Message From Our Executive Head

My sincere congratulations to each member of the graduating class of 1963!

It is with pride our school sends you out to play your individual part in a new life. We hope the training you have received will provide you with a sound foundation for a successful life.

May you become good citizens and honored members of your community.

LEO W. DIFFORD

Our Principal

The end of the school year closes rapidly for our Seniors.

For a large number of the Seniors it marks the beginning of their entrance into our rapidly expanding scientific world.

For a smaller number of the Seniors it means continuing higher education, wondering what new things will happen and what changes can be expected with new ideas toward scientific progress.

However, there are some things that make a person happy and successful which science cannot create. These are found in an honest citizen who thinks for himself, has tolerance toward his fellow man, practices self-discipline, and develops character. These are but some of the things we hope our graduates of 1963 have or will achieve.
