

Plantersville O, Sept. 16. '94.

Mr. J. N. Harris,  
Athens O.

Esteemed Friend: - I  
take this opportunity of  
answering your welcome  
letter which was rec'd a  
few days ago.

I have been at Selby's  
for the past two weeks and  
as your letter was sent  
to Plantersville I did not  
get it for some time after  
it was written, so you will  
please pardon apparent delay.

I have been practicing in  
the kitchen and presume I have  
got to be quite an accomplished cook?

This has seemed like a strange Sunday to me; it was so rainy this morning that we did not go to church.

Situated as we were with a hill on either side, and the rain coming down between it might have been a dreary looking sight had I been inclined to make it so but I chose rather to make the best of it and spent quite a pleasant day.

One week ago tonight we met at Huron and organized a Y. P. C. U. with twenty five members. I was so much pleased to see the people here so much interested in such work, and believe our society will prove a success.

My school begins tomorrow.

About 9-3 P. M. you might see me treading my way over my old path which is almost overgrown with weeds, but I presume it will look natural in a week or two. I have been a little anxious for school to begin that I might become settled in my work once more. Nine weeks has seemed like a long time to be doing nothing of any importance.

Last week Ottie, Sam & Eva visited our folks at Husterville. It almost made me homesick

but I stayed and kept house  
and did not cry at all  
I hope to see you before  
going to Ada if it is convenient  
for you. I expect to be at Ada  
now for some time at least  
so if you can not send me  
word you will ~~know~~ where to  
find me.

I will close hoping to  
see you soon, and May  
the Lord lead you in pleasant  
paths. Your Friend,  
Bertha E. Lambert.
