

Sept 14, 1991

Dear Lu -

We came home Aug. 9 expecting George to have serious surgery - but the larger scanner at the hospital here showed things not to be so serious. It has been a long, hard winter and he just wanted to stay in Naples. Anyway it has given me a chance to get the Eldwood Lambert records for you.

I wrote to Fern Dickenson in Modesto but she did not answer - Had a letter from Edna Star Lambert in answer to one I wrote but he had very little to offer - said write Elvira Lambert Dingrich. She did a wonderful job! We corresponded 1982 + 83. The last time I wrote she did not answer. She was b 1902 so may have died. I wish I had met her - she sounded darling in her letters.

Have copied the records Elvira sent. Heard from Elvira + Olga once and he offered to make a tape as arthritis made it hard for him to write. I never got the Tape and he died not long after that.

Hope some of this will lead you to the younger generations. You can get an idea of their family assoc. from this info.

I will get records on the Elvira Lambert family that moved to CA - much, much

Smaller family.

Hope all is well with you and yours. George requires a lot of care and I do not get much else done. He wants to go back to Naples as soon as the doctor will let him. We will probably put this place on the market - hard decisions to make under the circumstances.

I'm so glad I could send you some information for a change. You have been so good to me!

The addresses I copied were in 1980. I can't believe it was so long ago. They probably will be of little help - but I'll send them anyway. I do not know who's who!

Will you be coming to Naples anytime soon? Be sure to let me know because we may be there.

Are you thinking of going to The National Genealogical Meeting in Fla. next year? I would surely like to go - so let me know & we could room together.

Best wishes to you and Owen -

Love -

Bette
