Dear Paul,

I'll probably speak to you before you get this but I have learned from you the importance of letters in your genealogy studies.

I know these are difficult times for you but I'm happy you are doing some positive things and I believe the children need to be aware and involved and of course I strongly recommend their counseling but I told that to you on the phone. They really are two terrific kids but they are still kids & going through some of the roughest & challenging years of their lives. Let's face it, we all need help some time in our lives & we all need love ones

who care. It's tough enough raising children in these times with two parents working at it but to go it alone with all the other pressures of life is almost impossible.

Again I wish I were closer geographically but know I am in mind.

I trust you'll have a Happy Birthday to the children and remember it's only a year chronologically and every thing, including age to an extent, is in the mind.

Hang in there and remember we are all thinking about you.

Your Loving Sister,  
Selen
