

Valerie

Sept. 11 Terrorist Attack

I was at school
at my 1st period class
I got a little bit late
so I didn't know what
was going on because
all of the students
in my class were
watching the tv. so I took
a seat and I asked one
of my friends what was
going on and then he told
me that the two airplanes
had crashed into the
twin towers making
them to fall down I couldn't
believe what he was
saying until I paid
attention to the tv and I
got in shock for a minute
and I was feeling real
bad for the people that
had died. I didn't know
what to do or say
but even though
it was hard for
everyone we had
no choice but to take
the bad news. I remember
that my grandma started
crying but I was making her
calm down.
