## MOCK DISASTER

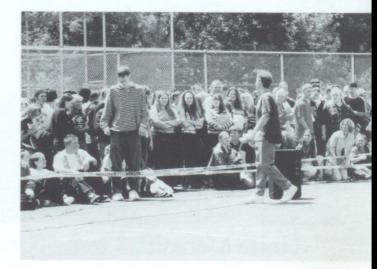

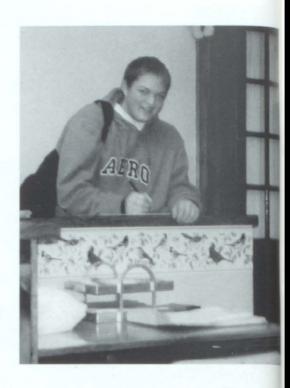

SPONSORED BY: PANDA

If you don't know, I have been going to Kent State Trumbull Branch for a course called Information Technology in the mornings then driving back here for the rest of the day. Some of the things I have been learning, involve how to locate a problem in a computer and how to fix it. I have also been learning how to use most of the Office 2000 program, for instance Power Point, Visual Basic, and Front Page. Aside from those I have been working with Cisco Networking and C++ so far.

I highly suggest that if you have even the smallest interest in this program, that you look into it further. It is well worth it and you will learn alot.

David Conner

Mathew Mack

My name is Mathew Mack. I attend Kent State University Trumbull Campus and am in the Tech Prep Program. I have been in the Tech Prep Program my junior and senior years. We learn many things that have to do with the Engineering field. We switch classes every six weeks. The first six weeks we learn about Machining and Auto Cad (Computer Aided Drafting) with one teacher. after that we switch to another teacher and learn about Welding, Electricity, Hydraulics, Pneumatics for six weeks. It works out well because I don't get bored with one thing and I learn alot more. This is a great program if you learn well with hands on projects. I'm very glad that I joined this program and its been a good learning experience.

Front L to R: Charles Carter: Advisor, Andrew Smith: Treasurer

The newly formed Badger High School Student Council has been busy constructing and developing a new Constitution, rules and guidelines for future Councils. They have also been looking into a number of school-wide concerns. One concern is the condition of the High School Restrooms. They are also checking into becoming a part of the Ohio "Adopt a Highway" program as part of their community service project. The Council is checking with the administration in an attempt to decorate and paint the hallway leading to the music room and shop in an effort to make it more appealing for students and visitors during school events. The Student Council may also sponsor a dance in the future. The Student Council would also like to express to their fellow students that they are there to hear student concerns so that they might be able to discuss and possibly take action on these concerns in future meetings.

Girls's State was an exiting, fun, & memorable experience. We were able to meet and become friends with girls of many different backrounds. We had some excellent speakers come and share their knowledge of government and life with us. With the help of our government advisors we were able to create a government that ran smoothly for the last 3 days. Elections were the most exciting part. It's a great experience to have before entering government your senior year, as well

