Dear Eirene,
Storia told me you
was here Saturday but she said
she didn't call Margie. She was
sleeping.

I am sorry I wasn't home but
May gave Dotty a three months
course at a dancing school down
town and she hadn't gone for
a long time on account of me
being sick. I supposed they wouldn't
give her the lessons she missed
but when I got home I had a
letter telling me she still had

lessons in her favor so I thought she might as well finish them.

I am going to move to Staten Island near I.D.A.

Harry is borrowing me the money to move on as he did not have it to give me.

He took us all up to the country so I could get well and not have to do anything.

I can't seem to get rid of my cough. I guess it will take time as the doctor said I had flu.

Eirene I will pay you every cent I owe you a little at a time as I am getting cheap rent and I will be able to.

The way it is the expense of this

house and no money coming from the rooms is too much for me.

Even Ladic does not pay for Gloria so I will have to let her go again.

Jean is the only one who pays.

I am sorry to leave the house but I must do something so I can get my bills paid up.

I will move either on the first or before. I will let you know before I go.

If you want me to I will put up a sign and try to rent it if you let me know the rent you want for each floor.

I hope this letter will find you Marty & the children well.
