On Sept. 11, 2001 a strike of terror happened. The Twin-Towers were hit by an airplane. That day I was in school in my advisory class. I was shocked hearing about that because thousands of people died. We went to the library to see the monitor since we didn't had a monitor in our class. We had to make some notes to make an essay for Social Studies. I really don't ~~re~~ think that was a bad thing to do to United States. I really hope this thing gets solve and find Binlading and put him in Jail for a couple of years.
