

Essay ▽

Do you remember when the attacks on Sept. 11 had happened? Who were you with? Where?

Well, I do remember when that happened.

In fact, I was in school during lunch at 12-12:30, when my cousin Amanda - Alaniz came to me saying, "Oh my God Idalia, did you know what happened in New York?" I was like no, what happened?

She's like that the twin towers had been exploded and that lots of people had really bad tragedies. We were worried because we have some family members out there in New York. Amanda Alaniz and I were really nervous, we wanted to go home already so we could tell our parents on what had happened out there in New York. Well as soon as we got off the bus we briefly got inside our house and told our parents desperately to call our Aunts and Uncles to see if they were all right, because a really bad tragedy had happened out there in New York.

Well our parents got worried also, and called them to see if they were OK. Guess what?

They were! 😊. Well, that's what happened on Sept. 11. ▽ 😊
