

35. John (Hoot) Hamilton. Met during the summer of 1963 at Squaw Creek through R.A. Brown. He is a St. Joseph resident. Although as of this date 10-16-63 I have known him and his wife only about 5 months I believe that if he continues at his present pace then he will be a top rate birder.

36. David Easterla, — I first met David Easterla at a State Audubon meeting at Lake Ozark State Park. He was a boy then of about 17 or 18. Have met him & birded with him many times since. It was my good fortune to be able to show him his first Snowy Owl which was also his 500th north american bird specie. To me he is one of the best.

37. Mark Robbins — I first met Mark when he was only about 14 years of age. After birding with him for only a few short years I predict that he will be one of the best birders in the U.S.A. by the time he is 30 years of age.

38. Jack Hilsabeck. A wonderful guy to bird with. He lives & teaches at Rosendale, Mo. high school. He also is a bird bander.

39. Mr. Leo Galloway. Teacher at Missouri Western State College. He and his wife both got their B.H.D.s at Texas A & M. He is around 50 years of age (1972) it's only a guess. Leo is a good steady birder.

40. Sebastian Patti. Sebastian is the best young birder out of Kansas City since Jim Rising. He is now (1975) a graduate of Duke University. Sebastian and Mark are good birding friends.

27. John Campbell. Not during the season.

Probably the most important day so far in my birding career was March 13th when Dean and Elizabeth Cole who are very good birders were nice enough to spend most of their day showing Lee Lawton and myself how to bird and help in identifying many new species for me.

Pine Siskins and Red poll usually seen eating the seed from the Birch Trees in Krug Park. One of my most pleasant surprises came on the morning of Feb. 28, 1954 at Krug Park. A man walked up to me and introduced himself to me as A. Dean Cole. He is one of the leading members of the Kansas City Burroughs Club. On one of my walks through Krug Park with Kenneth Hawman we came upon an old cemetery in an out of the way corner of the Park. On one of the stones was the dates, Born 1781, Died 1881 at the age of 100 years and 10 months.

April 1954.
