

Hester ville O. May 26. '93.

Mr. J. H. Harris

Dear Joe:— This pleasant afternoon finds me very pleasantly situated and surely enjoying life in a high degree. I surely feel a weight of care and responsibility lifted from my mind which I never can realize elsewhere than at home. I was at church and S. S. this morning, but I must confess it did not seem like Harmon.

I believe it is going to
take me some time
to become acclimated.
John & Hannah drove down
Wed. and went back Sat.
He had a nice visit
but John was sick so he
was not able to go to
Carrie's commencement.

I have decided to go to
Iberia immediately after
College commencement. I
thought I had best stay that
long and get some of the
winter worn off. I have
been asked to help in
the music for our Open
Session for commencement
week and I thought that
would do me good also.
Hannah thinks there will
be a good opening for me

but of course I can not
tell much about it.
I rec'd a letter from my
old room-mate Faidie Chandler,
she is back at Aida
where we used to room.
I presume you will meet
her.

It is such a pleasure to
be at home I can hardly
realize that it is a fact.
I wish you could have
heard Carrie's address
"The Power of an Idea" I
thought it was excellent
and many others expressed
the same opinion.
Next Wed. night an oratorical
contest will be held here
in which Ira has a part.
Your coming will not
bother me any in regard

to Ex. that I can see at
least I will risk that part.
I presume you will come
on the same train you came
on before. If you do not
buy a round trip ticket
from Columbus we can
perhaps go down on
the street car.

I will not write a long letter
for my mind is too full
of our long expected visit
to think of any thing
else.

Good night and happy
dreams to you!

Thoughtfully,
Bertha Lambert.
