### EASTER PARADE AT WYOMING

On Thursday, March 29 Mrs. Taylor's 1st grade had their annual Easter Parade (on 5th Avenue). All of the couples were dressed like their mommies and daddies. They marched down the aisle followed by Mr. and Mrs. Bunny. They danced on the stage along with a ballerina. Everybody had their picture taken by an imaginary camera.

The couples were: Steven Rothschild and Nancy Ricci; Andy Spielvogel & Meg Ward; Crane Williams & Patti Baugher; Ricky Sacks & Denna Summers, Doug Corcoran & Kathleen Woodruff; Bruce Dickenson & Janet Lyons; Marshall Burack & Judy Brunger; Paul Bemko & Diane Ewbank; Rod Maybee & Sarah Clark; Allen Eddy & Susan Pascall; Bob Esler & Nancy Dobkin. Photographer - Jimmy Flax.

### INDIANS

In Miss Greeley's 3rd grade, we are making pictures of the different tribes of Indians. We are going to paste them together to make a movie about Indians which we will show in the Auditorium. The pictures are about these four tribes: Woodland Indians, Plains Indians, Pueblo Indians and Indians of the Northwest.

A new boy in our class, Anthony Arsi, made a totem pole out of brown paper. He cut out the thunderbird design and decorated the pole with Indians designs.

We have visited the Newark Museum to see the model of the Lenni Lenape Village.

(Easter Parade Cont'd)  
Peter Cottontail - Leigh Bandekow. Molly Cottontail - Beth Schwartz. Ballerina - Rena San Giacomina.

### WYOMING UPPER GRADES TO PRESENT A HISTORY OF MUSIC

On May 1st, the fourth, fifth and sixth grades will present a Music Festival, beginning at 7:45 PM. All parents are welcome. There will also be another showing for the lower grades.

Mr. McGlaughlin and Mr. Massa's class will begin with music from the Stone Age to Early Christian and Hebrew times. Mrs. Litwin's class and Miss Ruffing's class will do 18th Century music. Mrs. Haller will do Spiritual Music and Mrs. Krasny will also do the Western Movement. Mr. McGarry will have the orchestra there for the occasion.

If you tickle the earth with a hoe, she laughs with a harvest.

D. Jerrold

### EDITORIAL

by Louise Weston

My staff and I would like to wish you all a very happy Spring Vacation. We hope that you will clean up your due work so that you can have something to look forward to and not think about work that will be due after the vacation.

I would like to say that the material is getting better every month. We would like some more letters to the Editor about the newspaper. We would appreciate this very much. Thank you.

---

### BOYS SPORTS

On March 14, there was a Sports Night for the Millburn elementary schools.

A team was chosen from each school and all teams were mixed up. Four main teams were organized. The winning team received medals with a picture of a basketball player with M-56 engraved on the back.

David Stone, George Wells and John Redpath were on the winning team. They also had a foul shooting contest with Dick Taaffe representing the boys from our school.

### Story Contest

2nd place winner - upper  
          Cathy Wells  
3rd place winner - upper  
          Susan Melnikoff  
2nd place winner - lower  
          Debby Slavitt  
3rd place winner - lower  
          Larry Winnerman  
1st place winner - upper

### A TRIP TO BUNNYVILLE

Have you ever been to Bunnyville at Easter time? Someone must have!

I have. Let me tell you the story about my trip.

One day I was out for a walk and I saw a little rabbit hopping around on the grass. When he saw me, he ran into a large hole. The hole was big enough so I slipped in. It was a long way to the town of Bunnyville.

When I got there, some little rabbit sprinkled magic bunny dust on me and I became very small.

Then I began walking around. They were real little houses that the rabbits were living in. Once I looked in. There were beds, chairs, tables, curtains, a stove, a sink, and many other things.

All the bunnies were dressed in fancy clothes.

The most amazing thing was a little factory. Inside, all the bunnies were busy at work. Three were making designs, three were painting and about twenty were delivering. Do you know what they were? They were Easter eggs.

That was my trip to Bunnyville!

Cheryl O'Brien

### A NICE SPRING DAY

Hear the church bells  
          ringing  
Hear the robins singing  
Oh, what a beautiful day  
All the world is happy  
          and gay.

Oh, how I love the beautiful flowers  
Oh, how I like the rain  
          when it showers  
In the sunshine every day  
How I love to go out and  
          play.

Hunt Beyer

---

### GIRLS SPORTS

On April 9th, the fifth and sixth graders will put on a tumbling show for the upper grades. The program will be based on a little girl who thinks her toys were making noise in the middle of the night. There are individual and group stunts. Some of the stunts are cartwheels, head stands, somersaults, the human arch, skin the snake, the merry-go-round and many other stunts. The show, I am sure, will be a big success.

All the girls in the show would like to thank both Mrs. Joan Litwin and Miss Nancy Ackerman for helping us make this program a success.

