

Plantville, O., 4/5/96.

J. H. Harris,
Ada, Ohio.

Dear Bro:— I will write
a few lines to-day. I got your
letter all right, concerning that
agency. I was not building up
on that very much although
it looked all right.

I was over to Athens last
week, things are about as usual.
prospects for work are slim.
I scarcely know what way
to look or what to do this
summer. I must get at some
kind of work for I have idled
away too much time already.
I have been thinking of

trying for a job, at book-keeping
or something of that nature.
but can hardly get the consent
of my mind to so act.

I was out to G. H.'s last
week, I think that I can get that
school there for next winter.

I like that country very
much, think it is a fine neigh-
borhood, They wanted me to
apply for the school; but

I have no certificate and am
undecided as to what I shall do
in life, but that would be
good training, and would help me
no matter what I may do.
But I must take the welfare
of others in consideration

I think that I can do much better than some of the teachers are doing, because they leave out the most essential thing in teaching.

I had a good talk with C. A. he is in better shape than he has ever been; he is not converted yet but I think he is over for good now; Be sure and write to him, and give him all the light you can; for he makes use of it.

G. K. is in good spirits, yet he is burdened financially no doubt.

But he seems glad that they made the move they did.

I feel that I have been benefited by my visit; and feel encouraged in they way of right living.

I will
close for
this time
wishing you
success in
every good
undertaking
L. D. H.

Professor's offer would be quite
tempting indeed, but of course
you know better than I do as
to what to do in life or what
course to take, I suppose
if you did not see any more in
life than most of the people of this
place, of course you would
accept that position.

I have you heard from Delia,
Carlos has been getting letters from
him he was in Sedalia Missouri.
Alice is no better, if you can
get time write to her.

Mary Wilson, as it use to be,
now Mary Fleck, was buried here
last Friday, she leaves four
children, and Mrs. Miller was buried
one week ago last Sat.
