

The Pierre Monteux School for Conductors and Orchestra Musicians

As we concluded our 2006 season, we asked our students to tell us about their experiences. Here is a sampling of their responses.

✿ *"The experience and guidance that I've had is priceless... To have people from all over the country to be at one place for the same purpose is absolutely incredible."*

✿ *"The repertoire experience is second to none. The chance to play this many works is unbelievable... It makes this institution purely unique."*

✿ *"This school has opened so many doors as a musician... musically, personally, and with all the people I've met over the summer, truly worth every sacrifice."*

✿ *"The collaborative atmosphere provides a setting for unparalleled growth, a sort of laboratory for experimentation, and with everyone striving toward improvement and excellence, the support is fantastic."*

✿ *"The summer propelled me into the confidence I have been looking for as an orchestra musician."*

✿ *"Being in a room surrounded by music every day only felt like a great privilege. When anyone ever pays me to make music... it will be because of my experiences here."*

✿ *"Before I came here I planned on just finishing my undergrad in business and math and being done... get a job... Now I plan on applying for grad school in music and continuing my education. Of course, I'll be back next summer."*
