Dear Pauline:

Just the shortest of notes to greet you and to say Thanksfor all the research you do, which then gets shared. This we appreciate greatly.

Nothing of any importance to report out of this area. We have a nice morning to enjoy - temp must be around 80 and that we can live with. Many of our letters say the heat in August was the Worst!

So once more, greetings and blessings and deep appreciation for all you do and for what you have come to mean to us here. Keep up the good work!

Our love and abiding affection,

Sincerely,

John & Virginia Smith

P.S.: Please note change of address. This is a private box and the mail gets delivered right to our front door

Dr. Bierley's address <sup>J+V</sup> as of now: 22062 Royen Street,  
Xanoga Park, CA., 91304