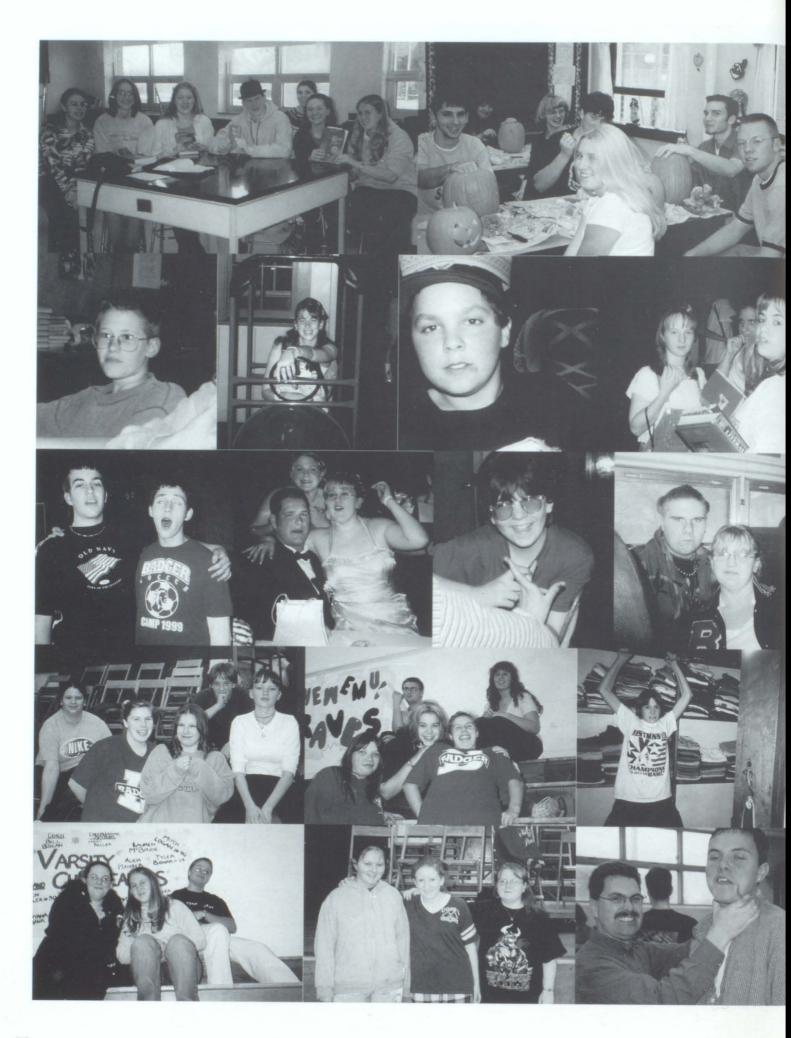

Sara Perry, Jodi Love, Meredith Keyse

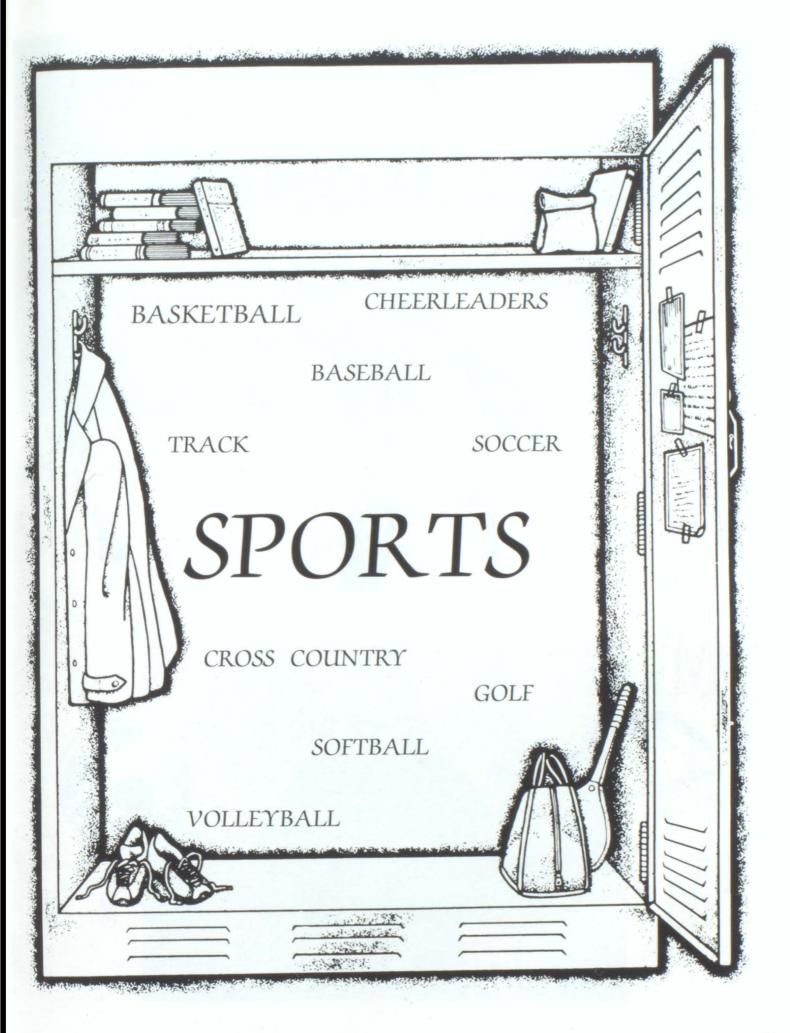

Last summer our boys attended an insightful week of political enlightenment at Buckeye Boy's State. We entered the week a bit reluctant (mostly due to the absence of babes) but we overcame our misgiving in the end. The daily schedule was choc'full of activities, such as campaigning recreation, participating in caucuses, voting, working, playing the lottery, and of course eating. One particular activity that Andrew enjoyed was visiting the Buckeye Boy's State Mini Mall (the only female within miles worked there) to purchase various BBS memorabilia. Believe it or not, we actually did learn some things about government, including the workings of a travel political campaign and the division of tasks between different government departments such as the Department of Youth Services, where Andrew and Brandon both "worked". One of the high points was the competition between cities for a flag, which served to unify us into cohesive working units. Although Boy's State was not exactly a life-shaping experience, it was a great approach to educating tomorrow's leaders in the importance of the political process.

Josh Upshire, Chris Arnold, Brandon Mintern, Andrew Smith
