15	House Sparrow	300	everywhere
16	Cardinal	6	mo - Kans

Today was cloudy, rainy, damp & chilly all day. The temperatures were low about 50° high about 63°. I slept until 8:30 AM. We ate breakfast and then at 10 AM we drove south & went by Horse shoe Lake & Mud Lake and on to Atchison, Kansas where we drove through the Jackson City park. From there we went to the Atchison County Lake and then on up to the Brown County State Lake. We got back home at 2:30 P.M. I stayed in all the rest of the day. It is still hard to believe that I drove 115 miles today in all of the areas that we were in and wound up with only 16 species.

Monday, September 15, 1975

Today was mostly cloudy, a bit windy and chilly. The temperatures were low about 50° high about 62°

I worked until noon. Pearl & I left home after lunch at 12:45 P.M. & birded from home to Squaw Creek & back. We got home at 6:30 P.M.

We saw nothing unusual. Most unexpected bird was probably Least Bittern. There were lots of ducks but in fall plumage and so far out it was impossible to identify many of them.

15	Meadow lark	50	E.R.
16	Red wing Blackbird	1	E.R.
17	Common Grackle	15	6/8

Today was clear, cool and real nice. The temperatures were low 42° high 74°. A few days ago Ival Lawhon told me that he had seen a Pileated wood pecker out Easton Road where "Third Fork" empties into the Platte River. Pearl & I drove out there this evening (15 1/2 miles & 30 minutes) and sat for about one hour in the car just looking. We didn't see very much but we enjoyed just sitting watching and listening. It was very quiet, practically no traffic and not a cloud in the sky. I could sit like that for hours just looking and listening.

To day was clear and warm. The temperatures were low 46° high 86°. I worked until noon. I had planned on birding this afternoon but I stayed in all afternoon watching television. The main reason was that a Tim Barksdale from St Louis had called her this morning and tried to get me. He told Pearl that a *Sabines Gull* had been seen this morning at Alton Dam. I stayed in all afternoon mainly trying to get in touch with Dave Easterla. I finally got in touch with him about 5:30 P.M. He is hosting the Missouri Nature Conservancy meeting today and tomorrow and will not be able to go. John Hamilton will also be unable to go. So Les Galloway and I will probably go together tomorrow morning early if the bird is still there. I am to call Barksdale this evening after 10 P.M.

Today was clear and warm. Hot really for this date and for me. I got up at 7 A.M. ate breakfast and then Pearl, Chad (my grandson) and I drove to Squaw Creek. we got back home at Noon. There were lots of birds at the refuge but the roads were so dry and dusty and with so many autos it was really dirty. Late last night I called Dick Anderson in St. Louis and the Gull turned out to be an unidentified bird but definitely not a Sabine's Gull. Leo nor I either one wanted to drive a total of about 600 miles to see or not to see a bird that may be we had seen before. Temperatures Low 64° high 92°. A Record high.

Monday, October 13, 1975

Today was clear and real nice. The temperatures were low 32° high 68°. We had a heavy frost this morning and had a good bit of ice on the bird bath.

Pearl + I left home at 8:15 a.m. and headed for Maryville. We drove directly to the Maryville Sewage Lagoons. It was exactly 45 miles. We were rather disappointed in the number of waterfowl there. We stayed there only about half an hour and then drove to the "Hodaway County State Lake." There was practically nothing there so we then came back and drove over to the Squaw Creek N.W.R. All water areas were covered with water fowl. We ate our lunch there. We wound up today driving a total of 180 miles.

Today was clear and real nice. The temperatures were low 30° high 73°. I birded only four hours today. It was from 9 AM until 1 P.M. Beal, ~~Beal~~ Chad and I birded from home to Brown County State Lake in Kansas which was closed off until after hunting season is over. From there across country to Atchison County State Lake where I took a nice walk. It was there I saw the house wren. From there back home, all of our travels were in Kansas.

Today was clear, windy and cold. The temperatures were low 28° high 65°. I took a walk through the Cemetery early this morning and then around noon I drove out to Pony Express Lake. Pearl went to Kansas City with her sister Alice + Alice's daughter Kay. A cousin of Pearl's + Alice's by marriage, Charley Graham died Thursday morning. His funeral is to be Monday morning but Pearl + Alice + Kay drove down to the funeral home this afternoon. I then stayed in all afternoon and watched football games on Television.

Monday, October 27, 1975
