YEARBOOK 1994

The administrative staff would like to extend our congratulations to the "Class of '94" as they graduate from Badger High School to encounter the unique challenges presented by the twenty-first century.

While we seldom have the opportunity to directly interact with the student body, we are extremely proud of all that you've accomplished. It is our hope that the opportunities provided by the Joseph Badger Local School District have created the foundation necessary to allow you to go forth in life to be "the best that you can be". We recognize the difficulties which lie ahead, the complexities of today's society, as well as the ever changing challenges that students invariably face as they accept the leadership roles for future generations. Please remember the ten most powerful two letter words ever spoken, "If it is to be, it is up to me".

CONGRATULATIONS!!!

Principal

Sally Orlosky
Guidance Counselor
Sept. 1989-Oct. 7, 1993

Mr. Dobosh is the new guidance counselor at Badger High School. On October 4, 1993, he started work along side Mrs. Orlosky to get accustomed to our school. As of October 7 he has been on his own and doing a fine job.

Mrs. Orlosky has given her time and effort in working with everyone here. It was time for her to move on and she accepted a job at Newton Falls. She is missed by all, especially this senior class because she started our freshman year with us and had finished with our senior year.

YEARBOOK STAFF

Until this past year, working on the yearbook staff seemed easy. The thought of relying on someone else to pick up the slack where you had left off never occurred to me.

After countless hours of getting out of studyhalls and extra time spent after school to get things done, you sit and wonder if all that time that you put in was well worth the effort. We have all sat to edit and to revise, measure and crop, sketched and drawn the final layouts. Many don't realize the time, effort, and added pressure until you know that all deadlines are met.

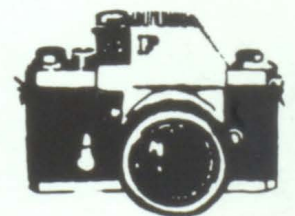

After all is typed into the computer, on the layouts, and in that folder ready to be sent to Texas, we can feel the sense of accomplishment and the RELIEF that follows.

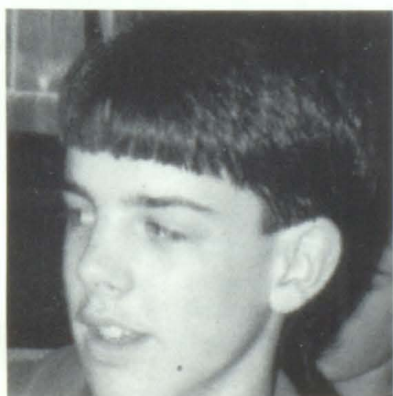

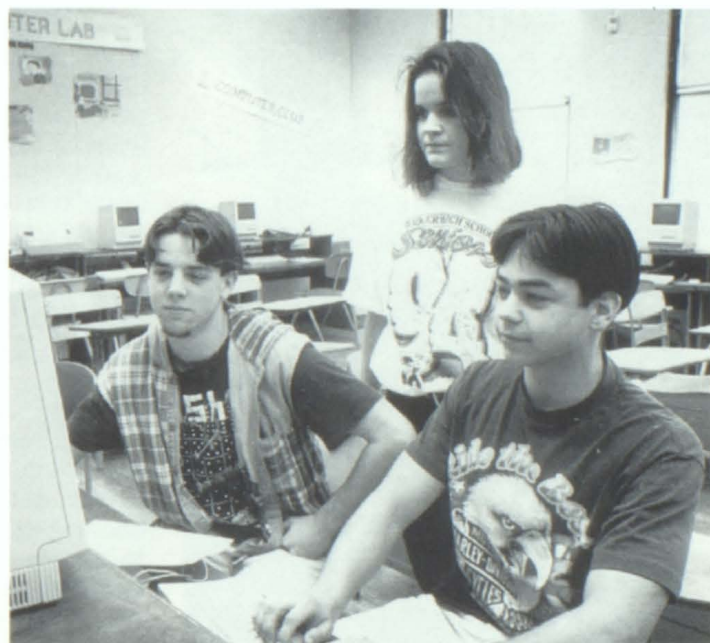

Best of luck to the staffs that follow us and always strive to make the best yearbook you can. Hint: Don't wait until the last minute to get everything done, the publishers won't wait for you!!

