

Sat. Morning.

Dear Richard:

Of course I was delighted to get your letter. I only mentioned it because I thought you might have sent it and I had not received it.

I seem to have very little recollection about what went into that account but I surely did not have that much money in there. As I recall we just started that to have money when I could draw from for the household shopping.

So no doubt the most of it came from your pocket. I sure do not feel right to take that check. If you cut it down to \$25. I might consider it. ~~I have no~~

I went with Caroline to missionary meeting yesterday.

James is in Chicago, he has charge of the music at Pres. Ministers Convention. I will be back Mon. noon.

So - I am returning you check
and would feel much better if
you cut it in two

I seem to be improving slowly.

With love

Mortua.

Trans. 206,

My Dear Boy: your precious letter
came today. I was so happy to hear
from you. It was just as I thought
you were driven by your work.
I have been reading a book on
great musicians and I have decided
you are one of them.

Well I feel much better now this
check than the other and thank you
for your generosity.

I can honestly say I am beginning
to feel much stronger. I went with
Caroline to the grocery today down the
hill three blocks. It was some task
to get up the hill again but I made
it and feel no worse because of it.
The folks are out some where this
evening as they are most evenings.
I have been at church the last two
Sundays. James gave a fine address
"Laymen on the March" the Sem. after-
he was in Chicago & the people were
much pleased.

Last Sun. Rev Taylor gave a masterful
Sermon on "The Wonders of Jesus."

He gives a wonderful Expository Sermon,
I don't know when I have heard his
equal.

The other night they had a Rummage Sale
at the church and made about \$500.

They had everything from rick-les
to frigid air machines

I also had a letter from Dan today.
John is having trouble with tonsils

He also told me that Margie has
been in the hospital again, I presume
it is for another kidney stone. I don't
know how she can stand so much.

I understand Patty has a job at a
Music center or some such place
in Detroit. I think Dan is to sing at
Buckhart's church some time soon. He
also goes to Joplin Mo. to judge
some contests. My boys seem to be
a busy bunch of actors.

Well I am glad Geore City solved
her mystery and the women can
again sleep. I hear some deer have
been discovered on the streets of
Cleveland.

Thurs. a.m.

My letter seems to be on the installment plan, last eve. I went with James to the church, where they had dinner and then an address by one of the Univ. Profs. He is teacher in Bible and told us how quite recently manuscripts have been discovered dating back at least a thousand years earlier than our Bible. One gets lost in such mysteries.

Deane is doing well in her piano work. She now practices in the morning instead of the evening.

I am glad Spring is on the way. People say it has been a mild winter, but it has been a shivery one for me. Use the money I enclosed for any thing you like - maybe a good dinner!

I am getting anxious to see you. Don't go let her

with loads of love and good wishes
Mother
