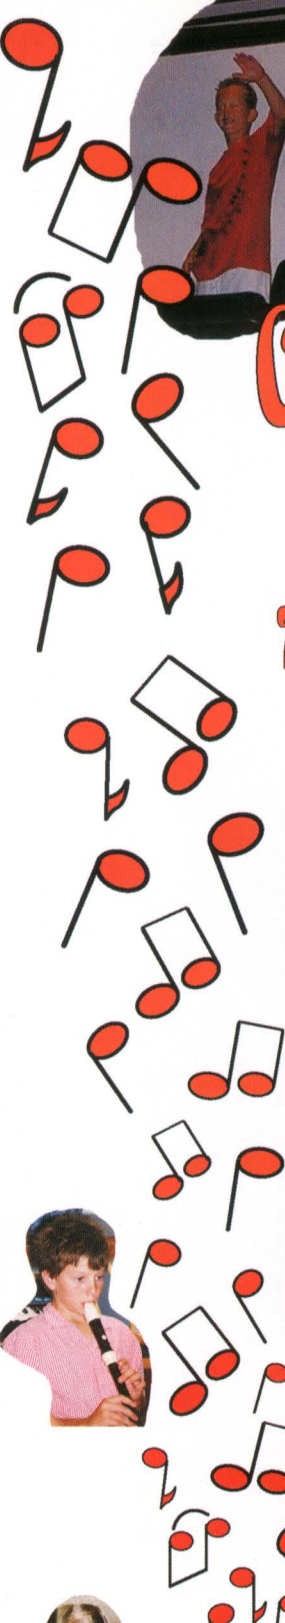

I am leaving Kellett and going to W.I.S.
