Miss Lambert,
Westerville, O.

Dear Bertha:- Once more we resort to the pen. After spending two days upon the mountain top of inspiration from whose heights I could scarcely drive myself to descend it seems rather sad to be thus separated.

I confess that I have been so lonesome I scarcely know what to do with myself. I seemed to have separated and left the better part of myself as I turned and descended the steps in the Court House. I went to the depot at once and had a good rest before train time.

I ate the lunch along the way
and by the way you might tell
Miss Caroline that I enjoyed it very
much and thought of her with
all my might while eating it.

Arriving at Dunkirk I
immediately found my friend
Mr. Woods and had a most
enjoyable visit until train
time arriving here at 4 o'clock.

Everybody seemed to know
where I had been and asked how
Lambert D. S. was getting along
and if he had any sisters?
I told them he had three sisters
the nicest in the land.

I guess it pays to advertise
especially when it costs nothing.

After prayer-meeting last
evening I studied until 11:30
and then slept like a log until
5 o'clock, taught our Personal work
class at S. S. at 9:15 and preaching,

have a Summer School
comm. at 2:30 Y.M.C.A. at 3:30
and they think I ought to go to
C.E. and Church tonight. I shall
likely go to church but think
any number above six sessions
on Sat. rather superfluous.

Of course you had a weary
day of it Sat., and perhaps more
so because of my claims upon
your time. I suppose you got home
safe and today you are trying
to cool yourself and - yes I have
a shade of your thoughts.

I don't know when anything
ever so just lifted me up out of
myself as did our visit. It
makes me feel like starting

out in new lines of thought
and of yielding my life more
fully to be moulded and fashioned
as the Master may choose. I
sincerely thank you for such
royal entertainment, and trust
that you may be bothered again
before five months shall roll away.
I trust that under God's
guidance we may both be preserv-
ed and used by divine power.

Your life is such a sweet
inspiration to me that I feel
that it will be the means of helping
to develop whatever there may be in
my life. We have never had any
plan for our life so ambitious
and noble as God has for us.

We cannot dream anything
so lofty as God desires us to enjoy.
Let us believe that God will work
out these plans in our lives.

I must go to meet the committee

Ohio Normal University.

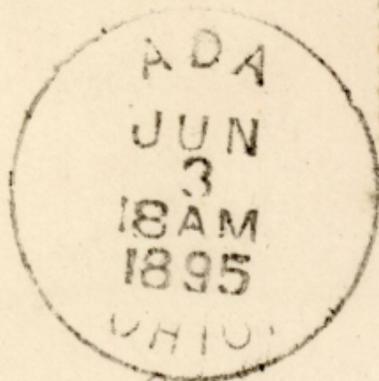

Once more I am with you. We had an excellent meeting this afternoon. The lecture Friday night they say was grand. Dr. Gurnea of Amherst Institute was the lecturer. I don't know how our finance will come out we have to pay so heavy for the course that I fear we will be left with rather a small sum of money, however I am going to try to go some way. I bought ~~me~~ a 3¢ fan so I fan with one hand and write with the other. We have such a close upstairs room that we may have a poast some of these times. Were you

here you might find me.
I hope you may continue
to enjoy your vacation and have
a pleasant summer.

Dille is writing to his girl.
It won't do to write all the news
this time so I will say bye bye
for this time.

Devotedly yours,
J. H. Harris.

32.
