

9.1.1

During second period Mrs. Galvan our history teacher received a call on her cell. She seemed so panicked and angry. After a few minutes she announced the happening. "Class we have been attacked, by I don't know who... but they've destroyed the twin towers," she said. She explained where else they had attacked. It was unbelievable.

Later on we saw a video on how the towers were destroyed, another on the plane that landed in the middle of nowhere, and a sketch on the pentagon. The three looked awful. All we could do is pray to Jesus.
