BOATHOUSE AND HALL DISCUSSED AT MEETING

A public meeting was held January 28th in the Seycove School Gym to discuss the proposed building of a new Deep Cove Boathouse and a replacement for the Deep Cove Hall.

Mayor Baker, council members, officials from district and a good crowd of interested residents and local business people attended.

Various plans were put forward, including one scheme where both the Boathouse and Deep Cove Hall could be combined into one.

Estimated costs for the Boathouse varied from \$150,000 to \$335,00 (\$150,000 for the Boathouse, \$35,000 to add a rowing shell storage area and \$150,000 to develop the beach area, groin and dock).

Costs for the Deep Cove Hall ranged from \$150,000 for an addition to the Boathouse facility to \$340,000 for an expanded Gallant Avenue scheme to include space for cultural user groups.

Available funds for the Deep Cove Replacement Hall total \$160,000 at present (\$100,000 allocated in the District of North Vancouver 1988 Draft Capital Budget plus \$60,000 donated by the Seymour Lions Club for the building of a replacement Deep Cove Community Hall.

Local businessperson Janet Pavlik came out in favour of the Gallant Avenue plan for the replacement hall. She recommended, "... we don't go for anything but the best... a second best situation would be foolish. \$200,000 is the bottom line that is needed. Please let's try to pull this together and make it happen."

Numerous local residents raised a number of concerns:

—The proposed Deep Cove Hall would aggravate an already acute parking problem in the village.

—That large sums of money are being spent on the Boathouse and Hall and very little is being done to provide adequate recreational facilities for children and teenagers. It was pointed out to council that Deep Cove has a chronic teenage problem.

The Deep Cove Hall facility was being built on a current needs basis and not much thought had gone into future needs.

—Deep Cove needs a community Hall and meeting rooms which can cater for a wider variety of users and not just a select few.
