VERNON HIGH SCHOOL

VERNON, OHIO

Dedication To Our Mothers

To you, our dear Mothers, we dedicate our 1957
V-Echo in token of our appreciation for all your
help and understanding guidance through our twelve
years of school.

We wish to show our feelings by this poem
especially chosen for you.

Love to you, dear Mother,
We think of you today--
Our hearts can name no other,
Who holds so great a sway.

Our love for you will ever flow,
Our hearts be always true.
No greater love we'll ever know,
Than that we hold for you.

Your many virtues we need not name
They are well known to all
Your love for us will be the same
Whether we stand or fall.

Our innocence to you is clear--
But if you found us wrong,
You'd be the first
to send good cheer,
And help us to be strong.

Homer J. Williamson

Class Song

We love this school, it is a good old school,
And in this school we learned the rule;
We learned the rule in the Vernon School,
Now we must part and it breaks our hearts.

Settled down to good hard work
Twelve long years ago;
Tried to do our very best
But now our school days must end, you know.

A fond farewell to classmates dear,
Yet memories linger on
To teachers true, may God Bless You,
And with our future a new world dawns.

(To the tune of "The Wayward Wind")

Class History

The period of time is 1945 through 1957; the place is Vernon High School; you are there.

As slowly we walk into our room we are greeted by our first grade teacher, Mrs. Karr. All thirty-two of us are seated now. Of these thirty-two, fifteen of our original classmates are still with us. Although they have changed considerably their names haven't; they are still Donna Baxter, Dale Blair, Lillian Bloom, Martha Brugler, Harold Burbach, Roberta Collins, Reta Lou Dilley, Herman Jackson, Eva Oakes, Charles Smith, Josephine Stackhouse, Mary Alyce Steadman, Richard Unangst, David Wells, and Peter Williams. Of course, it was no job to teach us our ABC's and how to count, print, or read!

It is now September, 1946, and thirty-one of us are second graders. Our new teacher is Mrs. Lillie. We girls just loved her because she let us play with her fur coat. This year Judith Watson, one of our present members, joined us.

The time is now September, 1947, and we have been promoted to third grade. We added another permanent member, Larry Gallatin. This year our teacher was Mrs. Jennings. There are still thirty-one of us. Here we began to learn how to add, subtract, multiply, and divide.

On to the fourth grade in 1948, where our class is divided. Part of us are in with the fifth graders and part of us are with the third graders. We change rooms for some classes. This means that all of our class even though we are divided have both Mrs. Wall and Mrs. Jennings for teachers. In this grade we racked our brains just to learn geography from Mrs. Wall.

Now in September, 1949 we are fifth graders and there are twenty-six of us. This year we are all together in the same room under the direction of Mrs. Wall again. This year we racked our brains over history. It's hard to get an A from Mrs. Wall.

Now in September, 1950, we are finally the "Big Deals" of the grade school. We are sixth graders. Thirty of us enjoyed the wonderful guidance of Mrs. Seaholm.

This year, September, 1951, we feel we are starting all over again as we walk slowly clear to the top floor. Yes, we are seventh graders. As usual we got in the wrong place the first day. We just couldn't seem to get on to changing classes, but with the help of our instructor, Mr. Delpero, we came through in no time. This year out of the thirty-three members, which is the largest our class has ever been, Donald Gruver and Lee Wilson are members of our class and have been with us ever since.

September, 1952, and we are eighth graders. There are thirty-one in our class now and we are under the direction of Mr. Anderson. We still can't understand why this year everything that happened they always blamed us!

As we go on into September, 1953, we are intelligent "eighth graders" or Freshmen. Janice Perkins who is still with us is one of the twenty-six members of our class. We were initiated by the Sophomores. I think we had as much fun as they did! This year, with the help of Mr. Rechedy, we began earning money to reach our goal.

We are Sophomores this September, 1954. There are only twenty-three of us now and we still have Mr. Rechedy as a home room teacher. Of course money is our biggest problem, but we're working. We initiated the Freshmen, for which they will never forgive us.

Steve Lucik joined us as Juniors this September, 1955, which makes twenty-three class members. We know we are really going to have to work this year - not only on books but for our class, too. But we have very little worry because of the wonderful supervision of Mrs. Heberling, whom none of us will ever forget. To earn money we had dances, sold tee-shirts, sweat-shirts, jackets, pencils, school emblems, bracelets, home-made candy, candy bars, potato chips, hot-dogs, and pop at the ball games, and also we raffled cakes at our ballgames. Then came the play on November 3, which also helped us to earn money. The Junior-Senior Prom was next on the agenda. After some difficulties it was decided to entertain the Seniors and all high school teachers at the Jade Room in Youngstown. Herb McPherson and his orchestra were enjoyed greatly and we all had a wonderful time.

