

Westerville, O., Sept. 16. '96.

Mr. J. H. Harris

Chillicothe, O.

Dear Joe - Your letter found me yesterday. I have a little time now and will answer it in this way. I am well and as busy as a student usually is. I am glad to know you are coming towards Westerville, although you do come a little ~~slow~~ somewhat slowly. Students keep coming in almost every day, so you will not be much behind some of them. Just now we are having such lovely weather for school, and it is much pleasant for agents too, I can testify.

Last night a party of us
had intended to go to Colum-
bus and spend the evening
using the telescope in the
O. S. H. but the gods sent us
cloudy weather and we
could not go. We were very
much disappointed for it
would no doubt have been
a rare treat. (D. I. was to
have been my "point")

Society spirit is getting stirred
up again. Cleo will get
some of the girls but no
more than her share, if
she does that. School work
is going more natural this
week. I think Virgil is
just fine. I have secured
the books I spoke of.

You spoke of the "Ada. Small"
It is still coming.

I imagine we can look
for you in W. about Sat.,
but perhaps my imagination
is a little ahead of time.

I hope you will pardon
these short letters, but
I thought it would be
better than none at all.

Hoping to see you
soon I remain

Your true one,
Bertha Lambart