-Editor Tracy Britton

EDITORS: Darice Draa, Heather Siekkinen, and Tracy Britton hussle to meet the next deadline.

An Adventure 65 Million Years In The Making.

What was your most memorable experience?

"When my Dad paid me a quarter to run over my mom's foot with a shopping cart. She's still mad to this very day."

Greta Betts

What is one thing you would like to do before you die?

"Be in one of the Keystone Beer Commercials with a supermodel."

Sean Cottrell

If you could own any car in the world, what would it be?

"Mike Swick's 83 S-10."

Kevin Stanney

If you could change anything what would it be?

"I would make Elvis's birthday a National Holiday."

Chris Davis

What's a piece of advice you often follow?

"Be yourself."

Shannon Kumer

If you could trade places with anyone for a day, who would it be?

I would trade places with a suffering child from Ethiopia. One day of his life he wouldn't worry about going hungry or underdressed. I'd give him money to see a movie, eat at Old Country Buffet, and buy a nice outfit for his dreaded trip home.

SENIOR CLASS OFFICERS

PRESIDENT: Kevin Stanney

TREASURER: Heather Siekkinen

VICE PRESIDENT: Greta Betts

SECRETARY: Shannon Kumher

We met at the age of eleven and our friendships began. We have grown stronger and closer to one another through the years. We have seen each others happiness and sorrows. We have stuck close by each other through the good times and the bad to the point where we feel secure with our lives. But as we all know times do change as do our directions. So as this our senior year draws to a close and the reality of our futures begins to set in, let's never forget all the great times we've spent loving and learning together. Finally, my message to the class of 1994 is follow your dreams, because there and only there will you find true happiness.

BOYS' STATE

Buckeye Boys' State was a very educational experience. You are able to run for local, state, and county governmental positions. The time at Boys' State also provided me with the opportunity to live on a college campus for nine days. Finally Boys' State gave me the chance to meet new friends from all over the state of Ohio and learn about their areas which they are from and how they differ from the area that I am from.

THIEL SCHOLARS

This year three senior students Tracy Britton, Amy Kotancheck, and Sam McGill from Badger High School were among a record of 23 local high school students getting a head start on college in the Thiel Scholars Program.

The Greenville college program promotes academic excellence and acceleration in high school and college.

The Thiel Scholars Program gives high school students an opportunity to enroll in college courses for college credit while they are still in high school. Thiel Scholars must be in the top 20% of their class and must have the approval of their parents, high school principal, and guidance counselor.

Program participants are considered to be part-time students, but only pay \$50.00 a credit hour, as opposed to the traditional rate of \$322.00 a credit hour. They have the opportunity to attend any events, join clubs, and take part in college affairs other than school-sponsored sports, due to NCAA rules.

-Tracy Britton

At Thiel, Amy Kotancheck is enrolled in German I. She will not be returning next semester. Sam McGill is currently taking Accounting I and will take Accounting II in the spring. Tracy Britton is in Psychology and will be taking Political Science in the spring.

The whole NHS group have been working around the clock with service projects and moneymakers. They sold hot dogs, rootbeer floats, and helped the Rotary at the chicken barbecue. They also held their own spaghetti dinner and were responsible for the 1993 Badger High School Coronation. This has been one of the most successful and active organizations in recent years.

VARSITY ECOLOGY TEAM

Well, this is it . . . our final year together. We've been a team since our freshman year. Together we achieved what was once thought impossible. Our first big win at the 1992 Area II Envirothon left us ecstatic, but that never prepared us for the winning of the State meet. Whoever thought that a team from rural Kinsman could represent Ohio at the Envirothon Nationals? Yes, the competition has been keen and the preparation tough, but we have succeeded. We have overcome numerous arguments and conflicts, a fact that has enabled us to become stronger as a team. As we face our final year together, I am confident that we will again represent our school well and provide a legacy which will continue to challenge those who follow us.

