My Dear Husband,

Here I am sitting at Richards typewriter. We came through with a young man who lives about two miles out of Apple Creek. and such a lovely drive. Mrs. Pfouts gave me a very cordial welcome and they seem like very fine people. Richard has a cosy comfortable room. My room, while he is next door to Richards

Dans were about home yesterday and went to Orrs in the evening. I went to the class meeting in the evening.

Wed. Morning, I do not know where I left off last night but I will just ramble on. It is about six forty five, Richard is still snoozing. I had a good rest in an excellent bed. Thin

Things were going about as usual at home. Pennell told me that he thought a delegation would go down to conference on Thursday evening. T also plan to guarantee the same salary a salary as last year. Mills told them they could not send you back if they cut your salary. so they seemed quite anxious.

I do not know what Richards plans are while here but we expect to be home Friday evening or Saturday morning.

Richard gave things a pretty good watering before we left and I hope every thing will be all right. I know this must be full of mistakes but you will understand,

With bushels of love

Mother.
