Dear Dr.Harris:

Thank you for your helpful Christmas letter duly here at our winter home. It is clear and beautiful in thought and its ideas are on a high level. A good rich life lies back of such a letter and I am heartened always as I take inventory of our dear Church to review the quiet vigor of your personality as one of our front line resources. You are enabled of God to do a work of epochal importance to our standing in Ohio and passing a gracious contribution into our total denominational achievement. God bless you all the days and open Heaven to you finally.

Ever Yours in Him.

Wm.M.Bell.