-Jess Mistak

SENIORS:

"I'm okay, you're okay. Being a part of this team has provided me with priceless knowledge, friendships, and memories that I will continue to treasure for as long as I live."

Jess Mistak

Remember, guys, it's not just frogs and weeds- it's getting thrown in the swamp, locked in the dorm, water balloons, and Chinese fire drills on the way to the nearest Ponderosa.

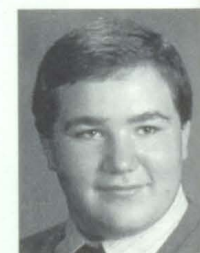

Jen Cole

The Ecology team does more than just learn about trees and weeds, we learn about people. Over the past 5 yrs., we have shared experiences that will never be forgotten. From Burghill to Baltimore, the lessons in life that we have learned are invaluable. Thanks for the memories.

Tom Goodhart

Sam McGill

Sam McGill, Jess Mistak, Tom Goodhart, Jen Cole, and Abbey Miller celebrate the winning of the Shenango Eco-Meet.

Our faithful and weary coaches: Cheri Diford and Patti Miller.

Here's the gang at the 1993 State Envirothon.

The team takes a break from their test.

The team nervously anticipates the Area II meet results.

IN MEMORY OF JANEY COLE

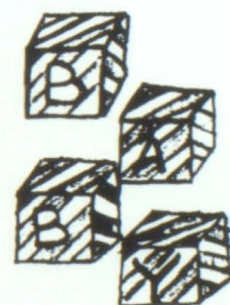

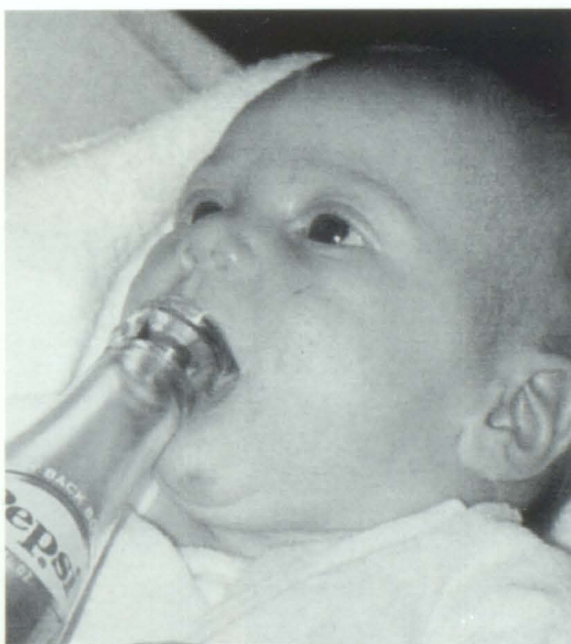

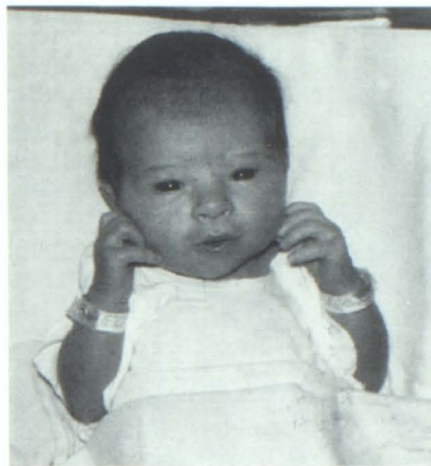

She was more than just a friend or a mom, she was our biggest fan. Although it meant tramping across Ohio, Pennsylvania, and to Maryland, never did she fail to attend a meet. Always, she dedicated her time to take care of us- cookies were made, errands were run, and her driving abilities donated. Furthermore, Janey Cole was an insurmountable inspiration and source of encouragement. The Ecology Team could not have asked for a more supportive and willing person. She will be sadly missed by all.

