

July 24, 1971

Dear Marie,

I was delighted to hear from you and am sorry that I have taken so long to answer you and I am related as follows:

I will be happy to share any information I have with you and hope you will help me fill out and correct my charts. Have enclosed an ancestors chart and a family group sheet for you to add anything you can. You may want to keep them before you return them to me so you'll have a copy. I will appreciate you listing your nieces and nephews and their addresses. I believe Abner's grandsons are the only male Lamberts to carry on the name in the D. W. Lambert line. There aren't many males left in the Reece Lambert line either. My father is the last of

The Lambert name in our branch of the Rose line.

I have enclosed some old letters and poetry written by your father. Have scanned them so you may keep them if you like. The letter Betty mentioned was one<sup>in</sup> which I was trying to find out if anyone had Alex's old records about the family reunion etc. I wondered if anyone knows who Alanzo Edmond<sup>Lambert</sup> is mentioned in the 1931 letter - or who Frank Lambert was who lived near Dayton and had valuable family data. A.E. is supposed to connect to our Lamberts and I need to know how. Frank may know, to other lines and the Lambert Family Assoc. would like to know about him.

In case you do not know of the Assoc. it is for all Lamberts in the U.S. and they are gathering material for a book. There were a great many early Lamberts in this country - both English & German. Sorting them out is a gigantic task and we all need to help. The Assoc. has just met this week-end in Tecumseh, Ark. They publish a newsletter semi-annually. Have enclosed a copy of the last one for you. The dues are \$5 to be sent to Alton Lambert. You might enjoy belonging and perhaps would help with the Ind. Lamberts. (By the way we do not consider that to be the crest for our Lamberts.) Have scanned a <sup>picture</sup> page from the Jan. Newsletter which has Ind. Lamberts in it.

I thought that picture might be of your Uncle  
Dad. He had 2 daughters - but Lucille + Dannie  
both thought not. They remember their as of stocky  
build. Hope you can help!!!

I have a lovely family portrait of Helen's  
family made by Baker's Art Gallery, Columbus, E. You  
have a big white hair ribbon on and look to be about  
5 years old. I imagine you have this but if not I  
imagine it could be copied. The only other thing  
I can think of is a copy of Daniel Webster Tumbull, was  
I'm sure your Dad had a copy if you can find it.  
If not let me know and I'll xerox it.

Pauline has been very helpful and a  
loyal correspondent, I met her sister, Lucille, + husband  
also Daniel Harris + wife in Florida last winter. Have  
never met Pauline.

Hope this will help you. I'm trying to  
together the early records I have and will be sure that  
you have a copy when I ever get it finished. We have you  
this summer learned the parents of Winnipeg Cartwright  
and are trying to get back to the immigrant ancestor in that  
family. Have not been able to find the parents of John Lambert  
b1715 though I feel he was from the Roger Lambert line - but  
we have no proof.

Let's keep in touch.

Sincerely,

Bette L Kinapps
