

stage, but had to earn her living so she taught speech and acting. I remember she said you must project your voice. Enunciate and tabulate. Now that I'm "hard of hearing" I know how necessary that is. To demonstrate breathing, she would lay on the floor so we could see her diaphragm move up and down. We thought that was the funniest thing we'd ever seen. She put on a Shakespearian play every year. I was in one and forgot my lines. My friend, Betty Shepherd Lamar covered for me by making up some lines. It was such an embarrassing time. Miss Winnia was under stress to produce those plays. Since I've tried such things with students, I appreciate the effort it took.

***Where my life has taken me...**I have lived on 3 continents: Brazil, Switzerland and Mexico. Brazil was the first place and the hardest to do. My husband was asked to go and thank goodness I agreed. We lived there 8 years and we had a trip back home every 2 years. The kindly, cheerful people; seeing their hardships, the wonderful street markets with vendors calling out their wares, the beauty of the country could never be known by a quick tour. I recommend such an adventure.

Where my life has taken

me...My life after Ward-Belmont was at Denison University where I met my husband, Bill. We had 3 boys and now I have 6 grandchildren. Bill was killed in an auto accident 10 years ago. I continue to travel abroad most every year. I volunteer at my church where I have held many positions. I have 2 wonderful groups of women with whom I met with regularly for over 35 years. At the present, I am very involved in the building and continuing care facility in Granville, Ohio, where I will move next spring into my own cottage and enjoy new fun and rewarding experiences. It's my gift to my boys, so that they don't have to worry about mom!

***What I remember best about my days at Ward-Belmont...**

High School at Ward-Belmont was a happy time for me. I came as a day student with friends and met many new ones, some of whom I

am still close to and enjoy. We had fun and also received an excellent education as well as having some very rewarding experiences. I enjoyed Miss Mims and her French class and French Club, Latin with Mrs. Ottarson and one of my favorites was my chemistry teacher whose name I can't remember! We all remember the May Pole, Washington's Birthday, graduation, and of course Miss Annie. There are a lot more..I treasure my years there.

***Where my life has taken me...**from Ward-Belmont I went to Pine Manor Junior College in Massachusetts and then came back to Vanderbilt. I met my husband, Dave, and we were married in 1952. After the service (Army) he entered the banking business where he remained until he retired in 1990. I worked part-time in a beautiful gift shop, The Linen Store, in Green Hills for 18 years. We have 2 children and 2 grand children of whom we are so proud and enjoy being with. We still live in our first house too! This may sound pretty dull but it has not been! We have had a wonderful life and will celebrate our 52nd anniversary this year. Ward-Belmont was a big influence on my past.

***What I remember best about my Ward-Belmont days...**Miss Hodges, English history, was my favorite teacher. English at WB served me well at Vandy especially in theme and book report writing.

I have three younger sisters. Donnie had her senior year at Harpeth Hall and was the first Lady of the Hall. The other two were younger and had all 4 years at Harpeth Hall.

***Where my life has taken me...**I went to Europe for 3 months following 1949 graduation from WB w/ chaperones Miss Catherine Morrison and Patty Chadwell. I volunteered at Christ Church Cathedral and St. Lukes Community House, This N' That thrift shop which supports St. L. Harris Hillman Special Ed. School, and Fannie Battle Social Workers. I first volunteered at St. Lukes as a Vandy freshman in 1949. I have served in every volunteer capacity on its board. I have delivered
