BOULDER ... DAM

What Is It?

How many people know what is behind the big battle waged in Congress to spend more than \$200,000,000 in a huge project on the Colorado river?

If millions were spent by the so-called "power trust" to oppose Boulder Dam, how many millions were spent by the politicians favoring Boulder Dam?

* * *

Two of the greatest newspapers in the United States, the New York Times, a Democratic newspaper, and the Chicago Tribune, a Republican newspaper, have openly assailed the Boulder Dam project.

Governor Hunt of Arizona, Senator Ashhurst of Arizona and Senator Smoot of Utah and many others opposed Boulder Dam.

* * *

The Bulletin believes the people of San Francisco have a right to know the truth about Boulder Dam.

Gilman Parker, a regular member of The Bulletin staff, and not an employee of the "power trust," was sent to Southern California, Arizona and Mexico to find the facts. He had no other instructions.

What Gilman Parker found is here presented in a series of interesting and highly-enlightening stories about Boulder Dam.
