Greenwood, MS 38930

Dear Cousin Luella,

Well, I am finally getting around to thanking you for the wonderful day we spent in Chicago! I am most grateful that you were able to clear up the mystery of Abner Monroe for me.

I am sorry it has taken so long for me to enter all of the data about Elwood's descendants. Thank you very much for loaning it to me. I finally got a new notebook computer and was able to get some of the work done on my trips. I am enclosing a printout of the data I entered. It may be a little easier to follow and more consistent than the original. If you notice any glaring errors between the printout and the original, please help me correct them in the database.

I am not currently active with the Lambert line, so do not have anything revealing to share. However, I have found more people actively working on the Lambert line than any other I have worked on. I sincerely hope we can compile an accurate and complete record of the family for all to share.

Hope all is well with you and Owen. Please keep in touch and let me know what you are working on.

Sincerely,

Paul J. Harris
