

June 12, 1992

Dear Paul,

You did a wonderful job on the pictures! It is very gratifying that the stones are in such good condition. I am delighted to have the picture as I doubt if I'll ever get to NY.

George has a new elbow plus a staff infection so he isn't doing very well. I doubt if they'll let him have the new shoulder he wants. He wants to go back to Naples as soon as he is able.

I have enclosed a small check in appreciation of your efforts on our family genealogy and your generous sharing of your records.

Hope your children are well and the new job proves to be very gratifying.

Relatively (I love that)

Bette
