

Miami Fla May 5 '34

Dear Beetha and Family, I do hope you are getting much better now and all goes well.

About as well as common here and many people feeling to some extent, cheered up. Herley was here and says he sees so many people every day, travelers tell him other places are not recovering their usual business trend so fast as Miami Beach and Coral Gables especially. Building nearly 90 new

houses in Miami Beach at
an average cost of about
Fourteen Thousand Dollars
each. I think Coral Gables
has sold more lots, but
Merrick got so tangled up
I think some are afraid to
build at Coral Gables un-
less congress straightens
out the titles, if the bill
now being considered in Congress
goes thro they say there will
be much building there.

Jordan has just been over
to Downings and picked some
mulberries for us. We

have had many dishes
from there but Downing always
picked them before.

Do you know how Carrie
and Oscar are? I hardly
think they will go back,
as he has had sev-
eral relapses.

I fear you will have
some hot weather there
as you are away from the
sea breeze. Much bad weather
in the north.

Arthur is to be married.
They raised his salary to \$800

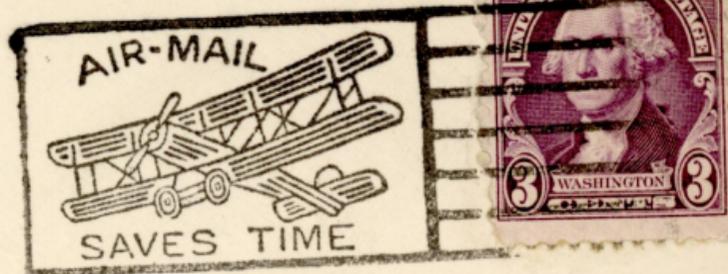

or I believe Emma wrote
150 a month. Must stop
as eyes trouble some.

Love to all.
