17th - 8th

Sept 11, 2001 The day which will be in history for ever. Memories will remind us how this day brought tragedy to our nation. Sad to think it took a disaster this grate to unite our country, and this long to realize we're not indestructible.

I had no clue what was going on except seeing sadness all around. Everything was quiet "whats going on" I asked. "The Twin Towers have fallen" a friend answered. Including those around me I felt pain. We united to pray, "I'm scared" my friend said. "All we can do is pray" I said.

"Who is doing this" I ask.
