

My aunt, uncle and cousins were residents of Nashville, so they made me part of their family and I spent one weekend a month (all the school would allow) with them. During college, I lived with them.

***Where my life has taken me...**One humorous occasion at school occurred one day at baseball. Emmie Leake, my cousin, was quite plump and quite jolly always. Miss Morrison blew her whistle as only she could do and announced, "Get out there girls, and Emmie, you cover the field!" We all just cracked up and laughed for years and years later, whenever we recalled it. I met my future husband, Mack Glasgow, during high school and we married in 1939, out in Tacoma, Washington, where I had grown up. Betty Rye Caldwell, my good friend, and I took the business course in college, long before computers of course! Unfortunately! Mack practiced law for 60 years, and my career was raising four children (two boys and two girls), dogs and cats, and quite a lot of church and community volunteer work, which I thrived on. We have been greatly blessed. Mack is a fine Southern gentleman, and we have 8 grandchildren and we just

celebrated our 65th happy wedding anniversary.

***What I remember best about my Ward-Belmont days...**You could always tell who was a Belmont lady in town by her white gloves and chaperone. I thoroughly enjoyed Ward-Belmont, especially meeting Annie Allison, the headmistress. Although she was a tiny lady she ran a tight ship. After Belmont I attended Vanderbilt for two years, but left school to work for the rationing board (sugar and coffee) to support our side in WWII. (At Vanderbilt I was studying law).

***Where my life has taken me...**I have traveled alongside my husband, a command fighter pilot—Colonel Haynie S. Bastian—and together have raised ten children. I love books and friends most of all—family. Also, dear to my heart is my companion Belle, a 90 pound Airedale. Belle has her own bed (in her room) by the fireplace. However, she frequently prefers the cool

bathroom floor during the summer months.

***What I remember best about my Ward-Belmont days...**Seventy-six years ago this W-B belle arrived in Nashville with a heavy heart after seeing the ugliest and dirtiest train station ever—almost went back home. I lived in Hail Hall, first floor; Mrs. Tate house mother. My roommate was Ruth Emma Blanche Fowler of Winston Salem. Our suitemates were Frances Jane Puckett of Waco and DeDe DeVall of Houston. DeDe went home after five weeks; then Terry Ruth Hoard of El Paso moved in with me and Ruth Fowler moved in with Jane Puckett. We made a fun group. Many horrors--Orson Wells' radio show caused mass hysteria--
