

Kesterville O., Dec. 1, 1895.

Mr. J. H. Harris,

Ada O.

My Dear Joe:— I would  
feel that it were almost  
a sin if I should close  
this day without giving  
a part of it to you.  
This has been a very busy  
day, I have attended five  
services and helped to  
entertain a lady student  
whom I visited near Colion.  
So altogether I have not  
had much time for study.

Tonight I listened to an interesting lecture on "Africa" by Dr. D. H. Flickinger, who has been to Africa eleven times in forty years.

We have had two days of vacation and I feel like I have been out of school almost a month.

Thanksgiving day the last football game of the season was played at Dayton and a large crowd of the students attended. They can get up more enthusiasm over football than missions it seems.

Last Wed night we Preps  
 had a fine social in  
 the society halls. I really  
 believe it excelled the senior  
 banquets, at least I enjoyed  
 it more. But I am  
 sorry to say that it took  
 the janitor, a part of the  
 faculty, the marshal  
 and a large guard besides  
 to subdue the other classes.  
 I do not know what  
 was the trouble unless  
 they envied we Preps.  
 As it was some of our

number suffered from  
showers of cold water,  
eggs and various kinds  
of acids, however I was  
as fortunate as in the  
week. You had best not  
tell the students who talk  
of coming to O. U. but  
they need not be frightened.

I do not want you to  
think I am getting up  
a music school, similar  
to Smith's, when I tell  
you I have one voice  
pupil for next term,  
for I hardly think I will  
attempt that as yet.  
(I did not ask for the pupil)

3.

I am glad to know you  
think some of going  
home, and the plan of  
your visit suits me,  
yes the whole family  
real well. Father was  
at home this week and  
will perhaps come  
again during holidays.  
I presume we are not  
the only ones who are  
counting the days.  
Our school does not  
close until the 24, but  
that is nothing the last

week except examinations  
and if I should escape  
those I will be out  
about the same time  
you will. It can not  
interfere with my studies  
at the time of which  
you speak however.

May angels guard us  
while we sleep.

Lovingly  
Bertha Lambert.
