

On Sept 11 I was in class, Science I think.

We were working when all of the sudden a teacher walked in the room and said turn on the tv, there bombing the twin towers. So the teacher turned on the tv in the room.

At first I did not know what the twin towers were but then they told me there the ones in New York. I remember seeing them in movies but I did not know if those were it. That was the day of september 11 or as I should say 9/11.