At last this September, 1956, we are twenty-one happy Seniors. Many activities are scheduled for us this final year. We also have to think about earning some more money. But by now we are quite accomplished! We plan to have dances, a supper, sell stationary, present a Senior Play, and other activities to earn money. Our main project this year is the yearbook. We are hoping that with the advice of our understanding advisor, Mrs. Glowe, our yearbook will be a success.

As we think of all the things that have happened we are quite proud of ourselves. We feel that we have participated in all sports and activities to the best of our ability. From the time we were Freshmen the majority of our class has been participants in all sports. We hope our parents, who we thank with all our hearts for making all these wonderful years possible, are proud of us also and may be proud of us in the years to come.

Class Poem

The time has come to say goodbye
And although we leave with sorrow
We hope for a brighter tomorrow.

As we go into the waiting world
beyond these halls.
We thank you, Vernon, for teaching
us right from wrong inside these
walls.

During the twelve years of work
and play,
We thank you, Vernon, for shaping
our lives this way.

Class Prophecy

As we look into the future to the year 1970, we find the graduates of 1957 as quite different people from those that graduated thirteen years before.

The first one we see is Donna. She is a sweet nurse in the Cat and Dog Hospital. One of her best customers is Roberta and her dogs. She now owns a Chihuahua Kennel!

The next one we see is Steve. He is still on the farm and is just hurrying home to milk his cows.

Then we see Larry, who owns the Kinsman Chemical Co., and is making out very well. He has hired as his assistant, David Wells. David isn't looking very well these days. Those experiments that they perform are almost too much for his nerves!

Pete has really changed. He has put on so much weight that you wouldn't know him. He now owns the best restaurant in New York. Since Lee could not find work when he graduated, Pete has hired him as dishwasher and he is very efficient.

Josephine has a fine job modeling the latest fashion in ladies jeans.

Herm has become a hobo and he finds that living is very cheap and carefree that way.

Dale has become a hefty wrestler and is hard to beat, they say.

All we see of Eva is a blurred streak as she speeds by in her "souped up" Ford.

Reta Lou has a good job test driving all new Fords.

Martha has been chosen for America's best dressed woman of the year.

Mary Alyce is designer and seamstress for Hollywood's best dressed actresses.

We find Don in deep concentration over a book he is writing. It is called "Why Women Act That Way."

Dick has opened a school where he teaches acrobatics. He can perform very well.

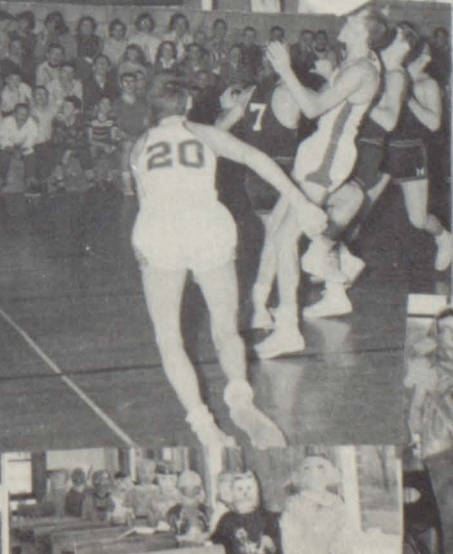

Harold is now a very successful business man. In fact, he is president of the Burbach Steel Co., the world's largest.

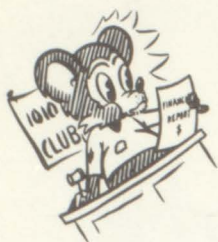

We find Chuck busily attending to his junk yard in California, where he has collected all of Elvis Presley's used Cadillacs.

Lillian is now an air stewardess in Spain. She is putting the Spanish, which Mrs. Glowe taught her, to work.

Janice is spending her time relaxing on her private beach in Florida, where she has become very wealthy.

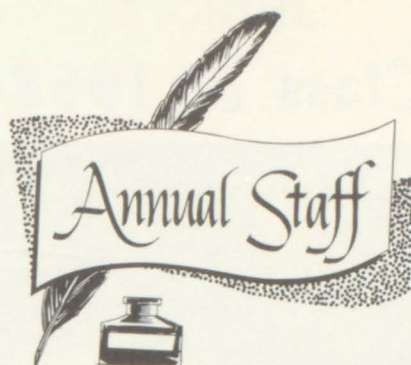

We see Judy behind a typewriter pounding away. She tries out new typewriters for all the large companies. She really gives them a workout.
