Mr. J. H. Harris

Arthur O.

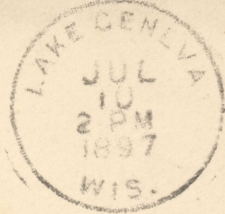

My Darling Joe: - It was a
very sweet surprise yesterday
evening to take your letter
from the box. We have quite
a unique post-office here,
It is open to everybody, as
we are all supposed to
be strictly honest. - The last
few days have been the warmest
that have been known here
for some time, but it is
cooler this morning and I
hope will not be so warm
yesterday afternoon we visited
the New Yorks Observatory.
It is a wonderful sight.
I am well and could not ask
more than I now enjoy if you
were only here. It just seems
that there is something lacking
in my life since you are away.

Last evening we had such a
fine address by Dr. Hall of
N. Y. or Lusk-Payer. I feel
that so much has come into
my life since I came here
that I never knew before.
I think of you so much
these very warm days and
pray that God may keep you
safe for the work I believe
he has for you to do. I do
not know where to tell you
to write. I have written to
Uncle in Chicago but have
received no word as yet. If I
do not hear from them I
will probably go direct to
Watersville as they are apt
to be out of the city such
warm weather. I hardly think
I am likely to get a position
in the shipping shall

and may not accept it.
if I should, so I expect to
leave here Tues. morning at
6:30 and will get home
some time Wed. forenoon
will get to Columbus about
six or seven I think
I will write again soon and
try to tell you what I will
do. If you write you may
address me at Westville
as far as I know now.
I hope to see you before many
weeks and may God direct
you and keep you safe.
Your own true one.

Bertha E. Lambert