Hi! My name is Daniela, or . . . Dani how everybody calls me. I am an exchange student from Brazil and I'm thinking of staying one year in America. I am 16 years old and enrolled as a junior at Badger High School. I have many friends here and they are wonderful with me as well as my teachers.

My life here is very different than my life in Brazil, a tropical country. I love beaches and to dance. I think that one day I can stay here, know new people and a different culture. My adaptation here was very difficult, because I didn't understand anything.

You and USA are unforgettable! Thank you.

Love,
Dani

ACADEMIC TEAM

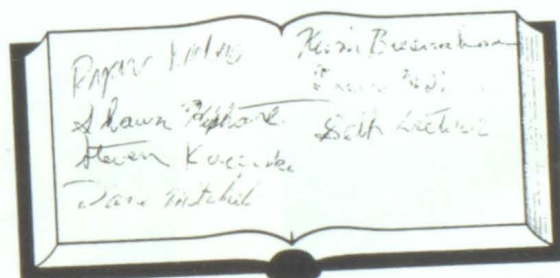

Senior Steve Kacerski

The Badger Academic Team is made up of Senior Steve Kacerski; Juniors Kevin Bresnahan, Travis Hoffman, and Ryan Kalas; Sophomore Shawn Kephart; and Freshman Seth Kretser. They are advised by Mr. Mitchell.

At their first tournament at South Range, they came in second for the second straight year.

They went into the Trumbull County Prep Bowl as the two-time defending champs, but unfortunately the elusive three-peat escaped them. At Copley, they'll have one more chance to qualify for the state tournament.

ACT Assessment

The best indication of how well you will do in college is a measure of how well you can perform the skills necessary for college coursework. The ACT assessment measures these four skills in four major curriculum areas: English, mathematics, reading, and science reasoning. These areas are tested because they include the major areas of instruction in most high school and college programs.

Many college and scholarship agencies recommend that students take the ACT during the second semester of their junior year. By this time, students typically have completed most of the coursework covered by the ACT. There are a number of advantages in taking the ACT during the spring of your junior year:

- * You will receive test scores and other information that will help you plan your senior year in high school;
- * Many colleges begin contacting prospective students during the summer before the senior year;
- * If you don't score as well as you believe you can, there will be opportunities to retake the ACT in the early summer or fall of your senior year and still have the new information available to meet admission and scholarship deadlines.

ALWAYS remember to think positive and be confident in what you do and you will succeed or the last picture may very well be your future. Life in this world now is rough and you must start planning otherwise it may be too late.

YOUTH LEADERSHIP SEMINAR

HOBY

Last May, I attended the Hugh O'Brian Youth Leadership Seminar at Mount Union College. I was one of hundreds of then sophomores from all over northern Ohio arriving there. I made some new friends, had a lot of fun, and learned some things about being a leader. It's too bad that more can't have the same experience. I had a blast.

Y.S.U. GOVERNOR'S INSTITUTE

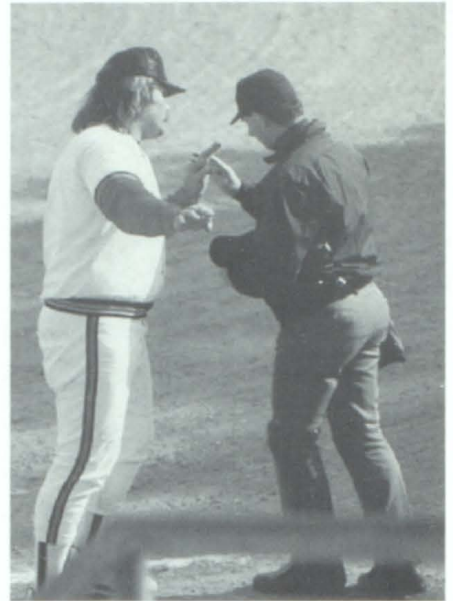

Over the previous summer, I had the opportunity to attend the Y.S.U. Governor's Institute for the Gifted and Talented. The program consisted of a wide variety of fun and informative classes. These classes ranged from Chemistry and Physics to Theater Arts and Creative Writing. In addition to learning many things, I met students from all over Northeast Ohio. I truly enjoyed the Governor's Institute and recommend it to all who have the chance to attend.

