Dear Betty,

It was very nice to talk to you last Sunday. I am sending you a copy of a computer printed descendency chart from John Lambert and Elizabeth Sayre. I have outlined my line of descendency so you can see how I fit in to other areas of the family with which you are undoubtedly more familiar. This chart also gives you some idea of what family members I am aware of who are descended from John Lambert. I am sure I have many holes and gaps and would appreciate any help you may be able to give me in the future. I may be able to offer you considerable information over on my side of the family regarding the descendants of Daniel Webster Lambert.

I am hoping to be able to contact Mary Sue Webner through the Otterbein Alumni Association. She is the daughter of Lucile Lambert Webner, daughter of William Otterbein Lambert, son of Daniel Webster Lambert. I would really like to see a lot of cousins put in touch with each other, perhaps through a newsletter or something.

Thank you for Malcolmb Smith's address. You had mentioned Paul Selby on the phone and I wonder what other Selby's or other cousins you have addresses for. I also wonder if you know of any groups of relatives who get together regularly in family reunions. I would be very interested in any such information in our future correspondence.

Thank you again for your time on Sunday. Looking forward to meeting you some time.

Cordially,