## WHAT IS A GIRL?

Little girls are the nicest things that happen to people. They are born with a little bit of angel-shine about them and though it wears thin sometimes, there is always enough left to lasso your heart---even when they are sitting in the mud, or crying temperamental tears, or parading up the street in mother's best clothes.

A little girl can be sweeter (and badder) oftener than anyone else in the world. She can jitter around, and stomp, and make funny noises that frazzle your nerves, yet just when you open your mouth, she stands there demure with that special look in her eyes. A girl is Innocence playing in the mud, Beauty standing on its head, and Motherhood dragging a doll by the foot.

Girls are available in five colors---black, white, red, yellow, or brown, yet Mother Nature always manages to select your favorite color when you place your order. They disprove the law of supply and demand---there are millions of little girls, but each is as precious as rubies.

God borrows from many creatures to make a little girl. He uses the song of a bird, the squeal of a pig, the stubbornness of a mule, the antics of a monkey, the spryness of a grasshopper, the curiosity of a cat, the speed of a gazelle, the slyness of a fox, the softness of a kitten, and to top it all off He adds the mysterious mind of a woman.

A little girls likes new shoes, party dresses, small animals, first grade, noise makers, the girl next door, dolls, make-believe, dancing lessons, ice cream, kitchens, coloring books, make-up, cans of water, going visiting, tea parties, and one boy. She doesn't care so much for visitors, boys in general, large dogs, hand-me-downs, straight chairs, vegetables, snow suits, or staying in the front yard. She is loudest when you are thinking, the prettiest when she has provoked you, the busiest at bedtime, the quietest when you want to show her off, and the most flirtatious when she absolutely must not get the best of you again.

Who else can cause you more grief, joy, irritation, satisfaction, embarrassment, and genuine delight than this combination of Eve, Salome, and Florence Nightingale? She can muss up your home, your hair, and your dignity---spend your money, your time, and your temper---then just when your patience is ready to crack, her sunshine peeks through and you've lost again.

Yes, she is a nerve-racking nuisance, just a noisy bundle of mischief. But when your dreams tumble down and the world is a mess---when it seems you are pretty much of a fool after all---she can make you a king when she climbs on your knee and whispers, "I love you best of all!"

A SALUTE TO THREE OF  
THREE OF OUR PRIMARY  
TEACHERS

Mrs. Luella Merritt---

Mrs. Merritt, our kindergarten teacher, has been teaching at our school for eighteen years. Previous to teaching in our school, she taught in Kearny, N. J. She is a graduate of Newark State Teachers College and has done work at N. Y. U. Mrs. Merritt has one son and lives in Millburn. She likes to do many, many things.

Mrs. Lillian Taylor---

Mrs. Taylor has been teaching at our school for the past fifteen years. Previously she taught in Roselle, N.J. A graduate of Westchester (Pa.) State Teachers Colle, she now resides in Linden. Mrs. Taylor has many outside activities.

Miss Julet Paddock

Miss Paddock is in her second year at our school. This is the first school she has taught in. Miss Paddock was graduated from Bradford Jr. College and Wheelock College. She lives in Maplewood. Both Miss Paddock and Mrs. Taylor teach first grade.

SECOND GRADE MAIL

Did you know that Millburn has two Post Offices? One, of course, is in town and the other is right here in our second grade. We are studying the way the Post Office works and have learned many interesting things about the mails.

Of all the things we found out about the postal system, we thought the pony express riders were the most exciting mailmen.

We also wrote letters to friends and relatives near and far away. They sent cards and letters back to us at our Post Office, and we had much fun finding the states and countries from which they came.

Miss White's  
Second Grade

FOURTH GRADE ACTIVITIES

For Easter we made a mural of Easter bunnies delivering eggs.

In science we are studying the Solar System. So far we have learned about revolution, rotation, seasons and time zones. We are also learning about stars and planets. Someone posts the sunrise and sunset on our chart.

In arithmetic we are learning about fractions, estimating, and 2-step problems.

In reading we are learning prefixes, suffixes, and dividing into syllables, outlines and main ideas of a story.

(Fourth Gr. Activities  
Cont'd)

In spelling, we have charades of our week's spelling words. We also have spelling bees.

Nancy Lenahan  
Lynn Globus  
Mrs. Litwin's class

CIRCUS ANIMALS

The boys and girls in Mrs. Taylor's first grade are beginning to study about the animals that are found in the circus.

The following poems and stories were written by them about the giraffe and the elephant.

There are two kinds of elephants, the African and the Indian elephant. The Indian elephant can be trained easier than the African one.

Diane Ewbank

An African elephant has two fingers at the end of his trunk. The elephant from India has only one. This finger helps them to pick up very small things.

Crane Williams

In the elephant's trunk, there are 40,000 muscles. He can curl it up for safety.

Judy Brunger

The giraffe has a long neck. His legs are long too. He is the tallest animal. A full grown giraffe can grow to be twenty feet tall.

Marshall Burack

An elephant's trunk is long  
And it is very, very strong.

Stephen Rothschild