Sophomores have the dream of being able to drive to school. After being humiliated for years on end by having to ride the bus, the opportunity to actually transport themselves to school is in reach. Since parking permits are only distributed at the beginning of the year, young sophomores and those sophomores who are too terrified to pass the driving test the first time can only receive a temporary parking pass good for only one day a week. That still leaves them riding the "Blue Bird" four days!

SPORTS

Did you know.....

* This year Badger has new Boys' Basketball Coaches; Coach Tarr, Coach Hamilton, and Coach Michaels.

* It costs \$2.00 to get into a volleyball game.

* Season passes to the basketball games cost \$20.00 for a student, \$40.00 for an adult, and \$10.00 for a senior citizen.

* We have 8 senior basketball players.

* Last season we welcomed the volleyball coach, Bill Bell as the new softball coach.

* Mr. Patterson, all the athletes thank you for the time and effort that you put into our athletic program.

VARSITY SOCCER

This year our Varsity soccer team made a significant move in the TAC-8. When we took the field, we were in every game (some more than others). I attribute our success to a well-rounded team and a feeling that we could step out on the field confidently. I hope that future soccer teams will take the challenge of breaking the .500 barrier and taking soccer at Badger to the next level.

We would like to thank someone special for getting a girls team together. It would never have happened without him. He put a lot of his time and energy (which he needed alot of, to put up with us girls) in soccer for us.

We had a little problem with our chatting with other teams, but we seemed not to talk on the field. Shelley has the quick temper, Aimee had that little goalie accident and spikes in her face.

We would like to thank the "Kumhers" for the goals and would like to say: Don't forget our sign 'TORNADO' and our motto, "KA all the way."

Thanks Mr. Hardman

The 1993-1994 Badger Show Choir not only performs at the school for their two concerts, they also go out into the community. This year, along with past years, Show Choir went to Bronzewood to put on their Christmas Show. Badger Show Choir has also gone to perform for patients at Hillside Hospital and at Hartford and Gustavus Elementary Schools to spread the holiday cheer through music and dance. For the past two years, Badger Show Choir has attended a workshop at Kent State University. The group learned the songs needed before going and learned the dances while there. The instructor also gave the directors ideas on how to better their classes talent.

One thing everyone in Show Choir does do is have fun!

The ever famous Mrs. Amy!!

What is skiing? Who's to say that man should strap on two skinny little pieces of sophisticated materials and send themselves hurdling down a mocking precipice of an angle no doubt steeper than the West Virginia Turnpike at speeds no less than that of an average piece of space dust only to stop at the bottom and wait in line for a turn to go back up that thick steel cable of the ski lift. Was snow really meant to be scathed apart into sine-like curves by the dull metal bladed on the skis? Has man been permitted to make artificial snow and shoot it out of monolithic green snow machines? Was man truly meant to ski? I just don't know.

Maybe someday we'll answer these questions, but for now I

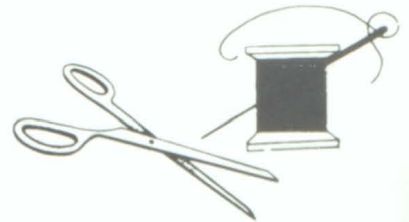

guess everyone in ski club will be left to ponder over these age-old wonderments. Or we could ask John, the ski instructor, who torments us not only by withholding such vital information as this, but who also withholds those black advanced-level stickers that every Badger skier so obviously deserves-not only when doing helicopters off the moguls, but when displaying proper ski etiquette, such as never hawking one off the lift.

And while we're at it, Tom, does rice actually make you ski better?

