

Westerville O, Sept. 15. '95.
Mr. J. H. Harris.
Ada O.

My Dear Joe: - While
the rest are all at church
and my thoughts involun-
tarily fly to the western
part of the state, I will
try to be there myself
as nearly as possible.
I too have been trying
to be on the sick list,
and think I succeeded
pretty well yesterday as
I escaped Saturday's work.
But I feel much better
today and, think I will
have to go to work tomorrow.

I am enjoying school
immensely. I think my
studies are just fine.
We are reading "The Hist. of Rome"
instead of Caesar, and in
Greek Prof. does a pretty
good part of the reciting
so far. I have English
Hist. instead of Ancient.
I was indeed surprised
at myself in regard
to the choice. But I feel
that I have made the
right choice. I have do not
think that I expect to
give up music entirely
for I hope I can always
study that, but so many
look at music as
simply an accomplishment
for pastime, that I felt

it would be hardly right
 to devote all my time
 to that. I promise to take
 the best ^{possible} care of my eyes.
 I hope you will not
 worry about it, for I will
 not continue my studies
 if the work is too much
 for them.

I dreamed of being on
 Lake Erie last night.

Our folks seem to think
 the excursion all right,
 only Mother said she
 was quite uneasy all
 day Aug. 24. I have told
 the story of the accident
 so much, that I have

had serious thoughts of
writing a book concerning
it? Miss Chandler said
if I did not write to
her she would read my
letters ^{written} to you, so according
to that I presume she
reads them for I have
written her one postal-card
since I returned. But
I shall write her a
long letter soon.

4 P.M. I did not finish
my letter this forenoon
and just after dinner
Ed Hopkins (the one who
married Becca Lambart)
& family with some of
their Columbus ^{friends} came
in for an hr. or two.
The street cars make

Keasterville people quite
prominent, when it
comes to entertaining their
friends. The st. car company
has bought the fair grounds
and talk of running
the line out Park St. so
you can get off at our door.

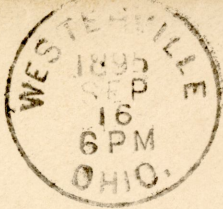

I see by the Herald that
the Franks & Philos are
getting quite friendly.
I presume D. & I will
receive ~~at~~ call from
one of those "great
societies on earth."

If you were here, this
afternoon we would have
the conversation to ourselves

for Marri^{now}~~ng~~ & W. O. are
nearer one here and I
could soon get rid of
the rest, or you could
if I could not.

I wish I might help
you get your lesson
for J. M. C. A. again. That
was surely one of the
pleasante~~st~~ lessons I ever
studied. If at any time
I become discouraged or think
life is hard, I just take
that C. A. out of the envelope
and that gives me inspiration
enough for almost anything.
School surely seems more
pleasant than two yrs. ago,
because of the inspiration
of your life to me.
May God keep you safe & pure.
Your Sweetheart
Bertha Lambert.
