April 14th, 1981

Mr. Marion Newberry  
Garrett Junior High School  
Boulder City, Nev. 89005

Dear Mr. Newberry:

Thank you so much for the effort you put into the Boulder City term paper unit which you conducted in your sixth grade English classes. I have read the papers you sent home with Mr. Keene and found them very interesting.

I believe it would be nice to keep these papers for the Boulder City Museum and Historical Association's proposed Library. What are the chances of us keeping each of the papers? If the student wants his/her paper, I will make a copy of it. While there is far greater research done, there is none that reflects the views of our children on their home town as these nuggets of 1981 youth research.

These papers will have a special place in the Library we hope to have by 1985. Fifty years from now, when Boulder City celebrates its one-hundredth birthday, perhaps their grandchildren will see the work these students did in 1981.

Sincerely

Roberta E. Keene  
Chairman