-Ryan Kalas

SKI CLUB

The FHA/HERO- Future Homemakers of America/ Home Economics Related Occupations is a national organization for teens. Our local chapter has participated in many activities the first half of the school year. We had the Thanksgiving dinner on Parent Teacher conference night. FHA members set up the menu, prepared the food and served it and organized the tables. Through the holidays, we made and sold reindeer. With the money, we paid for materials to make floral arrangements to take home to our families

-Jennifer Broda.

ECOLOGY TEAM

The 1992-1993 Ecology Team was quite busy. We first started in April with the Tri-County meet, which was held in Canfield. Badger earned 1st place for the fourth consecutive year, which gave them the privilege of going to the Area II meet held in Wayne County. This meet consisted of 73 teams from 17 different counties in Ohio. Again for the 2nd straight year, Badger came out on top. At the Shenango meet, the Badger Eco team placed 1st. With this win, we were on our way to Ford City, Pennsylvania. This meet had schools from both Pa and Ohio. Badger earned second place.

ECOLOGY CLUB I.S.S.U.E.

Interested students seeking and urging ecology-Badger Ecology Club is making a difference. In the four years from its humble beginning, I.S.S.U.E. has collected hundreds of pounds of aluminum, steel, paper, and plastic. In doing so, it has saved enormous amounts of energy from being wasted in the landfills. Recycling has become a household term and is done without a second thought in many places. Hopefully, with a little help, and Mrs. Pearce, the dream will continue. So don't throw away that pop can and save those newspapers...

COMMENCEMENT AIDES

Are we having fun yet?

Prom. The night that is supposed to be one to remember forever; but often times, it is a stressful occasion for teenagers. While preparing for the big event was exciting for some, it was very frustrating for others.

This year on May 7, 1993 at the long awaited senior prom, the Class of '93 reflected on their past four years at Badger High School. Anxious students and their dates arrived at DiViestes Banquet Hall for an evening of fun, dancing, and excitement.

As the evening went on, Casey Malone from CD 106 kept the dance floor filled. This year's theme "Thank You" by Led Zepplin was just appropriate for the evening — the end of their high school years to the advancement into the college and adult years.

The highlight of the night was the crowning of David McKnight and Monica Forester as King and Queen at the 1993 Prom.

Miina Siekkinen and Sam Cameron.

Lisa Best and Ryan Strange.

Through the years, the Joseph Badger School District has touched the lives of many students. It was in the halls of these buildings that friendships were formed, friendships that will last forever. It has also been in these halls, that flames have been spirited and future leaders have been made. It seemed like it was just yesterday.

We all start out in kindergarten or first grade, not really knowing a whole lot but open for new things. In elementary schools, we start learning how things are supposed to be done in the adult world and we can't wait till we are grown up. In middle school, our priorities begin to change. The future is not always as important as the present and in the present a whole lot is happening. We aren't little kids anymore, but we're not quite adults. Then there's high school, a microcosm of the real world, well. . .at least it seems to be. Now we're preparing to be in that grown up world that we have so long wanted to be in. Senior year! we're happy we are here and finally able to go do all that we have wanted to for so long, yet there's those after thoughts, those memories, of how easy everything was when we were kids. Graduation! Now we are there! We are now adults in the grown up world. But we don't know enough, we're not quite ready. . .but then again we are as ready as we'll ever be, and still open for new things.

Thank you, Badger for getting us this far. You did the best you could, now it is our turn. To all the parents, teachers, and others involved with our school, we WILL make you proud.

The Class of 1994.

The 1994 Badger Yearbook Staff would like to give an emense Thank You to all the businesses and community organizations who have contributed to the yearbook. Had it not been for this help, the Badger 1994 "Shadows" would not have been!

Please patronize these fine businesses and help support the community of which we are all a part.

Thank you.

An aerial photograph of a large industrial facility, identified as the Kraft General Foods Dairy Division. The facility features several large, interconnected buildings with flat roofs, numerous storage tanks, and a complex network of pipes and walkways. In the foreground, there is a large, open area that appears to be a parking lot or a field, with some trees and a fence visible. The background shows a hilly landscape with some residential or commercial buildings.
