

meaningful, lifelong friendships that I cherish.

***Where my life has taken me...**

Family – we have one son and one daughter, both in Nashville. Daughter has our two grandchildren. I lived in Oak Ridge, TN from 1956 until May 2004 (48 years). Made move smoothly back home to Nashville!! Much contact with Ward-Belmont friends from West Virginia, Oklahoma, Nebraska, Florida. Still correspond and see occasionally.

***What I remember best about my Ward-Belmont days...**In 2 short years, Ward Belmont made indelible memories; I gained a sense of my abilities serving on all the publications, as feature editor, art editor (Chimes) and one of 3 responsible for the year book. One important factor- I easily without question fell into “the rules” “back of the bus, white restrooms etc.” And so can see how easily people can go along with injustice. Senior year I planned the themes and songs for Senior- Sr. midday. *Mona Lisa Smile* had me prodding my grand daughters over blazers

and hats. I was proposed to by an Air Force navigator in the yard goods department of Cain -Sloan- feasted on Southern Cooking and continue to adore it- the people, the history, the music, it was a magical time- married in Nashville two days after graduation.

***Where my life has taken me...**

I’ve been a mother and a grandmother, which explains my lack of funds. I was unaware of my potential- but volunteered in art museums, charities and traveled in England and France. I’ve been proud (and cried) at each son’s and grandchild’s graduation. I have a grandchild in medicine at Columbia Union, a granddaughter with a master’s degree in education and another granddaughter in Law School- a family to be proud of. The girls graduated from Trinity and the grandson from Rice. Perhaps a facet of my generation is that we find our pride in others.
