

Sep, 11 Attacks

I was in my fourth period when my history teacher, Mrs Galvan told us about the attack of The World Trade Center and Pentagon. Mrs Galvan was crying at that time she was saying that, nobody should mess with United States. At first I didn't understand what she was trying to say about the famous World Trade Center and Pentagon, but I knew it was something very important because many people lost their lives and it couldn't be and because that three planes hit three important buildings. Now I understand my teacher was very upset and was crying when she told us about the attack. She told us that for the history class Mrs Galvan started, Mrs Galvan said we should all be sad because Sep 11 was pretty scary. Now I understand why Mrs Galvan was crying about the attacks.
