

Dave Freeman + Art Lefewer worked together this morning

47.	American Goldfinch	6	near WMSP
48.	Rufous sided Towhee	1	WMSP
49	Lark Sparrow	3	covered bridge Linn County
50	Field Sparrow	3	WMSP

Today was clear and real cool 9m. with a record breaking low of 52° . The high today was 80° . This morning at 7:45am. Pearl, Lois and I took off on a sight seeing tour. Lois drove east on Hy 36 to Hy 13 at Hamilton, Mo. We went south there on 13 to Lexington, Mo where we looked over the battle ground of the Civil War battle of Lexington. We also toured the Anderson House there. From there we drove to the Watkins Mill State Park where we toured the Watkins Mill and the Watkins Home. From there we drove north on 69 Hy to 36 Hy. at Cameron, Mo. We drove east then to La Clede, Mo. where we toured the General John J. Pershing boyhood home. We had heard of a covered bridge in Linn County which was on an unused county road a few miles west of La Clede. We talked to the attendant at the Pershing home about it and he said that because of several washouts on the way we couldn't get any where near the bridge. We decided to see how close we could get. We drove to where a washout had occurred on both sides of a bridge about half a mile or maybe less from the covered bridge. Because it ~~is~~ has been dry lately I found that by walking upstream I could

Cross over and come down to the road on the other side which was muddy and partially under water. I wanted to get a picture of the covered bridge so I told Pearl & Lois that I was going to try & make it within sight of the bridge. Pearl & Lois were both in white slacks and good shoes but they insisted they come with me. We locked the car & left it in the middle of the road & took off. We did finally make it to the covered bridge. We walked through soft sand, mud, water, thru timber, through weeds sometimes almost head high but we got the pictures to prove it. We got home about 7:15 P.M. Dave Easterla called me about 9:30 P.M. He had taken the Bolchow breeding bird survey this past Monday and at one stop about midway of the survey observed a hawk with long pointed wings flying, hovering over a field. The bird dropped down & picked up something small (about mouse size) & flew over to another field & proceeded to eat it. Dave went to a farm house near by & called Mark. Mark came by right away but by then the bird had disappeared to the south east. Dave talked to the farmer later (today I think) and the farmer said that he saw this same bird again that same evening. Apparently no one has seen it since. It would be a life bird for me. Dave says it was a white-tailed Kite.

Sunday, June 20, 1976

37	Song Sparrow	1	near Maryville

Today was clear & warm. It was a beautiful morning as it was cool. The temperatures were low 49° high 84°. I slept until about 7:30 AM. Chad stayed with us last night. After breakfast Reed and I headed for Maryville, Mo and covered the area that Dave Easterle had seen the White-tailed Kite in. I really didn't expect to see it but I did want to be able to say that I went and looked for it. We got home at 11:30 AM and stayed home for the rest of the day.

Monday, June 21, 1976

~~30~~ Today was mostly cloudy & warm. The temperature

were low 65° high 78°. I am now supposed to have a three day weekend off. I don't work tomorrow (Dave and Bette does). Then Independence Day will be observed on Monday. That gives me three days off. I believe that it is the first three days in a row that I have gotten off in that manner since I began working over 45 years ago. I have been off 2½ days several times but never three other than what I might have taken off for ~~vac~~ vacation.

Today was cloudy all day & cool. Really pleasant. This afternoon Pearl & I took Chad to the St Joseph Museum and the Pony Express Museum. He enjoyed himself more playing on the swings and slides in Patee Park than he did in the Museums. When we got back home Lois took Chad and Pearl & I took a drive down around the Lakes and through Bluff Woods State Forest. Temperatures were low 67° high 76° Bette & Doug Freeman worked today.

Today was clear and nice. The temperatures were low 62°

high 81°. I got up about 8 AM ate breakfast and then at 9:20 A.M. Pearl & I headed for Squaw Creek. We did not stay to long. We were back home about 1 PM.

While at Squaw Creek we saw a dead mink on the road. Also a doe and a fawn. On a muskrat house out in the main pool we saw eight large snakes. Imagine that they were probably diamond back water snakes.

From what we could see of them they were somewhere about 2 to 2 1/2 inches in diameter and about 3 to 4 feet long. We spent the rest of the day at home. Bert & Viola Jennings, Lois, Larry, Marretta & Chad were all here for a cook out and then fireworks for Chad.

Today was clear & warm. The temperatures were low 55° high 85°. I got up at 7 a.m. at 8 a.m. Leo & Alloway and I headed for Honey

Creek. We birded there for about an hour or so and then headed back for town. We stopped at John Hamilton's home on our way back. On Saturday evening John and Julie both heard and saw a male Hooded Warbler. We stayed there until 11:30 PM but did not see or hear the Hooded Warbler. We then came on back home. Leo and I went to Honey Creek this morning to get the Acadian Flycatcher. It is a new Missouri bird for Leo. This evening Pearl, Leo and I went back to John + Julie's but still no Hooded Warbler.

Today was clear and hot. The temperatures were low 56° high 88°. Julie Hamilton called me this morning to tell me that the Hooded Warbler was back singing again. We were short of help at the wholesale so I couldn't get

away. This evening about 5:30 P.M. John called me at home to tell me that he and Julie both had just seen and heard the bird. I called Les Galloway and he and I both went out again. By the time we got there about 20 minutes had elapsed since John's call and the bird was gone so we neither saw nor heard the bird.

Today was clear and hot. The temperatures were low 74° high 93°. I slept until 7:30 am. I had to go to the wholesale this morning to wait on a customer. When I got home Larry, Mert & Chad were there. Larry helped me make a sun shade to cover Lois' air conditioner. They all ate dinner at our house. Then this afternoon Pearl & I drove down around the lakes and over through Bluff Woods State Forest & on back home. We stayed home the rest of the day.
