My dear Brother

Congratulations for your 52nd birthday I believe I want you to know I appreciate your life and all it has meant to me and trust you may have many more joyful years.

These sketches written by Mother were found scattered thru her belongings but most of them in an old tablet which Ira had used at Ada. She had used the blank pages.

Her thoughts are very inspiring to me. There are mistakes of course but if there were here, I want you to have them on your birthday.

Loveingly
Bertha
